Success Stories Leonard Koren, 1990 *Thirteen Books* Leonard Koren, 2001 An author and book designer offers a candid look at his own creations **Business Strategy in a Semiglobal Economy** Panos Mourdoukoutas, 2015-03-26 This groundbreaking text provides both theory and strategy for operating in a semiglobal economy in which international businesses must compete in highly globalized and highly localized markets at the same time Unlike the traditional transnational and matrix corporate models a semiglobal corporation organizes its operations according to the global local content of its value propositions rather than according to geographical regions products or contribution to the parent company's performance As an example of a semiglobal corporation the Honda Motor Company has a global vision when it comes to highly global bundles like car engines and a local vision when it comes to highly localized car financing and servicing Designed as a supplementary text for courses in international business development economics marketing and strategic planning *Business Strategy in a Semiglobal Economy* raises important challenges to the conventional models of business organization and the competitive strategies that proceed from them **Area Bibliography of Japan** Ria Koopmans-de Bruijn, 1998 Provides a general overview of literature relating to Japan and covers a broad range of subject matter from art feminism and linguistics to corporate culture history and medicine Includes books published since 1980 that are related to the geographical area of Japan and to Japanese culture within that area *Kimono in the Boardroom* Jean R. Renshaw, 1999-09-23 Japanese women who comprise more than 40% of their country's workforce are essential to the Japanese economy Yet they are not typically thought of as managers at home or abroad Jean Renshaw challenges that perception in this pathbreaking book showing readers where and how an invisible evolution is occurring in Japanese business Traditional norms of lifetime employment the seniority system and the bureaucratic tightly knit nature of Japanese industry all restrict women's entry into management Despite these enormous barriers the number of Japanese women managers has almost doubled in the last ten years In an effort to discover the secrets of their success Renshaw interviewed over 150 successful Japanese women managers She explored family backgrounds personal characteristics socialization professional experiences and corporate cultures This book presents her sometimes surprising discoveries Renshaw completes the picture by surveying the history of Japanese women in management and discussing the even newer phenomenon of Japanese women who own their own businesses An eye opening work for managers of international firms and scholars of business and women's studies *Kimono in the Boardroom* reveals the potential of the rising female managerial class to profoundly change the male dominated culture of modern Japan *Never Bet the Farm* Anthony Iaquinto, Stephen Spinelli, Jr., 2010-12-03 In *Never Bet the Farm* two leading entrepreneurs Anthony Iaquinto and Stephen Spinelli turn much of the so called expert advice for entrepreneurs on its head They show that by preparing for setbacks and using a framework that can help reduce risks and simplify decision making entrepreneurs can increase their probability for success They refute the idea that there is an ideal

entrepreneurial type and show that luck can be as important as a business plan in many enterprises Above all the authors emphasize that entrepreneurship is a career not a one time event and winners are those who can keep themselves in the game Never Bet the Farm is an easy to understand and attractive tool for anyone who has a business idea but who might be wary of the risks implied in starting their own business The Way of Strategy William A. Levinson,2000-02-17 In 1831 General Carl von Clausewitz wrote that business is war Like war business is a competition between organizations The Way of Strategy is the art and science of managing organizations in competitive situations People organizations and management systems win wars and capture market share In business today the marketplace is the battlefield To win people and systems must deliver quality products and services to stay competitive The Malcolm Baldrige National Quality Award ISO 9000 series of quality standards and total quality management emphasize the same elements of success people organizations and systems This book unites the legacies of teachers such as Sun Tzu The Art of War Miyamoto Musashi The Book of Five Rings Niccol Machiavelli The Prince and The Art of War Carl von Clausewitz On War and others It describes how their strategies and leadership principles produced military victories Modern business examples show how these timeless principles apply to personal and organizational success After reading the book you ll have a clearer understanding of how military strategy can help you become a successful business leader manager and tactician **Business Tokyo** ,1991 *Riding the Black Ship* Aviad E. Raz,2020-03-23 In 1996 over 16 million people visited Tokyo Disneyland making it the most popular of the many theme parks in Japan Since it opened in 1983 Tokyo Disneyland has been analyzed mainly as an example of the globalization of the American leisure industry and its organizational culture particularly the company manual By looking at how Tokyo Disneyland is experienced by employees management and visitors Aviad Raz shows that it is much more an example of successful importation adaptation and domestication and that it has succeeded precisely because it has become Japanese even while marketing itself as foreign Rather than being an agent of Americanization Tokyo Disneyland is a simulated America showcased by and for the Japanese It is an America with a Japanese meaning Architects of Affluence Thomas R. H. Havens,2020-03-23 The interrelated Seibu and Saison enterprise groups have shaped Japanese consumer culture and made the Tsutsumi family fabulously rich Beginning with the colorful founder Yasujiro Tsutsumi Thomas Havens traces the family s fortunes through the rise of its various companies He examines the strategic thinking management styles and marketing techniques of Yasujiro and his sons explains how the companies have prospered outside Japan s zaibatsu and keiretsu business establishments and demonstrates how the Seibu enterprises have shifted Japanese culture from a frugal hardworking society to a New Breed that takes affluence for granted *The Global Corporation* Panos Mourdoukoutas,1999-01-30 Delineates subtle distinctions among concepts that are often taken as synonymous such as globalization multinationalization multinational corporation and global corporation and elicits their implications for international business management *EC-Japan Centre Directory of Sources of Japanese Information* ,1993 *Corporate*
