

6 Key Factors to Successful Strategic Planning

1

Create a Collaborative Inclusive Process

Collaboration is at the center of a successful strategic planning process. The fear of too many cooks in the kitchen is understandable, but creating a strategic plan in a silo is a huge mistake. The more inclusive and collaborative your process, the more support you will have across a diverse set of stakeholders, and the more your strategic plan will accurately reflect your organization's vision for the future.

2

Operate Off Data—Not Assumptions

Everyone makes assumptions, and has pre-conceived notions about their organization. However, starting the planning process without gathering data will set you up to fail. It's important to know where your organization is today, not where it was in the past. Using current data ensures you are solving current problems.

3

Set an Expectation for Shared Responsibility and Ownership

Oftentimes in a strategic planning process, a planning committee is appointed without much thought about their specific responsibilities, and without clearly defined expectations for participation. However, finding the right people (think team-players) to participate on the committee, giving them an opportunity to take ownership of the process, empowering them to make decisions, encouraging them to voice their concerns, and enabling them to serve as champions for the process is vital to your success.

4

Prioritize Transparent Communication

Transparency, more than anything, builds trust. If your stakeholders are going to buy into the plan, they need to trust you and trust the process. They also need to see how their ideas and inputs are being captured and shared through regular, transparent updates and communications.

5

Think Past the Strategic Plan

The last thing you want after completing a strategic plan is to have a document that sits on the shelf and gathers dust. Because of this, it's vital to look past the planning phase and think through how you'll actually implement your plan. This includes having a clear understanding of your capacity and the resources at your disposal, and determining the few priorities that will best help your organization achieve its goals. Successful strategic planning necessitates asking critical questions, making sometimes difficult decisions, and being OK with saying "no".

6

Commit to Making Changes—Especially Leadership

Change is difficult for everyone. It's especially difficult for organizations that have been doing things a certain way for a long time. However, external forces such as changing demographics and technological advances often necessitate major changes for an organization to remain relevant. To ensure your strategic plan's success, leadership needs to be willing to commit to letting go of outdated processes, rethinking their strategy, and making the changes necessary to lead your organization into the future.

At Blue Beyond, we love building effective organizations where both the business and people thrive. We are people-side-of-business generalists who are expert in the "soft stuff" that is so often the hard stuff—leadership, communication, change, culture, organizational effectiveness, talent management, and employee engagement. We partner with our clients to envision possibilities, activate their people, execute with excellence, and achieve breakthroughs.

in business

Toward a More Strategic View of Strategic Planning Research John M. Bryson, Lauren Hamilton

Edwards, David M. Van Slyke, 2022-08-15 This book summarizes the current state of research on strategic planning and offers an agenda for future research. The book edition comes with a new introduction that argues that strategising by public non-profit and business organisations should be a major focus of research. Strategising is what links aspirations, capabilities and implementation. Strategic planning should be viewed as one approach but not the only approach to strategising. A focus on strategising prompts researchers to consider issues of vertical and horizontal alignment of purpose including across sectors, competence and scalability, co-production, decision making and change management and trust, transparency, authenticity and accountability. Additionally, the role of various strategising techniques and information technology should be analysed further. Beyond the book's introductory overview of the field, chapters focus on the following topics: planning styles, collaboration, strategic plans and government performance, impacts of context and political responsibilities on government strategic planning efforts, impacts of strategic planning in municipal governments, impacts of austerity on strategic planning and government performance. The chapters in this book were originally published as a special issue of the journal *Public Management Review*.

Case Studies in Public Budgeting and Financial Management, Revised and Expanded W. Bartley

Hildreth, 2003-03-11 A resource for administrators seeking innovative ideas and supporting precedents in formulating policy, this book also provides a useful textbook for public administration and policy students. It employs a wealth of case studies in budgeting and financial management to demonstrate strategies in system implementation, policy formulation, government accounting, auditing and financial reporting. With contributions from leading experts, it clarifies procedures to solve cutback and downsizing dilemmas using theoretical models and provides pragmatic approaches to managing financial activities under budgetary strain. It also covers the evolution of a debt management policy.

Strategic Planning for Public and Nonprofit Organizations John M. Bryson, 2011-07-05 How can leaders use strategic planning to strengthen their public and nonprofit organizations? In this fourth edition of his perennial bestseller *Strategic Planning for Public and Nonprofit Organizations*, Bryson provides the most updated version of his thoughtful strategic planning model and outlines the reasons public and nonprofit organizations must embrace strategic planning to improve their performance. Introduced in the first edition and refined over the past 18 years, the Strategy Change Cycle, a proven planning process used successfully by a large number of nonprofit and public organizations, is the framework used to guide the reader through the strategic planning process. Bryson offers detailed guidance on implementing the process and specific tools and techniques to make the process work in any organization. In addition, he clarifies the organizational designs through which strategic thought and action will be encouraged and embraced throughout an entire organization. In addition to updated examples, new cases and additional information on boundaries, distinctive competencies, Actor Network theory, Bryson will create an instructor's manual with sample syllabi, PowerPoint teaching slides and additional cases.

Strategic Planning and Decision-Making for Public and

Non-Profit Organizations Nicolas A. Valcik, 2016-03-30 This book provides administrators in public and non profit organizations with direction and a framework from which to lead their organizations effectively Taking a global approach to the issues administrators need to examine when managing a group of employees at any level including budgeting and expenditures forecasting policy creation and execution communication and reporting this book explores the driving forces in organizational decision making Author Nick Valcik takes a holistic view on organizational management beginning with the core aspects of public organizations and the leadership competencies necessary to manage an organization successfully Designed to be used on undergraduate and graduate courses in public administration and in public affairs programs the book discusses the basics of organizational structure delves into risk management issues and offers a set of tools that can be used by administrators to make informed decisions based on actual data or documented processes Throughout the book real world case studies provide students and practitioners with a clear understanding of how exactly the right decision tool may be applied when facing a particular decision in any organization

Politics of Collegiality Cynthia Hardy, 1996-03-22 In *The Politics of Collegiality* Hardy uses six case studies to explore how power and collegiality interact within institutional contexts during periods of fiscal restraint Examining the funding cutbacks implemented by McGill University Universit de Montr al University of British Columbia Simon Fraser University University of Toronto and Carleton University Hardy demonstrates that institutional context and retrenchment strategy are linked in such a way that what works in some institutions will not work in others By offering insights into how financial restrictions have been managed in particular universities these individual case studies provide a conceptual framework for understanding institutional decision making on a larger scale Hardy reveals that university administrators must recognize this broader context if conflict is to be avoided and the consensus needed to implement effective retrenchment plans created

Strategic Planning for Nonprofits James Fulton, *Strategic Planning for Nonprofits* is a comprehensive guide that provides nonprofit organizations with essential tools and frameworks to develop effective strategic plans The book emphasizes the importance of aligning mission vision and values with practical goals and objectives It outlines the strategic planning process including stakeholder engagement environmental analysis and the

establishment of measurable outcomes Through case studies and real life examples readers learn how to navigate challenges unique to the nonprofit sector enabling them to create actionable strategies that foster sustainability enhance impact and drive long term success in fulfilling their missions
