Surface contemporary Photographic Practice:

Surface Design North, 1998 **Surface** Michael Mack, 1996 *Surface* packs the best of contemporary photography into one volume and explores its position in today's image centred environment. Stunningly designed, the 280 full colour images by 68 photographers flow in a visual narrative which is followed by a critical essay in which the editor Michael Mack analyses the direction of contemporary photographic practice. *Surface*, 2001 Fashion at the Edge Caroline Evans, Caroline Edwards, 2003-01-01 Caroline Evans analyses the work of experimental designers, the images of fashion photographers and the spectacular fashion shows that developed in the final decade of the twentieth century to arrive at a new understanding of fashion's dark side and what it signifies. Drawing on a variety of literary and theoretical perspectives from Marx to Benjamin Evans argues that fashion plays a leading role in constructing images and meanings during periods of rapid change. She shows persuasively that fashion stands at the very centre of the contemporary where it voices some of Western culture's deepest concerns. **Fashion Cultures** Stella Bruzzi, Pamela Church Gibson, 2013-10-18 From the catwalk to the shopping mall, from the big screen to the art museum, fashion plays an increasingly central role in contemporary culture. *Fashion Cultures* investigates why we are so fascinated by fashion and the associated spheres of photography, magazines and television and shopping. *Fashion Cultures* re-addresses the fashionable image considering the work of designers from Paul Smith to Alexander McQueen and Hussein Chalayan, investigates the radicalism of fashion photography from William Klein to Corinne Day, considers fashion for the unfashionable body, the old and the big, football and fashion, and geographies of style. It explores the relationship between fashion and the moving image in discussions of female cinema icons from Grace Kelly to Gwyneth Paltrow and iconic male images from Cary Grant to Malcolm X and Mr Darcy that have redefined notions of masculinity and cool. It makes a significant intervention into contemporary gender politics and theory, exploring themes such as spectacle, masquerade and the struggle between fashion and feminism. **Fashion Cultures Revisited** Stella Bruzzi, Pamela Church Gibson, 2013-12-04 Following on from the ground breaking collection *Fashion Cultures*, this second anthology *Fashion Cultures Revisited* contains 26 newly commissioned chapters exploring fashion culture from the start of the new millennium to the present day. The book is divided into six parts, each discussing different aspects of fashion culture: Shopping spaces and globalisation, Changing imagery, changing media, Altered landscapes, new modes of production, Icons and their legacies, Contestation, compliance, feminisms, Making masculinities. *Fashion Cultures Revisited* explores every facet of contemporary fashion culture and the associated spheres of photography, magazines and television and shopping. Consequently, it is an ideal companion to those interested in fashion studies, cultural studies, art, film, fashion history, sociology and gender studies. *The Long Now* Uta Barth, 2010 Text by Jonathan Crary, Russell Ferguson, Holly Myers *Skin Color and Whiteness in Contemporary Art* Helen Westgeest, 2025-04-29 This study demonstrates the significance of using contemporary art in scholarly debates about cultural aspects of skin, in particular whiteness as a phenomenon that is both overly visible and

invisible There is a need for a study of these artists strategies which consist of drawing attention to whiteness by means of making whiteness strange through alternative visibilities By increasing skin awareness the selected socio critical artworks also pertain to fostering visual literacy as another important contemporary concern Chapters mainly focus on recent artworks that address ongoing skin related debates in countries in Europe and North America rooted in histories of ideology of white supremacy Moreover these artworks critically reflect on the alleged superiority of the history of Western European painting including a focus on the representation of pale skin as model of beauty The book will be of interest to scholars working in art history race and ethnicity studies and cultural studies
