Successful Dog Training:

Training the Dog Trainer Brian Hunter, 2022-02-01 Training your dog is fun and easy and a great way to bond. You can be the envy of other dog owners who look at the two of you and comment on how obedient and well behaved your dog is and how they wished their dog were trained like yours. There is a wide variety of videos and books available to guide you through all the specific behaviors you wish to train your dog to perform but you are not ready to dive into training just yet. *Training the Dog Trainer* is the first book you must read. It prepares you with dog knowledge and puts you on a path to be successful when you actually start the training. If you don't understand dog psychology and how to communicate with your dog so he understands your intentions, progress in training will prove to be more difficult than it has to be. Calmness, leadership and the right energy are vital keys for being successful. Secrets like these are found within this book and are required as your foundation before you ever give your first training command. Did you know that dogs learn quicker when you don't use your voice? *Training the Dog Trainer* will give you an inside look into what it takes to make your four legged friend happy to follow the leader you.

A Trained Dog Is a Good Dog Jan Meyer, 2012-10-04 A dog can be a wonderful companion with enormous affection for you and your family His keen senses and alertness can provide you with much needed protection but it is important to remember that you must be prepared to care for your pet for the next twelve or more years Like a child it will depend on you not only for its health and well being but also for dedicated training in order to become a friendly well mannered dog that is a pleasure for you and others It must also be remembered that we do not live in a dogs world but that our dogs are the ones who must learn to live in a human world It is therefore our responsibility to adequately prepare them for the unfamiliar environment in which we place them Society does not punish a child for pulling a dogs tail but will punish the dog for biting that child Before a handler can train his dog he must understand what is involved in the training process He needs to understand what is required from him and the dog in each part of each of the different obedience exercises He must be able to teach his dog what it is expected to know help it as much as possible and make it as easy as possible for the dog He needs to know about positive reinforcement in order to get the targeted behavior to recur and to reward good behavior Above all he needs to know when and how much to praise and what to do when the dog is not performing a task it was taught All this he cannot learn during the relatively short time he spends each week with the instructor at the club Six days a week he is alone at home with his dog and needs to continue to build on the training he received at the club He needs to remember the sequence of training steps and how to break them up into the small component parts to be mastered by the dog And when he becomes confused he needs help or notes to refer to This is what I had in mind when I decided to write these notes on basic dog obedience training There are many basic training methods from clicker training to the more traditional methods that can be used to train a dog for obedience work The perfect training method does not exist otherwise we would all have had copies made and used on our dogs No we are all learning and improving I have adopted an eclectic approach to dog training that is I

have over many years studied different training methods and selected from them what will work for most dogs At times however I may use a combination of these methods or I may shift from one method to another depending on the training need or exercise What is very important to me is that the reader must not only know about the best methods of teaching dogs today but must understand why a dog behaves the way it does Above all it must be remembered that dog training must be fun for both dog and trainer Most dog owners do not ask much of their dogs they ask only that the dogs obey some basic commands and that they are well behaved at home and in public That is why all dogs should at least do the Canine Good Citizen test I hope my notes will add to your knowledge of basic dog obedience training and that your trained dog will bring much joy to you and your family Jan Meyer BA SA MEd DCRT US HP MT
