Writing local history John Beckett,2013-07-19 This fascinating book looks at how local history developed from the antiquarian county studies of the sixteenth century through the growth of professional history in the nineteenth century to the recent past Concentrating on the past sixty years it looks at the opening of archive offices the invigorating influence of family history the impact of adult education and other forms of lifelong learning The author considers the debates generated by academics including the divergence of views over local and regional issues and the importance of standards set by the Victoria County History VCH Also discussed is the fragmentation of the subject The antiquarian tradition included various subject areas that are now separate disciplines among them industrial archaeology name studies family landscape and urban history This is an authoritative account of how local history has come to be one of the most popular and productive intellectual pastimes in our modern society Written by a practitioner who has spent more than twenty years teaching local history to undergraduates and M A students as well as lecturing to local history societies John Beckett is currently Director of the VCH A remarkable book that will be of great interest to students and scholars of local history as well as amateur and professional genealogists **Scientific Investigation of Copies, Fakes and Forgeries** Paul Craddock,2009-02-04 The

faking and forgery of works of art and antiquities is probably now more extensive than ever before The frauds are aided by new technologies from ink jet printers to epoxy resins and driven by the astronomic prices realised on the global market This book aims to provide a comprehensive survey of the subject over a wide range of materials emphasising how the fakes and forgeries are produced and how they may be detected by technical and scientific examination The subject is exemplified by numerous case studies some turning out not to be as conclusive as is sometimes believed The book is aimed at those likely to have a serious interest in these investigations be they curator collector conservator or scientist Paul Craddock has recently retired from the Department of Conservation Documentation and Science at the British Museum where he was a materials scientist *Jerusalem!* Tobias Churton,2015-05-12 Truly astonishing in its detail this must be one of the most illuminating and enlightening biographies to date Michael Eavis cbe Founder of the Glastonbury Festival A brilliant new biography of the mystic poet and artist William Blake and the first to explore his startlingly original quest for spiritual truth as well as the

profound lessons he has for us all today The hymn Jerusalem with its famous words by William Blake stirs our hearts with its evocation of a new holy city built in England's green and pleasant land However until now the spiritual essence of William Blake has been buried under myriad inadequate biographies college dissertations and arts commentaries written by people who have missed the luminescent keys to Blake's symbolism and liberating spirit Any attempt to uncover the real Blake is thwarted by his status as a legend or national treasure In Jerusalem Tobias Churton expertly takes you beyond this superficial facade showing you Blake the esoteric genius a myth maker brilliantly using symbols and theology to express his unique insights into the nature of body mind and spirit Churton is not only deeply knowledgeable about Blake's life and times but also uses his shared values with Blake to enter into his labyrinth of thought and feeling Challenging the conventional views of Blake as either a romantic poet or a rebel with ideas about free sex Tobias Churton's startling new biography reveals at last the real William Blake in all his glory so that anyone who sings Jerusalem in future will see its beauty with renewed understanding With access to a large body of never before published records letters diaries pamphlets and books Tobias Churton casts unprecedented light and perspective on William Blake's life and times Blake's writing heartfelt vivid and profound accounts for his status as one of the best loved poets writing in English Americans need no reminding that Blake inspired Ralph Waldo Emerson and American visionary Walt Whitman Yet he spent the larger part of his creative career being ridiculed and suppressed In Jerusalem Churton conjures a superb portrait of Blake's London and in particular the rivalries of the cultural community in which the poet artist was often misunderstood He argues that Blake believed Man does not belong to society rather we are all members of the Divine Body co-existent with God He was concerned with a total spiritual revival what had gone wrong with Man and how to put it right Blake's message has proved to be as challenging to today's readers as it was to his contemporaries Blake perceived so far ahead of his time that the philosophy of materialism would dominate the world a culture from which we now yearn to break free Jerusalem is unashamedly ambitious in its scope and objective Churton ends once and for all the persistent notion of Blake as a startling peculiarity whilst emancipating him from the labels of Romantic poet or national treasure Even if it means sacrificing some cherished illusions or uncovering a few painful surprises this compelling biography reveals for the first time the true spirit of William Blake

Rosemary Sweet, 2004-05-28 Eighteenth century Britain saw an explosion of interest in its own past a past now expanded to include more than classical history and high politics Antiquaries men interested in all aspects of the past added a distinctive new dimension to literature in Georgian Britain in their attempts to reconstruct and recover the past Corresponding and publishing in an extended network antiquaries worked at preserving and investigating records and physical remains in England Scotland and Ireland In doing so they laid solid foundations for all future study in British prehistory archaeology and numismatics and for local and national history as a whole Naturally they saw the past partly in their own image While many

antiquaries were better at fieldwork and recording than at synthesis most were neither crabbed eccentrics nor dilettanti At their best as in the works of Richard Gough or William Stukeley antiquaries set new standards of accuracy and perception in fields ranging from the study of the ancient Britons to that of medieval architecture Antiquaries is the definitive account of a great historical enterprise **Bronze Age Britain** Michael Parker Pearson,2021-01-29 During the Neolithic and Bronze Age a period covering some 4 000 years from the beginnings of farming by stone using communities to the end of the era in which bronze was an important material for weapons and tools the face of Britain changed profoundly from a forest wilderness to a large patchwork of open ground and managed woodland The axe was replaced as a key symbol first by the dagger and finally by the sword The houses of the living came to supplant the tombs of the dead as the most permanent features in the landscape In this fascinating book eminent archeologist Michael Parker Pearson looks at the ways in which we can interpret the challenging and tantalising evidence from this prehistoric era He also examines the various arguments and current theories of archeologist about these times Drawing on recent discoveries and research and illustrated with numerous maps plans reconstructions and photographs this book shows what life was like and how it changed during the Neolithic and Bronze Age **Catalogue** Bailey Brothers,1887 **British Topography** Richard Gough,1780 *Alban and St Albans: Roman and Medieval Architecture, Art and Archaeology: v. 24* Philip Lindley,Martin Heing,2024-11-01 This is a collection of eighteen papers presented at a conference that was held at the Hatfield Campus of the University of Hertfordshire with 122 members and guests from the United Kingdom the United States of America Germany and Norway were present The papers are on the research on various aspects of the art and architecture of the abbey at St Albans and provides an ideal forum for bringing together many aspects of the abbey s history *Somersetshire Parishes* Arthur Lee Humphreys,1905 *The Wiltshire Archæological and Natural History Magazine* ,1878 *Early Modern Catholics, Royalists, and Cosmopolitans* Brian C. Lockey,2016-03-09 Early Modern Catholics Royalists and Cosmopolitans considers how the marginalized perspective of 16th century English Catholic exiles and 17th century English royalist exiles helped to generate a form of cosmopolitanism that was rooted in contemporary religious and national identities but also transcended those identities Author Brian C Lockey argues that English discourses of nationhood were in conversation with two opposing cosmopolitan perspectives one that sought to cultivate and sustain the emerging English nationalism and imperialism and another that challenged English nationhood from the perspective of those Englishmen who viewed the kingdom as one province within the larger transnational Christian commonwealth Lockey illustrates how the latter cosmopolitan perspective produced within two communities of exiled English subjects separated in time by half a century influenced fiction writers such as Sir Philip Sidney Edmund Spenser Anthony Munday Sir John Harington John Milton and Aphra Behn Ultimately he shows that early modern cosmopolitans critiqued the emerging discourse of English nationhood from a traditional religious and political perspective even as their writings eventually gave rise to later secular Enlightenment forms of cosmopolitanism *The Living Age* ,1894
