Communication and Aging Jon F. Nussbaum,Loretta L. Pecchioni,James D. Robinson,Teresa L. Thompson,2013-05-13 This text employs a communication perspective to examine the aging process and the ability of individuals to adapt successfully to aging It continues the groundbreaking work of the first edition emphasizing a life span approach toward understanding the social interaction that occurs during later life The edition provides a comprehensive update on the existing and emerging research within communication and aging studies and considers such topics as notions of successful aging positive and negative stereotypes toward older adults and health communication issues It raises awareness of the barriers facing elderly people in conversation and the importance such conversations have in elderly people s lives The impact of nonrelational processes such as hearing loss are considered as they impact relationships with others and affect the ability to age successfully The book is organized into 14 chapters Each chapter is written so that the reader is presented with an exhaustive review of the pertinent and recent literature from the social sciences As in the first edition when the literature is empirically based the communicative ramifications are then discussed Readers of this volume will gain greater understanding of the importance of their communicative relationships and how significant they remain across the life span Developed for students in communication psychology nursing social gerontology sociology and related areas Communication and Aging provides important insights on communication to all who are affected by the aging process **Adopted Women and Biological Fathers** Elizabeth Hughes,2017-03-01 Adopted Women and Biological Fathers offers a critical and deconstructive challenge to the dominant notions of adoptive identity The author explores adoptive women s experiences of meeting their biological fathers and reflects on personal narratives to give an authoritative overview of both the field of adoption and the specific history of adoption reunion This book takes as its focus the narratives of 14 adopted women as well

as the partly fictionalised story of the author and examines their experiences of birth father reunion in an attempt to dissect the ways in which we understand adoptive female subjectivity through a psychosocial lens Opening a space for thinking about the role of the discursively neglected biological father this book exposes the enigmatic dimensions of this figure and how telling the relational story of reconciliation might be used to complicate wider categories of subjective completeness belonging and truth This book attempts to subvert the culturally normative unifying system of the mother child bond and prompts the reader to think about what the biological father might represent and how his role in relation to adoptive female subjects may be understood This book will be essential reading for those in critical psychology gender studies narrative work sociology and psychosocial studies as well as appealing to anyone interested in adoption issues and female subjectivity

Small Business: Journey to Success M. Gordon Hunter, Dan Kazakoff, 2012-01-01 *Small Business Journey to Success* highlights the issues required to be mastered for the success of a small business over the short term medium term and the long term Research Anthology on Small Business Strategies for Success and Survival Management Association, Information Resources, 2021-06-25 Running a small business provides opportunity for greater success increased growth and potentially the chance to move to the global business arena yet also much more risk Small businesses not only have less employment but also less annual revenue than a regular sized business With the growth of large corporations and chain businesses it has become harder to maintain the survival of a small business The COVID 19 pandemic has also brought more pressure onto the already unsteady survival of small businesses due to forced closures decreased agility fewer technological innovations and smaller customer bases The *Research Anthology on Small Business Strategies for Success and Survival* offers current strategies for small businesses that can be utilized in order to maintain equal footing during challenging times With the proper strategies available to small business owners small businesses could not only survive but also excel despite the environment that surrounds them Covering topics including decision management new supportive technologies sustainable development and micro financing this text is ideal for small business owners entrepreneurs startup companies family owned and operated businesses restaurateurs local retailers managers executives academicians researchers and students **Decided Return Migration** Aida Ibričević, 2024-06-04 This open access book creates conceptual links between political emotions citizenship home and belonging The book describes that in the case of decided return and reintegration to a post conflict society and a fragmented state like Bosnia and Herzegovina the returnees do not conceptualize the emotional dimension of their BiH citizenship as home and belonging as this citizenship does not make them feel safe and secure Instead feeling at home is found in family place and time while belonging is categorized as ethnic religious relational landscape linguistic and economic The emotional dimension of the home state citizenship is constituted through a wide spectrum of emotions ranging from anger frustration fear guilt shame disappointment nostalgia powerlessness to patriotic love pride defiance joy happiness and hope This book provides a valuable resource to students and scholars of migration and diaspora

Minority Success in Corporate Management Donna E. Thompson,Nancy DiTomaso,2012-12-06 To be a corporate executive in America is to achieve a universally recognized measure of personal and professional success The high income privilege prestige and authority enjoyed by most corporate executives all attest to making it That is why the advancement of racial and ethnic minorities into the executive suite is one of the key barometers of the nation s progress toward full equality of opportunity But the quest for equal opportunity in corporate management has been difficult and frustrating Black Hispanic and Asian men and women are rarely found among those who run or significantly influence the direction of American corporations The wide gap between the expectation and the reality is a continuing topic of interest to business leaders and racial and ethnic minorities as well as to scholars of the business scene This book edited by Thompson and DiTomaso contributes significantly to our understanding of this problem and most importantly provides useful guidelines on what to do about it Interest in the diversity of corporate management comes at a time of unprecedented challenge to United States success in the world economy American business must now compete against aggressive producers and fi nanciers in Western Europe and Japan More competition also has emerged from some of the rapidly developing countries in Latin America and the Pacific Rim Our ability to design manufacture sell and export goods and services in a global marketplace will increasingly determine our standard of living and prominence on the world stage **The Bad Sixties** Kristen Hoerl,2018-06-14 Winner of the 2018 Book Award from the American Studies Division of the National Communication Association Ongoing interest in the turmoil of the 1960s clearly demonstrates how these social conflicts continue to affect contemporary politics In The Bad Sixties Hollywood Memories of the Counterculture Antiwar and Black Power Movements Kristen Hoerl focuses on fictionalized portrayals of 1960s activism in popular television and film Hoerl shows how Hollywood has perpetuated politics deploring the detrimental consequences of the 1960s on traditional American values During the decade people collectively raised fundamental questions about the limits of democracy under capitalism But Hollywood has proved dismissive if not adversarial to the role of dissent in fostering progressive social change Film and television are salient resources of shared understanding for audiences born after the 1960s because movies and television programs are the most accessible visual medium for observing the decade s social movements Hoerl indicates that a variety of television programs such as Family

Ties The Wonder Years and Law and Order along with Hollywood films including Forrest Gump have reinforced images of the bad sixties These stories portray a period in which urban riots antiwar protests sexual experimentation drug abuse and feminism led to national division and moral decay According to Hoerl these messages supply distorted civics lessons about what we should value and how we might legitimately participate in our democracy These warped messages contribute to selective amnesia a term that stresses how popular media renders radical ideas and political projects null or nonexistent Selective amnesia removes the spectacular events and figures that define the late 1960s from their motives and context flattening their meaning into reductive stereotypes Despite popular television and film Hoerl explains memory of 1960s activism still offers a potent resource for imagining how we can strive collectively to achieve social justice and equality
