Suburban Crossroads Thomas J. Vicino, 2013 The political debate over comprehensive immigration reform in the United States reached a pinnacle in 2006 When Congress failed to implement federal immigration reform this spurred numerous local and state governments to confront immigration policy in their own jurisdictions In fear of becoming sanctuaries for immigrants numerous local communities confronted and implemented their own policies to limit immigration Thomas J Vicino unravels the political debate behind local ordinances such as the controversial Illegal Immigration Relief Act and similar laws He examines the evolution of the struggle for local control in three cities and suburbs beginning in Carpentersville Illinois then in Farmer s Branch Texas and ending in Hazleton Pennsylvania Drawing on numerous interviews census data analysis and field visits Thomas J Vicino carefully explains how and why the definition of local neighborhood problems determined the policy outcomes These provocative findings offer new perspectives on the local and state immigration debate as well as new reflections on future directions in policy and planning for local communities

Aliens in the Backyard John Leland, 2012-10-15 Foreword INDIES 2005 Popular Culture Book of the Year A fresh look at the origins of our iconic immigrant flora and fauna revealed with wit and reverence for nature Aliens live among us Thousands of species of nonnative flora and fauna have taken up residence within U S borders Our lawns sprout African grasses our roadsides flower with European weeds and our homes harbor Asian European and African pests Misguided enthusiasts deliberately introduced carp kudzu and starlings And the American cowboy spread such alien life forms as cows horses tumbleweed and anthrax supplanting and supplementing the often unexpected ways Native Americans influenced the environment Aliens in the Backyard recounts the origins and impacts of these and other nonindigenous species on our environment and pays overdue tribute to the resolve of nature to survive in the face of challenge and change In considering the new home that imported species have made for themselves on the continent John Leland departs from those environmentalists who universally decry the invasion of outsiders Instead Leland finds that uncovering stories of alien arrivals and assimilation is a more intriguing and ultimately more beneficial endeavor Mixing natural history with engaging anecdotes Leland cuts through problematic myths coloring our grasp of the natural world and suggests that how these alien species have reshaped our landscape is now as much a part of our shared heritage as tales of our presidents and politics Simultaneously he poses questions about which of our accepted icons are truly American not apple pie or Kentucky bluegrass not Idaho potatoes or Boston ivy Leland s ode to survival reveals how plant and animal immigrants have made the country as much an environmental melting pot as its famed melding of human cultures and he invites us to reconsider what it means to be American
