Suffering Witness:

Suffering Witness James D. Hatley, 2012-02-01 Drawing on the philosophy of Emmanuel Levinas James Hatley uses the prose of Primo Levi and Tadeusz Borowski as well as the poetry of Paul Celan to question why witnessing the Shoah is so pressing a responsibility for anyone living in its aftermath He argues that the witnessing of irreparable loss leaves one in an irresolvable quandary but that the attentiveness of that witness resists the destructive legacy of annihilation In this new and sensitive synthesis of scrupulous thinking about the Holocaust beginning with scruples about the term Holocaust itself James Hatley approaches all the major questions surrounding our overwhelming inadequacy in the aftermath of the irreparable If there is anything unique in a non trivial sense about the Holocaust surely it is the imperious moral urgency that compels those who contemplate it to revise their view of what it means to be human and to bear witness to such an event **Bearing Witness** Courtney S. Campbell, 2019-09-09 In *Bearing Witness* Courtney S Campbell draws on his experience as a teacher scholar and a bioethics consultant to propose an innovative interpretation of the significance of religious values and traditions for bioethics and health care The book offers a distinctive exposition of a covenantal ethic of gift response responsibility transformation that informs a quest for meaning in the profound choices that patients families and professionals face in creating sustaining and ending life Campbell s account of bearing witness offers new understandings of formative ethical concepts situates medicine as a calling and vocation rooted in concepts of healing affirms professional commitments of presence for suffering and dying persons and presents a prophetic critique of medical assisted death This book offers compelling critiques of secular models of medical professionalism and of individualistic assumptions that distort the physician patient relationship This innovative interpretation bears witness to the relevance of religious perspectives on an array of bioethical issues from new reproductive technologies to genetics to debates over end of life ethics and bears witness against the oddities of a market oriented and consumerist vision of health care that is especially salient for an era of health care reform *Witnessing a Wounded World* Timothy Middleton, 2025-11-04 A crucial intervention at the intersection of ecotheology and trauma theology We are in the midst of a global ecological crisis At times the scale of the suffering involved can be hard to fully comprehend The whole planetary ecosystem feels out of kilter Meanwhile trauma theorists and society at large have become increasingly aware of the incidence of trauma in a growing variety of contexts In *Witnessing a Wounded World* Timothy Middleton asks what might be gained by viewing ecological suffering through the lens of trauma By bringing concepts and methodologies from trauma theology to bear on questions that arise within ecotheology Middleton engages a series of pressing questions What kind of traumas are being precipitated by anthropogenic climate change and accelerating biodiversity loss What would it mean to envisage the Earth itself as traumatized And how might a Christian theologian respond From large scale deforestation and opencast mining to rampaging wildfires and fracturing ice sheets the Earth itself is subject to intense devastation *Witnessing a Wounded World* analyzes such phenomena in terms of three

traumatic ruptures to communication to flesh and to time Drawing on practices of witnessing and the insights of deep incarnation Christologies Middleton proceeds to offer a theological account of this ecological trauma For Christians a model of Christic witnessing can bring the Earth s suffering to light As the first sustained treatment of ecological trauma to address the trauma of the Earth itself Witnessing a Wounded World makes a profound contribution to discussions of suffering faith and the present ecological emergency

Justice and the Politics of Memory Gabriel R. Ricci,2017-10-24 Memory is not a mere repository for past events This was Henri Bergson s fundamental claim about consciousness In distinguishing our psychic constitution by its sense of the past Bergson differentiates our perception of time from a process in which one instant merely replaces another While Bergson cast his ideas in terms of the biological sciences his analysis did not neglect the moral

impulse that accompanies the condensation of history with which we continuously live Classifying human existence in this way bears on ethical and political questions How such questions can plague the memory of a people and the entire human community is addressed in Justice and the Politics of Memory The contributors explore the manner in which cultural and psychic violation undermine collective identity and destroy traditions They raise troubling questions on how recompense and reconciliation is possible after abominable wrongs have been systematically perpetrated against a community Faced with the burden of memory those committed to the righting of wrongs are faced with pursuing an elusive justice that sometimes includes levying reparations and memorializing horrific historical episodes Guided by the muse of forgiveness restoration and a more harmonious future are likely to be rooted in the sources of spirituality that had been previously eclipsed by the conquering and homogenizing historical processes This volume includes Heribert Adam s Collective Reckoning with a Criminal Regime Jeffrey Olick s Lessons from and for Germany James Hatley s Levinas Witness and Politics James E Young s Germany s Holocaust Memorial Problem and Mine Tim Giago s Killing the Indian to Save the Child The Near Death of Spirituality Jordan B Peterson s and Maja Djikic s Running Ahead You Can Neither Remember Nor Forget What You Do Not Understand Derick Wilson s Where Religion Confuses yet Faith Gives Hope Conflict Resolution in Northern Ireland and Leonard Kaplan s Justice Perfected Cinematic Exemplifications and an introduction Morality and Memory by the editor

With the Witnesses Dale Tracy, 2017-06-09 While trauma theory has been adopted by contemporary literary and cultural studies as an ethical way to study depictions of suffering there is a risk that its present use could cause more harm than good By emphasizing inaccessible histories unspeakable suffering and unconscious witnessing trauma theory may lead readers to claim others suffering through empathic identification In *With the Witnesses* Dale Tracy argues that poetry offers an alternative approach to engage with not only suffering in art but suffering in general Examining the strategies of witness poetry Tracy interrogates and reformulates the dominant models of trauma studies in which readers take over the witnessing position by identifying with the speaker as a witness If the purpose of reading such poetry is to contribute to a chain of witnesses what is the distinct role of a reader and how does it differ from the role of the poem s speaker Tracy proposes that metonymy a logic of nearness rather than likeness is compassion s formal manifestation Analyzing poetry that emphasizes the contiguity of metonymy over the substitution of metaphor she attends to the positions into which witnessing speakers invite readers Poems that respond to diverse national and transnational contexts of atrocity conflict and marginalization guide *With the Witnesses* toward a compassionate response to suffering that involves feeling with not as another Following each poem as a unique theory of compassion *With the Witnesses* demonstrates that poems hold suffering signed as art not claimable traces of suffering

Shaffer,2022-06-07 In a rootless world we long for a place where we find peace rest and belonging The soil of our society is not particularly well suited for growing deep roots of character and Christian identity The consistent pattern of uprooting our lives and families for a new job a new opportunity a new church has left our roots damaged our friendships weak and our souls drained We long for a place where we are known loved and even challenged to live more fully The longing for home for place for rootedness is ultimately a longing for Jesus Wrestling with the biblical themes of land and exile Rooted Growing in Christ in a Rootless Age is a call to grow more at home in our true home Jesus Christ Walking along with Israel from Eden through the Exodus to the Exile Stephen C Shaffer shows how God both rooted and uprooted his people so that they would find their identity and center in God *Integrating Health Humanities, Social Science, and Clinical Care* Anna-leila Williams,2018-12-07 The health humanities are widely understood as a way to cultivate perspective compassion empathy professional identity and self reflection among health professional students This innovative book links humanities themes social science domains and clinical practice to invite self discovery and recognition of universal human experiences Integrating Health Humanities Social Science and Clinical Care introduces critical topics that rarely receive sufficient attention in health professions education such as cultivating resilience witnessing suffering overcoming unconscious bias working with uncertainty understanding professional and personal roles and recognizing interdependence The chapters encourage active engagement with a range of literary and artistic artefacts and guide the reader to question and explore the clinical skills that might be necessary to navigate clinical scenarios Accompanied by a range of pedagogical features including writing activities discussion prompts

and tips for leading a health humanities seminar this unique and accessible text is suitable for those studying the health professions on both clinical and pre clinical pathways New Existence and Righteous Living Robert L. Cavin, 2013-08-29 As the first comparative study of Colossians and 1 Peter the book fills a lacuna by exploring each author's understanding of the new existence and the means to righteous living If the epistles end up offering almost identical paraenesis why do they have such distinctive theological patterns of thought The conventional starting point in Colossian and 1 Peter studies centers on the recipients needs Much has been learned from these investigations and is kept in view However the extent to which each epistle's theology reflects an underlying pattern of ideas within each author's worldview is less well understood Setting the author's views in the context of the literature of early Judaism throws fresh light on his thought world and understanding of the new existence and moral enablement Evidence exists which indicates that streams of traditions in Early Judaism Literature factors other than the recipients needs contribute to the theology within each epistle and may account for distinctive aspects identified between Colossians and 1 Peter Exploration of 4QInstruction and the Hodayot texts discovered at Qumran provides precedents precursors and parallels for the distinctive emphases investigated Thus they shed new light on each epistle **Recovering the Full Mission of God** Dean Flemming, 2013-10-04 Should our proclamation of the gospel be in words or deeds or both What do the Scriptures say New Testament scholar and missionary Dean Flemming takes a look at this disputed question Rooted in the Old Testament and covering the Gospels Paul Acts Peter and Revelation Flemming provides a biblically sound basis for holistic evangelism **A Commentary on I Peter** Leonhard Goppelt, 1993 This is a print on demand book and is therefore non returnable The work of a highly esteemed New Testament scholar this commentary on I Peter has unparalleled breadth and depth and reflects a lifetime of devoted scholarship Leonhard Goppelt presents here a rich exposition of I Peter that New Testament students and scholars will consult time and again with great profit Goppelt's detailed section by section and phrase by phrase commentary is preceded by a complete up to date bibliography and an extended introduction Scattered throughout the commentary are special notes and excursuses on several themes and issues related to the text of the letter The footnotes contain a wealth of bibliographical information which has been updated by translator John Alsup and an appendix by Alsup provides a brief appreciative survey of the life and works of Leonhard Goppelt Besides its unusually thorough treatment of the biblical text and the history of interpretation what distinguishes this commentary is Goppelt's balanced focus on I Peter as a document setting forth social ethical guidelines for Christians not just in the first century but in today's world as well A scholarly Christian classic this monumental commentary on I Peter will find a welcome place in seminary courses New Testament social ethics in theological libraries and in pastors studies Medium, Messenger, Transmission Sybille Krämer, 2025-10-01 This rich study provides a comprehensive introduction to media philosophy while offering a new perspective on the concept and function of transmission media in all systems of exchange Kr mer uses the figure of the messenger as a key metaphor examining a

diverse range of transmission events including the circulation of money translation of languages angelic visitations spread of infectious diseases and processes of transference and counter transference that occur during psychoanalysis *Spirit and Trauma* Shelly Rambo, 2010-09-02 Rambo draws on contemporary studies in trauma to rethink a central claim of the Christian faith that new life arises from death Reexamining the narrative of the death and resurrection of Jesus from the middle day liturgically named as Holy Saturday she seeks a theology that addresses the experience of living in the aftermath of trauma Through a reinterpretation of remaining in the Johannine Gospel she proposes a new theology of the Spirit that challenges traditional conceptions of redemption Offered in its place is a vision of the Spirit's witness from within the depths of human suffering to the persistence of divine love Violence of God and the War on Terror , Using the analogy of an abusive human relationship Young traces the influence of the psychology of such behavior on the major monotheistic religions concept of God and concludes that such imagery generates violence in the name of God in the contemporary world including in the war on terror Explores these theological themes in terms of U S imperialistic policies the Israeli Palestinian conflict and Jihadist ideology *Toward a Theology of Struggle* Eleazar S. Fernandez, 2009-02-01 The Theology of Struggle is a genuinely popular Filipino theology rooted in the history and culture of a people who have endured colonial oppression at the hands of Spain North America and Japan as well as neo colonialism and home grown dictatorship Because Christianity has played a role in assisting the history of oppression in the Philippines a theology of struggle must include a struggle in theology to wrest Christian symbols from the hands of the oppressors and return them to the poor This theology which is otherwise expressed in articles poems art and action receives its first systematic treatment in *Toward a Theology of Struggle* In Part One Fernandez establishes the historical and cultural context out of which the Theology of Struggle has emerged Part Two represents Fernandez's own constructive work in which he shows how a theology of struggle must address the quest for identity and peoplehood In Part Three Fernandez explores the question of theological method outlining the areas of convergence and distinction between the Theology of struggle and other Third World theologies as well as setting forth the distinctive challenge that this theology of the Philippines poses to the authority and dominance of Western theology as a whole
