Subjectivity And Representation In Descartes The Origins Of Modernity:

Subjectivity and Representation in Descartes Dalia Judovitz,1988-01 **The Subject of Modernity** Anthony J. Cascardi,1992-03-19 The question of modernity has provoked a vigorous debate in the work of thinkers from Hegel to Habermas Anthony J Cascardi offers an historical account of the origins and transformations of the rational subject of self as it is represented in Descartes Cervantes Pascal Hobbes and the Don Juan myth **Bach's Dialogue with Modernity** John Butt,2010-01-14 A detailed 2010 analysis of Bach s Passions which demonstrates how they reflect and constitute priorities and conditions of the western world Time and the Shape of History P. J. Corfield,2007-01-01 In this lively comedy of love and money in sixteenth century Venice Bassanio wants to impress the wealthy heiress Portia but lacks the necessary funds He turns to his merchant friend Antonio who is forced to borrow from Shylock a Jewish moneylender When Antonio s business falters repayment becomes impossible and by the terms of the loan agreement Shylock is able to demand a pound of Antonio s flesh Portia cleverly intervenes and all ends well except of course for Shylock *Out of Time* Julian Johnson,2015-02-27 Out of Time explores a bold idea that western art music of the last four hundred years is better understood through the idea of musical modernity than by the usual periodizations of music history Reading against the grain of linear history it reconsiders the common concerns of music in terms of time and history space and technology language and sound The result is a rehearing of modernity and a rethinking of modern music **Early Modern French Thought** Michael Moriarty,2003 This book is an examination of three major French thinkers of the seventeenth century Descartes Pascal and Malebranche of whom the latter two are comparatively little studied in the English speaking world It deals with a common attitude of suspicion towards everyday experience which they see as dominated and obscured by sensation imagination and the presence of the body This attitude however obliges them to develop detailed and sophisticated accounts of the shaping of experience not only by the body but by interpersonal and social relationships and of the tension between humannature as it is and as we experience it The treatment of Descartes thus challenges the interpretation that sees him as eliminating the body from subjectivity while that of Pascal and Malebranche shows how their critical attitude towards experience a fertile source for twentieth century French thinkers is linked with their religious doctrines especially their Augustinian emphasis on Original Sin *The Subject Medieval/Modern* Peter Haidu,2004 This work presents a thorough historicist account of the development of subjectivity in the medieval period as traced in medieval literature and historical documentation **High Anxiety** Kathleen Perry Long,2002-03-01 This collection explores the evolution of notions about masculinity during the intense crisis of Renaissance and early modern France Authors of the period reflect the anxieties about masculinity that became more pronounced against the backdrop of major events and innovations of the period the religious conflict in France the repeated questioning of religious and royal authority the revival of Greek skepticism the discovery of the New World and the rise of clinical medicine These events in turn fueled growing doubt concerning the fixed

and hierarchical nature of gender distinction a distinction upon which many felt French culture was dependent for its very survival

Fabulous Identities Patricia Hannon, 2023-07-10 *Fabulous Identities* revises traditional interpretations of the fairy tale vogue which was dominated by salon women in the last decade of the French seventeenth century This study of women's tale narratives is set into an investigation of how aristocratic identity was transformed by political and social realignments forced by royal absolutism or ambitious materialism Women's distinctive contributions to the genre are defined by drawing upon various texts that articulated the century's moral cultural and aesthetic values as well as upon contemporary critical perspectives including seventeenth century historical and cultural studies Caught up in the philosophical political and social controversy over woman's nature seventeenth century women writers benefited from salon culture and their access to writing through the literary genres of fairy tales and novels to explore new identities and expand representations of subjectivity Women's tales can be seen as a theater for staging an authorial persona at odds with their portrait as presented in male authored didactic treatises and in the fairy tales of Charles Perrault At a time when the pressures of social conformity weighed heavily upon them the conteuses highlight through metamorphosis the affective dimension together with its impact on evolving notions of personal autonomy

Ecology Without Nature Timothy Morton, 2009-09-15 In *Ecology without Nature* Timothy Morton argues that the chief stumbling block to environmental thinking is the image of nature itself Ecological writers propose a new worldview but their very zeal to preserve the natural world leads them away from the nature they revere The problem is a symptom of the ecological catastrophe in which we are living Morton sets out a seeming paradox to have a properly ecological view we must relinquish the idea of nature once and for all *Ecology without Nature* investigates our ecological assumptions in a way that is provocative and deeply engaging Ranging widely in eighteenth century through contemporary philosophy culture and history he explores the value of art in imagining environmental projects for the future Morton develops a fresh vocabulary for reading environmentality in artistic form as well as content and traces the contexts of ecological constructs through the history of capitalism From John Clare to John Cage from Kierkegaard to Kristeva from *The Lord of the Rings* to electronic life forms *Ecology without Nature* widens our view of ecological criticism and deepens our understanding of ecology itself Instead of trying to use an idea of nature to heal what society has damaged Morton sets out a radical new form of ecological criticism dark ecology

Imagining the Soul in Premodern Literature Abe Davies,2021-06-28 This book is a study of ghostly matters of the soul in literature spanning the tenth century and the age of Shakespeare All people according to John Donne constantly beleeeve that they have an immortal soul But he also reflects that in fact there is nothing so well established as constrains us to beleeeve both that the soul is immortall and that every particular man hath such a soul In understanding the question of man s disembodied part as at once fundamental and fundamentally uncertain he was entirely of his time and Imagining the Soul in Premodern Literature considers this fraught shifting yet uniquely compelling entity in the context of the literary forms and effects involved in its representation Gruesome medieval dialogues between damned souls and worm eaten bodies verse and prose works by Donne Ren Descartes Margaret Cavendish and Andrew Marvell a profusion of sonnet sequences sermons manuals of instruction and travelogues Hamlet and its natural philosophical thinking about the apparently disembodied soul haunting Elsinore these chapters range across all this and more offering a rigorous yet accessible account of an essential aspect of premodern literature that will be of interest to scholars students and the general reader alike

Descartes's Fictions Emma Gilby,2019-03-15 Descartes s Fictions traces common movements in early modern philosophy and literary method Emma Gilby reassesses the significance of Descartes s writing by bringing his philosophical output into contact with the literary treatises exempla and debates of his age She argues that humanist theorizing about poetics represents a vital intellectual context for Descartes s work She offers readings of the controversies to which this poetic theory gives rise with particular reference to the genre of tragicomedy questions of verisimilitude or plausibility and the figures of Guez de Balzac and Pierre Corneille Drawing on what Descartes says about and to his many contemporaries and correspondents embedded in the early modern republic of letters this volume shows that poetics provides a repository of themes and images to which he returns repeatedly fortune method error providence passion and imagination for instance Like the poets and theorists of his age Descartes is also drawn to the forms of attention that people may bring to his work This interest finds expression in the mature Cartesian metaphysics of the Meditations as well as later in the moral philosophy of his correspondence with Elisabeth of Bohemia or the Passions of the Soul This volume thus bridges the gap between

Cartesian criticism and late humanist literary culture in France
