Chaskin, Bong Joo Lee, Surinder Jaswal, 2019 The concept of social exclusion has been widely adopted to describe the conditions of economic social political and or cultural marginalization experienced by particular groups of people due to extreme poverty discrimination dislocation and disenfranchisement *Social Exclusion in Cross National Perspective* examines the impacts of social exclusion on disadvantaged populations across four countries China India South Korea and the United States and provides a rich account of the interplay between globalization and social exclusion as well as how policies and social action respond to it *Social Care and Housing* Ian Shaw, David Clapham, 1998 Drawing out the implications for policy and practice from the latest research in housing and social work this volume illustrates the lack of communication between practitioners that is hindering service provision and provides suggestions for improving current practice The contributors examine the relationship of such factors as youth gender race education poverty health social exclusion and housing developments to the provision of housing for those in need Social workers have many clients including young people leaving care offenders people with disabilities or

mental health problems and those at risk of domestic violence for example who require intervention on their behalf to meet their housing needs Social Care and Housing argues that professionals need to be aware of the role of wider social problems in particular poor housing in reinforcing the deprivation of the lowest income groups that form the bulk of service users The contributors suggest that raising the profile of housing and welfare research within the social services and encouraging practitioners and educators to introduce a broader social context into practice would improve understanding of the relationship between housing and social care They also examine strategies for formulating coherent responses to client problems and explore the development of practice at the boundaries of social care and housing *Tackling Social Exclusion*

John Pierson, 2009-10-16 Thoroughly updated this new edition shows how social workers can combat the social exclusion experienced by service users and promote inclusion Each chapter is grounded in up to date practice examples and explores through activities case studies and exercises how the perspective of social exclusion is changing social work today
