**Stuttering and Lipping (Classic Reprint)** E. W. Scripture Ph D. Leipzig,2018-08-05 Excerpt from Stuttering and Lipping In several European countries the state has established special opportunities for treating children with speech defects but the matter has not received the full attention justified by its importance In most medical faculties no place is accorded to speech defects the same is true in schools of pedagogy This was formerly justified on the ground that a scientific study of speech and its defects did not exist In the last decade however the science of phonetics has extended itself to laboratory work and university teaching moreover speech clinics have been established in several of the foremost medical schools The treatment of these defects thus stands upon an entirely new basis namely that of a carefully developed science of normal and pathological Speech The views here expressed as to the nature of stuttering and lipping and the methods of treatment proposed are the results of three lines of work The first is a long experience in experimental psychology in the laboratory of the University of Leipzig and later in my own laboratory at Yale University The second is an almost equally long specialization in experimental phonetics beginning at Yale and continued for four years in Germany under a grant from the Carnegie Institution Of Washington D C Some Of the results involved were first stated in my lectures at the University of Marburg germany Finally the treatment of thousands of patients in the speech department of the Vanderbilt Clinic and in private practice has developed the methods into forms that produce the maximum result with the minimum expenditure Of time About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged
