Fiensy, 2014-07-22 What does economics have to do with Christian origins Why study such a connection First of all the New Testament makes many direct references to economic issues But second the economy affects every other aspect of life family religion community work health and politics To understand what it was like to live in a society one must understand what the economy was doing The study of the economy includes not only the goods and services of a society but also human labor and its control For one it entails the size of the pie of goods How prosperous was first century Galilee But the study of economy also takes account of the slice of the pie that each family obtained How fair was the economy to each family Those involved in the quest for the historical Jesus have discovered that the ancient economy is a major point of dispute among various interpreters Was the early Jesus movement a socioeconomic protest Or was it primarily a religious reform These two approaches understand Jesus in remarkably different ways This volume seeks to guide readers through some of the most controversial issues raised in the last twenty years on this important topic **Peasants, Prophets, and Political Economy** Marvin L. of this trend was the realist writer Gustav Freytag 1816-1895 the most widely read novelist of his era. Innovatively exploring all of Freytag's works: poetry, drama, novels, history, journalism, biography, and literary theory, Schofield examines how his popular writing systematically reimagined the social structures of German society, embedding political agendas within contemporary stories of private lives. Connecting the aesthetics of Realism with the political aims of the bourgeoisie, the study both reassesses Freytag's position within the German literary canon and re-evaluates received opinion on the socio-political function of Realism in German culture. Benedict Schofield is Lecturer in German at King's College London.

The Cambridge Ancient History Alan K. Bowman, Edward Champlin, Andrew Lintott, 1996-02-08 The period described in Volume X of the second edition of *The Cambridge Ancient History* begins in the year after the death of Julius Caesar and ends in the year after the fall of Nero, the last of the Julio-Claudian emperors. Its main theme is the transformation of the political configuration of the state and the establishment of the Roman Empire. Chapters 16 supply a political narrative history of the period. In chapters 7-12 the institutions of government are described and analysed. Chapters 13-14 offer a survey of the Roman world in this period, region by region, and chapters 15-21 deal with the most important social and cultural developments of the era: the city of Rome, the structure of society, art, literature, and law. Central to the period is the achievement of the first emperor, Augustus.

Restraint, Conflict, and the Fall of the Roman Republic Paul Belonick, 2023 *Restraint, Conflict, and the Fall of the Roman Republic* proposes a new explanation for the collapse of the Roman Republic, arguing that the collapse was due not to lost morals but instead to disintegration of consensus around how to apply them.
