Making Way for Genius Kathleen Kete, 2012-05-29 Examining the lives and works of three iconic personalities Germaine de Staël, Stendhal and Georges Cuvier Kathleen Kete creates a groundbreaking cultural history of ambition in post Revolutionary France While in the old regime the traditionalist view of ambition prevailed that is ambition as morally wrong unless subsumed into a corporate whole the new regime was marked by a rising tide of competitive individualism Greater opportunities for personal advancement however were shadowed by lingering doubts about the moral value of ambition Kete identifies three strategies used to overcome the ethical burden of ambition romantic genius Staël secular vocation Stendhal and post mythic destiny Cuvier In each case success would seem to be driven by forces outside one's control She concludes by examining the still relevant and still unresolved conundrum of the relationship of individual desires to community needs which she identifies as a defining characteristic of the modern world

The French Generation of 1820 Alan Barrie Spitzer, 2014-07-14 Alan Spitzer approaches the history of the French Restoration by examining the experience of a particular age group born between 1792 and 1803 the generation of 1820 A predominantly male middle class educated minority of this group was perceived as representing all that was most promising and specifically youthful in the period Their response to the pressures of transition was expressed in the fractious behavior of the youth of the schools and in voluntary associations masonic lodges conspiratorial cells and influential journals which depended on a dense network of personal relationships Professor Spitzer portrays these connections in a set of sociograms using new techniques for the visual representation of social networks Originally published in 1987 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The Narrative Shape of Truth Ilya

Kliger,2011-04-18 Its champions and its detractors have often understood the novel as the genre par excellence of truthlessness The Narrative Shape of Truth counters this widely accepted view It argues instead that the novel has found new historically specific configurations of truth and narrative The nineteenth century novel in particular can be understood as responding to the emerging tendency to view truth as inseparable from rather than opposed to time Ilya Kliger offers a nonreductive way of reading the histories of philosophy and the novel side by side He identifies the crucial moment in the epistemological history of narrative when at the end of the eighteenth century a new structural affiliation between truth and time emerged This book examines novels by four authors Balzac Stendhal Dostoevsky and Tolstoy as well as the writings of leading European intellectuals and philosophers Kliger argues that the realist novel can be conceived as prompting us and giving us the means to think of truth differently as immanent in a temporal shape rather than transcendent in a principle a fact or a higher order

1848 — A European Revolution? A. Körner,2000-02-17 This book is among the rare

contributions to the 150th anniversary of 1848 which takes a completely new theoretically informed approach Instead of a traditional social or political history the authors analyse the dichotomy between the international dimension in the ideas of the revolution and the nationalisation of memories in its commemorations over the past 150 years The book offers original research on the history of European ideas and takes part in the current debate about the relationship between history and memory

Nul ne pouvait être mieux que lui ce qu'il a voulu être dans ce livre le médecin de Stendhal Reprenant en spécialiste toutes les œuvres autobiographiques de Stendhal ainsi que les indications qu'on peut tirer de ses romans le docteur Robert Soupault a fait pour la première fois une enquête médicale complète sur le patient nommé Henri Beyle. L'étude des antécédents familiaux de l'enfance des maladies de Stendhal de ce que l'ancienne médecine appelait son tempérament celle de son comportement de ses réactions de son attitude d'amoureux ont permis au docteur Robert Soupault de poser un diagnostic d'introversion typique travers lequel on peut rendre compte des multiples contradictions du caractère de Stendhal. Cette étude entièrement nouvelle dans la bibliographie stendhalienne ne manquera pas d'intéresser tous ceux qui ont suivi avec sympathie l'œuvre du docteur Robert Soupault ainsi que tous les lecteurs fervents de Stendhal.

Caricature and French Political Culture 1830-1848 David S. Kerr, 2000-09-07 Charles Philipon 1800-1862 was the founder of the satirical illustrated press in France. With the newspapers he owned and directed *La Caricature* and *Le Charivari* he led an unprecedentedly coherent and vitriolic campaign of disrespect against King Louis Philippe and his regime. Using a group of young caricaturists the most talented of whom were Daumier, Grandville and Travies and the collaboration of a gifted team of writers including Balzac he crafted a new language of opposition. This book is the first full scholarly study of the structure of the illustrated press in the 1830s its contribution to political debate in France the dissemination of caricature and its potential as political propaganda and the links between caricature and other forms of political cultural discourse under the July Monarchy.

The Way of the World Franco Moretti, 2000-09-17 A combination of narrative theory and social history this new edition includes an additional final chapter on the collapse of the Bildungsroman in the years around World War I a crisis which opened the way for Modernist experimentation.

Heroic Imagination Frederic Ewen, 2004-05 Heroic Imagination Describes the historical period and the wide manifestation of creativity that took place between 1815 and 1848 in Europe from Napoleon's downfall in the battle of Waterloo in 1815 to the Restoration that sought to bring back the old order preceding the French Revolution. While revolutions and historical events were shaping the world the collective consciousness of the public began to integrate with the creative consciousness of the individual. The creative energies of artists philosophers poets political and social thinkers emerged and produced some of the most revered artistic geniuses in history such as Beethoven Byron Pushkin Balzac Stendhal Victor Hugo Delacroix Goya and Goethe. Frederic Ewen vividly depicts the new world of the early nineteenth century and the assemblage of genius that produced a body of art that has become the unforgettable property of all ages.
