Multinationals, Technology and Competitiveness John H. Dunning,2013 This book explores some aspects of the interface between technology competitiveness and the role of multinational enterprises in the world economy This group of essays stresses the role of asset creation and usage rather than reliance on natural factor endowments as a basis for national competitiveness and examines the role of multinational enterprises as vehicles for technological transfer and the efficient co ordination of economic activity across national boundaries   **Israel's Technology Economy** David Rosenberg,2018-04-07 This book documents how Israel emerged as one of the world s leading centers of high technology over the last three decades and the impact that it has had or failed to have on the wider economy and politics Based on the study of start up companies the project attributes the rise of Israel s tech economy to its unique history political system and culture and shows how those same factors have failed it in the quest to diversify its economy to make it more inclusive and equitable This work will interest economists political scientists Israeli studies academics investors policy makers journalists and business readers
