

## **Subhas Chandra Bose, The Indian National Army, and The War of India's Liberation**

The arrival of Subhas Chandra Bose in Germany in 1941 (during the turbulent period of World War II) and his anti-British activities in that country in co-operation with the German government, culminated in the formation of an Indian legion. This marks perhaps the most significant event in the annals of India's fight for independence. This event not only can be regarded as a historical link-up with what Bose himself chose to describe as "The Great Revolution of 1857," and which (in his words) "has been incorrectly called by English historians 'the Sepoy Mutiny,' but which is regarded by the Indian people as the First War of Independence." It also represents the historical fact that, by that time persuasive methods conducted through a non-violent struggle under the leadership of Gandhi, had failed. An armed assault on the citadel of the British Empire in India was the only alternative left to deliver the country from bondage. While other leaders of the Indian National Congress fell short of realizing this fact and thus betrayed a lack of pragmatic approach to the turn of world events that provided India with a golden opportunity to strike at the British by a force of arms, Bose rose to the needs of the hour and was quick to seize that opportunity.

While Bose's compatriots in India remained totally wedded to an ideological creed (non-violence), which at that time could only serve the British and postpone the advent of independence, and while their ideological interpretations of the new revolutionary regimes in Europe - again largely influenced by British propaganda - prevented them from even harboring any thought of seeking their alliance and co-operation in the struggle against a common enemy, Subhas Chandra Bose alone had the courage to take the great plunge, thus risking his own life and reputation, solely in the interest and cause of his country. In January 1941, while under both house arrest, and strict British surveillance, he escaped. After an arduous trek through the rugged terrains of several countries, with an Italian passport under the assumed name of Orlando Mazzini - (in which he was aided by underground revolutionaries and foreign diplomatic agents) - Bose appeared in Berlin, via Moscow, on 28 March 1941.

Bose was welcome in Germany, although the news of his arrival there was kept a secret for some time for political reasons. The German Foreign Office, which was assigned the primary responsibility of dealing with Bose and taking care of him, had been well informed of the background and political status of the Indian leader through its pre-war Consulate-General at Calcutta and also by its representative in Kabul. Bose himself, naturally some what impatient for getting into action soon after

Subhas Bose Abul Kalam, 1997 Diplomacy And The Independence Of Bangladesh: Portrayal Of Mujib's Statesmanship  
Abul Kalam, 2022-09-16 Diplomacy and the Independence of Bangladesh is unique in itself penned by a social scientist with extensive upbringing in studies on diplomacy strategic fields peace research modern history and international relations A witness to the momentous events of Bangladesh's struggle for emancipation as they unfolded during Pakistani rule in East Pakistan the author also sets in conceptual designs for objective appraisals of the farsighted statesmanship of its founder Sheikh Mujibur Rahman with added reflections on shifting dimensions of diplomacy and their ramifications for mankind's waning civilizational journey

**Subhas Bose** Abul Kalam, 1997 The book focuses on the contributions of Subhas Chandra Bose as a revolutionary politician and on his diplomatic undertakings It places in perspective his strategic blueprint or framework of action for the liberation of India It examines his concepts on international relations in an era when in many parts of the world the notion of nation state and that of inter state relations were being formulated It advances the view that Bose was perhaps the only nationalist leader who demonstrated a great deal of understanding of the dynamics of strategy and tactics involved in India's liberation struggle He displayed great skill in international diplomacy despite the constraints and limitations imposed by the existing frame of national liberation struggle and the colonial surroundings of the time It is suggested that it was Bose who could have delivered India from colonial bondage and might have saved the subcontinent from the vicious circle of conflict and disharmony disintegration and fragmentation Bose's views on regional subsystem and international system as a whole have also been projected to suggest that he was far ahead of his time The strategic framework of Bose and his diplomatic thought as well as his legacy of action may perhaps still serve as the basis for forging and reinforcing a peaceful evolution of co operative system in South Asia
