Style And Substance Leadership And The College Presidency:

Style and Substance Louis T. Benezet, 1982 Style and Substance Louis T. Benezet, Joseph Katz, Frances W. Magnusson, 1981 The Women's Movement and the Politics of Change at a Women's College David A. Greene, 2004-05 This study analyzes how Jill Ker Conway first woman president of Smith College implemented programmatic initiatives and changes to Smith's institutional culture that fit with her vision for higher education **Perspectives History Higher Education V 25 2006** Roger L. Geiger, **The Oxford Handbook of Leadership** Michael G. Rumsey, 2013 This book both acknowledges the complexity emerging from the three main components of leadership the leader the led and the environment while providing a sound foundational structure in which the complexity of this area of study can be better understood Perspectives on the History of Higher Education Roger L. Geiger, 2017-07-05 Volume Twenty Five of Perspectives on the History of Higher Education the silver anniversary edition offers three fresh contributions to the understanding of American higher education in the nineteenth century and three historical perspectives on topics of contemporary concern The divergent paths of antebellum colleges in the North and South have long been recognized Stephen Tomlinson and Kevin Windham discuss Alva Woods who moved from Calvinist New England to preside over the new University of Alabama Woods personified the commitment to evangelical Protestantism and rigid student discipline that prevailed in northern colleges of that era but in Tuscaloosa confronted the sons of planters raised to respect mainly independence power and the Southern code of honor Adam Nelson considers geology a crucially important science in early America that existed on the periphery of higher education but eventually exerted pressure for intellectual modernization He portrays the small community of scientific pioneers who sought the latest scientific knowledge from Europe surveyed the mineral wealth of American states and advocated for science in the college curriculum Beginning in the 1930s the National Research Council waged an organized campaign to encourage academic patenting and centralize it within one organization Jane Robbins explains the crosscurrents of interests that plagued and eventually scuttled that effort but that set the stage for the contemporary practice of university patenting Robert Hampel examines how for more than four decades students at Yale University took a major responsibility for learning into their own hands by publishing a Critique of courses He analyzes these documents to determine if their aims were to identify easy or challenging offerings and finds that this effort produced highly responsible articles A review essay by Doris Malkmus sheds new light on the experience of co-eds in The Community College Presidency George B. Vaughan, 1986 Who are the men and women leading America's two year colleges What are their distinctive roles and responsibilities their frustrations and rewards What leadership skills do they bring to their work And how do they interpret and articulate the community college mission in a changing society In this pioneering book George Vaughan answers these and many other crucial questions about the leaders of American community colleges Here community college presidents speak frankly about their beliefs values attitudes goals problems and objectives as do their

spouses colleagues and trustees The interviews conducted over a three year period provide an evolutionary perspective on the changing role of the presidents and the presidency From publisher s description **Leaders in the Crossroads**

Stephen James Nelson,2009-09-16 This book considers two intriguing issues One is an exploration of the characteristics that determine success and failure in the academy s top post The second is more complex but equally crucial What is the impact of presidents on the ideals of the university How do presidential leadership rhetoric and action connect to the fundamental beliefs and values at the foundation of the university College presidents are noteworthy leaders in and outside the gates Deliberations about the success and failure of presidents and their obligation to the foundations of the academy generate more questions than answers However this inquiry is crucial because it sheds light on the college presidency and on its relationship to the future of the university **No Equal In The World** Joseph N. Crowley,1994-06-01 No Equal in the World

is a comprehensive study of the literature on the American academic presidency from the middle of the nineteenth century when the first universities as distinct from colleges began to emerge to the present The book surveys widely divergent literature on the biographies of major presidents at crucial moments in the history of their institutions The book affords an overview of the development of both the role of the university president and the public s perception of that role and indicates where perception and reality diverge At a time when university presidents must find their way through a minefield of increasingly heated debates over issues such as free speech curriculum faculty diversity and the specter of political correctness Crowley s book provides a sense of history to those striving to understand the demands of the position It is an invaluable resource for scholars **Bass & Stogdill's Handbook of Leadership** Bernard M. Bass,Ralph Melvin

Stogdill,1990 For 15 years and through two editions this handbook has been indispensable for serious students of leadership Now in this third edition Bass introduces a decade of new findings on the newest theories and models of leadership With over 1 200 pages of essential information Bass Stogdill s Handbook of Leadership will continue to be the definitive resource for managers for years to come Inclusive Leadership Edwin Hollander,2012-09-10 This landmark book by Edwin P Hollander

comprehensive Bibliography Enriching our practical understanding of the leader follower relationship with many real world examples this book should be a basic addition to anyone s library on leadership Students of leadership management organizational psychology and behavior business sociology education political science and public policy will find it informative about successful practices of Inclusive Leadership and their applications to leadership events

Decades of Chaos and Revolution Stephen J. Nelson, 2012-03-22 Decades of Chaos and Revolution Showdowns for College Presidents is the story and comparison of two eras in the history of higher education The first era covers the period of the 1960s through the mid 1970s and the second is the first decade of the twenty first century Both decades were marked by events that shook the foundations of colleges and universities and society as a whole Nelson weaves an engaging story told through the eyes of the presidents of the institutions that were involved in the chaos of those eras For colleges and universities and their presidents these two decades are the toughest most tense and demanding of times in the last hundred years and likely in the entire history of colleges and universities in America The enduring images are equal parts chaos and change revolution and recovery dashed dreams and unflagging hopes Nelson asks of the two eras which faced the greater challenges Which era required more profound leadership And which was the more difficult and demanding of their time to navigate successfully It is clear that Steve Nelson sees the era of the 1960s and 70s as the most difficult He believes that it was the presidents of that earlier era who confronted dilemmas and controversies unimagined before and not witnessed since Decades of Chaos and Revolution presents an insightful picture of the tension and tumult that presidents of the 1960s and 70s had no choice but to face Nelson traces the roots of ideological battles in the university that have persisted over the last sixty years He examines what worked and what didn t in the tactics used by presidents in the face of the demands inspired by the protests and politics of the 1960s and shows how they have shaped succeeding generations of presidents Then he unravels the parallel issues and unfinished business of the 1960s which evolved in ensuing decades and with which presidents in the twenty first century must also grapple Watch the author talk more about the book on YouTube Part I Triggers leading up to the revolutions of the 60s 70s Part II Changes in the college presidency and the inspiration for the book

A Handbook for Seminary Presidents G. Douglass Lewis, 2006-06-13 There are now over 250 theological seminaries in the United States and Canada Leading these diverse institutions is a difficult task that combines elements of executive management academic prowess master storytelling and spiritual discipline Apart from informal mentoring relationships however there has been no resource specifically designed to impart collected presidential wisdom Douglass Lewis Lovett Weems and the four dozen other presidential contributors to this volume a project of the Association of Theological Schools in the United States and Canada together possess hundreds of years of combined experience in institutional leadership They pass along sage advice on everything from boards and enrollment to facilities and institutional advancement with special discussions of women in leadership Canadian schools and the challenges of university based programs Any person in administration at a seminary

recognizes that leadership in theological education presents a unique set of challenges A Handbook for Seminary Presidents aims to make this task easier and more fulfilling not only for the presidents themselves but also for deans faculty support staff and all who seek to effectively prepare the next generation of Christian leaders Contributors Daniel Aleshire Harold W Attridge Albert Aymer Rebekah Burch Basinger Michael Battle Maxine Beach Charles E Bouchard C Samuel Calian Cynthia Campbell John Canary Robert Cooley Vincent Cushing Marvin Dewey David Draper Ward Ewing Frederick J Finks Dorcas Gordon Thomas Graves Heidi Hadsell Adolf Hansen Martha Horne James Hudnut Beumler ByronKlaus Christa Klein Steven Land Robert Landrebe Robert F Leavitt G Douglass Lewis David Maldonado Kevin Mannoia David McAllister Wilson William McKinney Laura Mendenhall Ron Mercier Donn Morgan Richard J Mouw David Neelands Anthony Ruger Donald Senior Jean Stairs Brian Stiller Susan Thistlethwaite David L Tiede Timothy Weber Kent M Weeks Louis Weeks Lovett H Weems Jr Edward Wheeler Craig Williford Wilson Yates

A Study of the Moral Voice of the College President Stephen James Nelson,1995

Academic Strategy George Keller,1983-03 Alone among America s major institutions colleges and universities have traditional refused to adopt modern management and planning Now they have entered a perilous new era of declining enrollments inflated costs and shifting academic priorities The result higher education is going through a planning and management revolution This path breaking book describes in detail the nature and dimensions of education s dramatic reversal and the reasons behind it It examines the new role of strategic planning and the resulting changes in the role of professors trustees and college presidents It describes how colleges and universities can introduce the latest planning and management methods for their own benefit

Reading Yeats and Striving to Be a College President John O. Hunter,2011-01-20 What they undertook to do they brought to pass All things hang like a drop of dew upon a blade of grass W B Yeats The work of a college president or of any administrator in a position of responsibility is fraught with challenges and pressuresand also a fair share of dull burdensome moments To avoid becoming overwhelmed a president has to delicately handle both of these extremes while maintaining vision and continuing to serve the students and staff In Reading Yeats and Striving to Be a College President author and former college president Dr John O Hunter delves into the nature of his almost fifty year career in higher education and he reveals the powerful inspiration and guidance he received along the way The mostly chronological narrative of Reading Yeats is interspersed with letters to and from Dr Hunter and articles he wrote on a huge variety of topics ranging from art relationships and the workings of business to current events and issues of cultural conscience The lessons of his profession and his life are informed by the muses that gradually revealed themselves to himthe Father the Son the Holy Ghost and the words of master poets By finding muses and absorbing the lessons they embody we bring to the forefront the issues of primary importance in our lives and we are finally allowed the presence of mind to face them

Helping Children Affected by Parental Substance Abuse Tonia Caselman,2015-05-21 Focusing on helping children and teenagers affected by parental substance misuse this book brings together recent research and

practical strategies to help young people overcome feelings of shame Complete with ready to use worksheets the activities in this book are ideal for use in group therapy sessions

Leaders in the Labyrinth Stephen J. Nelson, 2010-04-16 Leaders in the Labyrinth sheds light on the ways presidents conduct the influence and power of their office especially in the use of their pulpits how they navigate issues of political correctness and how they hold the center of the university together in contentious times and against competing ideological forces Nelson has formulated a comprehensive image of the tenor talents and temperaments essential for today's presidency for those who aspire to assume leadership in the future and for those administrative and alumni leaders trustees and senior faculty who fix on and select the leaders of our colleges and universities In addition to academicians scholars administrators and trustees this book will interest any alumni or graduates who follow the leadership and fortunes of their alma maters and of other colleges and universities and their presidents The book argues for the central role of presidents and calls for their influence not to be restricted to the margin that is to fundraising and development Rather these leaders are and will continue to be instrumental in fashioning the university of the future in ways that are distinctive and pronounced among the various and competing forces presumed central to those future prospects and directions Leaders in the Labyrinth sheds light on how presidents conduct the influence and power of their office especially in the use of their pulpits how they navigate issues of political correctness and how they hold the center of the university together in contentious times and against competing ideological forces Nelson has formulated a comprehensive image of the tenor talents and temperaments essential for today's presidency for those who aspire to assume leadership in the future and for those who select the leaders of our colleges and universities Because this book depicts the stories and scenes issues and concerns ever embedded in the lives of colleges and universities Leaders in the Labyrinth will enrich readers interested in leadership in the fortunes of college presidents and in preserving the academy as a distinctive and irreplaceable enterprise

College Teaching and Higher Education Leadership James J. Van Patten, 1990 This work addresses the problems and issues within the fields of teaching leadership and management of college and higher education

The Essence of Leadership Edwin A. Locke, 1999-01-01 The Essence of Leadership presents a model for successful leadership that is based on real leaders rather than abstract theory Edwin A Locke examines the styles and methods of corporate giants and distills their common characteristics and skills into a prototype for effective leadership that any aspiring corporate or organizational leader can follow His model is based on four elements a leader possesses motives and personal traits knowledge skills and ability vision and the capacity to realize that vision Locke shows how his model works in the real world by applying it to David Garvin's study of sixteen Japanese and American manufacturers of air conditioners From these real life examples Locke concludes that it is indeed leadership that makes or breaks the success of a company General readers looking for practical guidelines to effective leadership will be especially interested in this book
