Carol Nackenoff, 1994 Investigating the persistence and place of the formulas of Horatio Alger in American politics The  
Fictional Republic reassesses the Alger story in its Gilded Age context Carol Nackenoff argues that Alger was a keen  
observer of the dislocations and economic pitfalls of the rapidly industrializing nation and devised a set of symbols that  
addressed anxieties about power and identity As classes were increasingly divided by wealth life chances residence space  
and culture Alger maintained that Americans could still belong to one estate The story of the youth who faces threats to his
