Step-Parenting 101 Nancy Kotowitz, 2016-08-05 In the divorce courts these days the rich and famous are not the only ones trying to protect their assets More than half our population today is a divorce statistic Many of these people are spending their lives after divorce battling in courtrooms over money custody and assets While the lawyers are loving it the rest of the world is not What if stepparents could actually enjoy step parenting by following a few simple steps What if other stepparents were happy and you weren't just because you did not know what to do or how to do it

What if you had control of your life rather than your life's situations controlling you? The difference is hoping things will get better or actually living your dreams. It is time to start living your dreams. Like any other challenge, step parenting can be broken down into steps. WARMUPS is an acronym for how stepfamilies should ease into their situation.

**Step One: What do you want in a relationship?** Relationship goals are the dreams your heart makes. Life is what you make it, and the goals you choose make your dreams come true. Know your outcome. Figure out exactly what you want out of this relationship. Find out if this relationship is right for you.

**Step Two: Ask your partner questions that reveal his/her values, beliefs, and morals.** Know what you have to work with. Figure out if your partner is compatible with you, and if you and your spouse have what it takes to make a step relationship work.

**Step Three: Research your facts.** Understand the many common challenges that stepfamilies face everyday that cause chaos and crisis.

**Step Four: Make your choice.** Decide, weigh the pros and cons. Decisions happen in a split second and can drastically change your life. Find out how to make a definite decision that is right for you.

**Step Five: Understand how to be an effective stepparent.** Learn the Ten Secrets of Successful Step parenting.

**Step Six: Practice makes perfect.** Practice the Ten Secrets of Successful Step parenting. Put into practice what you have learned.

**Step Seven: Ten Survival tactics and suggestions.** This is how and where to begin, and other helpful hints to make your step life a success. Put these steps into practice, and you will happily survive step parenting guaranteed.

WARMUPS is meant to help you not only to survive step parenting but also to learn to enjoy it. This book purposely includes exercises to help you understand, plan, and prepare for your step relationship. It does require you, not your spouse or your mother or your stepchild, to act. This book is meant to make you think, decide, and take action. It's time to take control of your life rather than complaining about your situation controlling you. If you are serious about surviving and enjoying your life, read this book and do the exercises. It is your life. It is your choice.

**How To Be Great And Successful Step Parent Without Spoiling Your Step Children** Ron K. Snyder, 2021-09-09. As many of you are preparing to remarry, you probably have expectations of what life will be like with your new spouse and new family. You're thinking something along the lines of happily ever after, perhaps. Sorry to burst your bubble, but let's take time out for a quick reality check. People rarely have a clue what a relationship with a step child will be like. It's not because we're stupid. It's just that there aren't any guide books for step families. We just assume it's OK to play by biological family rules. This leads

to many false assumptions Today I d like to look at some of the most common and present a more realistic view of what you re likely to experience 1 I get along fine with the children now so our relationship will only improve once I m married to their parent Children view their relationship with you VERY differently once you are married to their parent Things are permanent now Any hopes they may have been holding onto about mom and dad reconciling are dead and you re a part of that death This quite obviously can cause serious resentment 2 The kids are only over every other weekend That shouldn t cause much of a disruption to our home life Just because a child is over every other weekend doesn t mean they can t wreak havoc on your home and life I receive tons of questions from fledgling step parents struggling with what to do to manage what they view as the disruption to their lives when the kids come to visit It s not that they don t like the kids it s just that their usual schedule gets turned topsy turvy 3 My partner loves me so naturally the kids will too Nowhere does it say that just because a child s parent loves you that they have to Many kids have the opinion that they already have 2 parents and they aren t interested in having any more Your goal should be for a civil friendly relationship rather than one full of love If you get love great But don t count on it 4 I m an adult How tough can it be to win a kid over It can be VERY difficult to win over a step child The problem is your attitude It s really a manipulative one Rather than win them over the focus needs to be on being present in their lives and slowly trying to build a relationship with them 5 I won t have to be the bad guy with these kids My spouse will take care of all the discipline While this SHOULD be the way things go it rarely does Most of the time single parents are so happy to have another adult in the house they expect that person to step in and share the responsibility of discipline 6 My new spouse will make sure the kids treat me with respect This is another one that SHOULD happen but unfortunately a lot of parents are still wrestling with a sense of guilt over breaking up the family The guilt continues as the parent feels that the children are being forced into a new and different family A lot of times this guilt plays out by parents not requiring their children to treat the new member of the family that would be you by the way with the respect they deserve You may be asking How can I learn other important steps to being a great step parent Inside this book you will learn all the steps you need to take in order to cope and manage step parenting without soiling your step children and at the same time how to stay sane and productively enjoy being a great step parent The book is filled with comforting actionable steps
