**Race-Ethnicity and Society** Benjamin B Ringer, Elinor R. Lawless, 2025-06-30 First published in 1989 *Race Ethnicity and Society* comes as a usable and comprehensive text on race and ethnicity in the United States Ringer and Lawless set out to fill the gap in the literature by incorporating the positive lessons of the racially turbulent 1960s and 70s Proposing a challenge to three conventional premises of many texts they argue that the treatment of racial minorities in America was qualitatively different from that experienced by the white immigrants that racism was not a mere aberration in American Society but was built into the very foundations of the society and that America's experience with minorities was not unique but can instead be located within the mainstream of European expansion and conquest *Race Ethnicity and Society* will be a standard source for students in the fields of sociology history and political science

*Social Class in American Sociology* Milton M. Gordon, 1963 *Class in American Society* Leonard Reissman, 2013-08-21 This is Volume II of twenty one in a collection of *Race Class and Social Structure* Originally published in 1960 this book is about the place of class and its synonyms status prestige and power in the structure of American society A dominant theme of the book is that classes do exist even though individuals are not chained to these social positions with unequivocal finality

**Social Control and**

**Self-Control Theories of Crime and Deviance** L. Edward Wells, 2017-07-05 Control theories have dominated criminological theory and research since the 1969 publication of Hirschi's seminal work on the social bond. Social control and self control theorists are unique in suggesting that patterns in criminal behaviors are better explained by variations in social constraints rather than by individual motivational impulses thus indicating that their main concerns are the explication and clarification of the techniques, processes and institutions of informal social control. The four major sections of this volume focus on the similarities and differences among the major contributors to the early developmental stage of social control theory, the central importance of parents, peers and schools in the creation of informal control mechanisms and their link to crime and delinquency, the theoretical underpinnings of self control theory including empirical tests and criticisms and theoretical integrations of social control and self control theories with various motivational theories of crime and delinquency.

*Abstracts of Contributed Papers: American Public Health Association 97th Annual Meeting, Philadelphia, 1969* American Public Health Association. Medical Care Section, 1969      Community Studies Colin Bell, Howard Newby, 2021-10-17

Originally published in 1971 this was the first text on community studies which analysed the major empirical work in this field in a comparative perspective. It is concerned both with the sociology of community and the sociology of community studies. It takes both the findings of individual studies and the research process itself as significant sociological data in their own right and it asks continually how do we know what we know about communities. Community Studies is then not only a contribution to that particular field but also to our understanding of the interaction between theory and method in sociology. Studies are analysed from North and Latin America, Britain and Western Europe and India. Two central problems, stratification and power, are considered at greater length. This book would prove to be an invaluable introduction not only for students of sociology but also for architects, planners and all those who had an interest in the community at the time. Its authors were and had been actively engaged in field research in this area.      **The American Family** Howard

Hoffman, 2013-06-29 Several years ago an anonymous donor gave a generous gift to the Department of Psychiatry and Behavioral Sciences at George Washington University School of Medicine. The donor suggested that the gift be used to support a conference on the current dilemmas of the American family and to publish its proceedings. The current chairman of the department, Jerry Wiener, formulated the initial plans for the conference with Leon Yochelson who had been chairman at the time the gift was made. Dr Yochelson is now Chairman of the Board of the Psychiatric Institute of the District of Columbia. These initial discussions led to a significant and sustained collaboration between the Department of Psychiatry and Behavioral Sciences at George Washington and the Psychiatric Institute in planning the conference and the present volume. A committee was established to plan the conference. It consisted of Peter Steinglass, Associate Professor of Psychiatry and George Cohn, Professor of Child Health and Development both of George Washington and Margaret Garrett, a member of the psychiatric staff at the Psychiatric Institute. The committee was jointly chaired by the editors of this volume. The committee re-

ceived indispensable assistance from members of the administrative staff of the Psychiatric Institute Al Bruce Carol Klein and Miriam Mathura Margaret Schnellinger of the Center for Family Research George Washington University was also very helpful in all phases of planning the conference
