Ritchey, 2008-04-11

Although there has recently been a relative abundance of material produced on adult education in rural areas outside the United States little work has been done that focuses on the changing nature of rural adult learning and instruction in the States Such neglect however does not suggest that rural issues and rural places lack relevance in contemporary U S society This volume seeks to expand our concept of the rural United States as it explores the role that adult educators might play in this complex context Indeed complexity is the hallmark of this volume Although rural areas are still composed of large expanses of open space a continuing process of suburbanization is resulting in demographic economic and cultural changes that challenge those teaching and learning in rural places This is the 117th volume in the Jossey Bass quarterly report series

New Directions for Adult and Continuing Education an indispensable series that explores issues of common interest to instructors administrators counselors and policymakers in a broad range of adult and continuing education settings such as colleges and universities extension programs businesses libraries and museums *Decentering the Ivory Tower of Academia* Dianne Ramdeholl, 2013-09-04 For many the academy has historically represented privilege and intellectual exclusion for others it has represented an increasingly contested site as marginalized populations have challenged the myth of the ivory tower being a haven of meritocracy and equal opportunities Still others persist in viewing universities as a level playing field a place where people are judged primarily by their ideas and intellectual contributions Ironically alongside these charged conversations of exclusivity privilege and opportunity has occurred the seduction of the ivory tower by market interests sacrificing standards in the interests of ill defined efficiency Much has been written on the increasingly market driven culture of higher education many have called this commodification and instrumentalization the most dangerous ideology of the current historical moment Yet within this landscape there have been scholars willing to make space to critically interrogate higher education in relation to multiple systems of oppression They are working to introduce new perspectives nurturing counter hegemonic knowledges Many have struggled to cocreate and sustain democratic spheres that decenter dominant interests with the aim of a more equitable society They have been part of a larger movement of academic warriors academics with consciences who live out their commitments by subscribing to the notion that scholarship and activism are inextricably intertwined This volume embodies their narratives and issues an open invitation This is 139th volume of this Jossey Bass quarterly report series Noted for its depth of coverage it explores issues of common interest to instructors administrators counselors and policymakers in a broad range of adult and continuing education settings such as colleges and universities extension programs businesses libraries and museums Under New Public Management Alison I. Smith, 2014-09-17 The institutional ethnographies collected in *Under New Public Management* explore how new managerial governance practices coordinate the work of people doing front line work in public sectors such as health education social services and international development and people management in the private sector In these fields organizations have increasingly adopted private sector management techniques such as standardized and quantitative measures of performance and an obsession with cost reductions and efficiency These practices of new public management are changing the ways in which front line workers engage with their clients students or patients Using research drawn from Canada the United States Australia and Denmark the contributors expose how standardized managerial requirements are created and applied and how they affect the practicalities of working with people whose lives and experiences are complex and unique Educating from Marx S. Mojab, S. Carpenter, 2011-09-14 Educators have been working to develop an important body of literature on neo liberalism capitalism and imperialism This combines original empirical studies with literature review from critical adult education and feminist theory to examine the theories and practices of adult education

from a Marxist Feminist perspective **Resources in Education** ,2001-10 American Journal of Health Education ,2005
