IEEE Technology and Engineering Management Society Body of Knowledge (TEMSBOK) Elif Kongar, Marina Dabić, Celia Desmond, Michael Condry, Sudeendra Koushik, Roberto Saracco, 2023-10-10 IEEE Technology and Engineering Management Society Body of Knowledge TEMSBOK IEEE TEMS Board of Directors approved body of knowledge dedicated to technology and engineering management. The IEEE Technology and Engineering Management Society Body of Knowledge TEMSBOK establishes a set of common practices for technology and engineering management, acts as a reference for entrepreneurs, establishes a basis for future official certifications, and summarizes the literature on the management field in order to publish reference documentation for new initiatives. The editors have used a template approach with authors that instructed them on how to introduce their manuscript, how to organize the technology and area fundamentals, the managing approach, techniques, and benefits, realistic examples that show the application of concepts, recommended best use focusing on how to identify the most adequate approach to typical cases with a summary and conclusion of each section plus a list of references for further study. The book is structured according to the following area knowledge chapters: business analysis, technology adoption, innovation, entrepreneurship, project management, digital disruption, digital transformation of industry, data science, and management and ethics and legal issues. Specific topics covered include: Market requirement analysis, business analysis for governance, planning, financial analysis, evaluation and control, and risk analysis of market opportunities. Leading and managing working groups, optimizing group creation and evolution, enterprise agile governance and leading agile organizations and working groups, Marketing plans for new products and services, risk analysis and challenges for entrepreneurs and procurement and collaboration, Projects, portfolios and programs, economic constraints and roles, integration, management and control of change and project plan structure. The IEEE Technology and Engineering Management Society Body of Knowledge TEMSBOK will appeal to engineers, graduates, and professionals who wish to prepare for challenges in initiatives using new technologies as well as managers who are responsible for conducting business involving technology and engineering.

The International Handbook on Environmental Technology Management Dora Marinova, David Annandale, John Phillimore, 2008-01-01 This is an excellent textbook suitable as a core text for environmental engineers and environmental scientists, but equally it should in my opinion be compulsory reading for all researchers, practitioners, and policy makers regardless of their discipline because it has relevance for all. In fact, the book is so lively and understandable that everyone and anyone could and should read it. Clearly written by a team of recognised environmental authors drawn from around the world, it guides the reader through current thinking on the tools and techniques industry. As
