The Subtext of Form in the English Renaissance: Proportion Poetical , **The Subtext of Form in the English Renaissance** S. K. Heninger,1994 During the sixteenth century in England the logocentrism of the Middle Ages was confronted by a materialism that heralded the modern world With remarkable tenacity in music poetry and painting the orthodox aesthetic persisted as formal features which served as nonverbal signs and provided a subtext of form In opposition however a radical aesthetic emerged to accommodate the new attention to physical nature The growing force of materialism occasioned a fundamental rethinking of what an artifact might represent and how that representation might be achieved This book explores the ontological and epistemological issues that poststructuralist thought raises about that shift in our cultural history In doing so it charts a course for Renaissance studies now in disarray that avoids the old positivism while not succumbing to the new nihilism Renaissance Literature and its Formal Engagements M. Rasmussen,2016-04-30 What might a self conscious turn to formal analysis look like in Renaissance literary studies today after theory and the new historicism The essays collected here address this question from a variety of critical perspectives as part of a renewed willingness within literary and cultural studies to engage questions of form Essays by Paul Alpers Douglas Bruster Stephen Cohen Heather Dubrow William Flesch Joseph Loewenstein Elizabeth Harris Sagaser and Mark Womack together with an introduction of Mark David Rasmussen and an afterword by Richard Strier **Writing on the Renaissance Stage** Frederick Kiefer,1996 Playwrights also made extraordinary use of metaphors involving the written and printed word to describe the workings of the mind and the interaction of people **Renaissance Theories of Vision** John Shannon Hendrix,Charles H. Carman,2016-12-05 How are processes of vision perception and sensation conceived in the Renaissance How are those conceptions made manifest in the arts The essays in this volume address these and similar questions to establish important theoretical and philosophical bases for artistic production in the Renaissance and beyond The essays also attend to the views of historically significant writers from the ancient classical period to the eighteenth century including Plato Aristotle Plotinus St Augustine Ibn Sina Avicenna Ibn al Haytham Alhazen Ibn Sahl Marsilio Ficino Nicholas of Cusa Leon Battista Alberti Gian Paolo Lomazzo Gregorio Comanini John Davies Rene Descartes Samuel van Hoogstraten and George Berkeley Contributors carefully scrutinize and illustrate the effect of changing and evolving ideas of intellectual and physical vision on artistic practice in Florence Rome Venice England Austria and the Netherlands The artists whose work and practices are discussed include Fra Angelico Donatello Leonardo da Vinci Filippino Lippi Giovanni Bellini Raphael Parmigianino Titian Bronzino Johannes Gump and Rembrandt van Rijn Taken together the essays provide the reader with a fresh perspective on the intellectual confluence between art science philosophy and literature across Renaissance Europe Impossible Desire and the Limits of Knowledge in Renaissance Poetry Wendy Beth Hyman,2019-04-04 Impossible Desire and the Limits of Knowledge in Renaissance Poetry examines the limits of embodiment knowledge and representation at a

disregarded nexus the erotic carpe diem poem in early modern England These macabre seductions offer no compliments or promises but instead focus on the lovers anticipated decline and quite stunningly given the Reformation context humanity's relegation not to a Christian afterlife but to a Marvellian desert of vast Eternity In this way a poetic trope whose classical form was an expression of pragmatic Epicureanism became during the religious upheaval of the Reformation an unlikely but effective vehicle for articulating religious doubt Its ambitions were thus largely philosophical and came to incorporate investigations into the nature of matter time and poetic representation Renaissance seduction poets invited their auditors to participate in a dangerous intellectual game one whose primary interest was expanding the limits of knowledge The book theorizes how Renaissance lyric's own fragile relationship to materiality and time and its self-conscious relationship to making positioned it to grapple with these impossible metaphysical and representational problems Although attentive to poetics the book also challenges the commonplace view that the erotic invitation is exclusively a lyrical mode Carpe diem's revival in post-Reformation Europe portends its radicalization as debates between man and maid are dramatized in disputes between abstractions like chastity and material facts like death Offered here is thus a theoretical reconsideration of the generic parameters and aspirations of the carpe diem trope wherein questions about embodiment and knowledge are also investigations into the potentialities of literary form

Leon Battista Alberti and Nicholas Cusanus Charles H. Carman, 2016-04-22 Providing a fresh evaluation of Alberti's text *On Painting* 1435 along with comparisons to various works of Nicholas Cusanus particularly his *Vision of God* 1450 this study reveals a shared epistemology of vision And the author argues it is one that reflects a more deeply Christian Neoplatonic ideal than is typically accorded Alberti Whether regarding his purpose in teaching the use of a geometric single point perspective system or more broadly in rendering forms naturalistically the emphasis leans toward the ideal of Renaissance art as highly rational There remains the impression that the principle aim of the painter is to create objective even illusionistic images A close reading of Alberti's text however including some adjustments in translation points rather towards an emphasis on discerning the spiritual in the material Alberti's use of the tropes Minerva and Narcissus for example indicates the opposing characteristics of wisdom and sense certainty that function dialectically to foster the traditional importance of seeing with the eye of the intellect rather than merely with physical eyes In this sense these figures also set the context for his and as the author explains Brunelleschi's earlier invention of this perspective system that posits not so much an objective seeing as an opposition of finite and infinite seeing which moreover approximates Cusanus's famous notion of a coincidence of opposites Together with Alberti's and Cusanus's ideals of vision extensive analysis of art works discloses a ubiquitous commitment to stimulating an intellectual perception of divine essential and unseen realities that enliven the visible material world

Du Bartas' Legacy in England and Scotland Peter Auger,2019 Guillaume de Saluste Du Bartas was the most popular and widely imitated poet in sixteenth and seventeenth century England and Scotland C S Lewis felt that a reconsideration of his works British reception was long overdue back in the 1950s and this study finally provides the first comprehensive account of how English speaking authors read translated imitated and eventually discarded Du Bartas model for Protestant poetry The first part shows that Du Bartas friendship with James VI and I was key to his later popularity Du Bartas poetry symbolized a transnational Protestant literary culture in Huguenot France and Britain Through James intervention Scottish literary tastes had a significant impact in England Later chapters assess how Sidney Spenser Milton and many other poets justified writing poetic fictions in reaction to Du Bartas austere emphasis on scriptural truth

These chapters give equal attention to how Du Bartas example offered a route into original verse composition for male and female poets across the literate population Du Bartas Legacy in England and Scotland responds to recent developments in transnational and translation studies the history of reading women s writing religious literature and manuscript studies It argues that Du Bartas legacy deserves far greater prominence than it has previously received because it offers a richer more democratic and more accurate view of sixteenth and seventeenth century English Scottish and French literature and religious culture

The Poem and the Garden in Early Modern England Deborah Solomon, 2022-12-30 This book draws attention to the pervasive artistic rivalry between Elizabethan poetry and gardens in order to illustrate the benefits of a trans media approach to the literary culture of the period In its blending of textual studies with discussions of specific historical patches of earth *The Poem and the Garden* demonstrates how the fashions that drove poetic invention were as likely to be influenced by a popular print convention or a particular garden experience as they were by the formal genres of the classical poets By moving beyond a strictly verbal approach in its analysis of creative imitation this volume offers new ways of appreciating the kinds of comparative and competitive methods that shaped early modern poetics Noting shared patterns both conceptual and material in these two areas not only helps explain the persistence of botanical metaphors in sixteenth century books of poetry but also offers a new perspective on the types of contrastive illusions that distinguish the Elizabethan aesthetic With its interdisciplinary approach *The Poem and the Garden* is of interest to all students and scholars who study early modern poetics book history and garden studies

Frame, Glass, Verse Rayna Kalas, 2018-12-15 In a book that draws attention to some of our most familiar and unquestioned habits of thought from framing to perspective to reflection Rayna Kalas suggests that metaphors of the poetic imagination were once distinctly material and technical in character Kalas explores the visual culture of the English Renaissance by way of the poetic image showing that English writers avoided charges of idolatry and fancy through conceits that were visual but not pictorial Frames mirrors and windows have been pervasive and enduring metaphors for texts from classical antiquity to modernity as a result those metaphors seem universally to emphasize the mimetic function of language dividing reality from the text that represents it This book dissociates those metaphors from their earlier and later formulations in order to demonstrate that figurative language was material in translating signs and images out of a sacred and iconic context and into an aesthetic and representational one Reading specific poetic images in works by Spenser Shakespeare Gascoigne Bacon and Nashe together with material innovations in frames and glass Kalas reveals both the immanence and the agency of figurative language in the early modern period *Frame Glass Verse* shows finally how this earlier understanding of poetic language has been obscured by a modern idea of framing that has structured our apprehension of works of art concepts and even historical periods Kalas presents archival research in the history of frames mirrors windows lenses and reliquaries that will be of interest to art historians cultural theorists historians of science and literary critics alike Throughout *Frame Glass Verse* she challenges readers to

rethink the relationship of poetry to technology The Watchman in Pieces David Rosen, Aaron Santesso, 2013-06-18 DIV

Spanning nearly 500 years of cultural and social history this book examines the ways that literature and surveillance have developed together as kindred modern practices As ideas about personhood what constitutes a self have changed over time so too have ideas about how to represent shape or invade the self The authors show that since the Renaissance changes in observation strategies have driven innovations in literature literature in turn has provided a laboratory and forum for the way we think about surveillance and privacy Ultimately they contend that the habits of mind cultivated by literature make rational and self aware participation in contemporary surveillance environments possible In a society increasingly dominated by interlocking surveillance systems these habits of mind are consequently necessary for fully realized liberal citizenship div
