locations where it has been deployed the ways other countries have responded to it and how the last 30 years of China's industrial and technology sector's modernisation positioned the country to produce what may well now be the world's top air superiority fighter. The J 20 program is the most high profile indicator of a turning point in the balance of power between China and the United States and has produced by far the most capable fighter that America or its allies could face in a potential conflict. An assessment of the history of Chinese air superiority capabilities and how the Korean War in particular has influenced the country to place a very strong emphasis on the need to field a leading fighter for air to air combat thus provides an important deeper understanding of the program. Important context to understanding the J 20's significance and its current global standing is provided by brief assessments of the positions of the Russian and American fighter industries. The parallel development of supporting assets from aerial tankers to electronic warfare planes is also explored for a better understanding of the much transformed Chinese fleet which J 20s are being inducted into. The program is also shown to have had a particularly significant influence in the United States ranging from placing discourse on the F 35's modernisation and on sixth generation fighter development in an entirely new context to stimulating the formation of new counter stealth aggressor training units, development of new air to air missiles and the acquisition of E 7 flying radar aircraft among many other responses to the new challenge. J 20: Mighty Dragon. Asia's First Stealth Fighter in the Era of China's Military Rise is the first volume in the new Technology War series and is extensively illustrated with colour photographs throughout and specially commissioned colour artworks.

Has China Won? Kishore Mahbubani, 2020-03-31. The defining geopolitical contest of the twenty first century is between China and the US. But is it avoidable? And if it happens is the outcome already inevitable? China and America are world powers without serious rivals. They eye each other warily across the Pacific, they communicate poorly, there seems little natural empathy. A massive geopolitical contest has begun. America prizes freedom, China values freedom from chaos. America values strategic decisiveness, China values patience. America is becoming a society of lasting inequality, China a meritocracy. America has abandoned multilateralism, China welcomes it. Kishore Mahbubani, a diplomat and scholar with unrivalled access to policymakers in Beijing and Washington, has written the definitive guide to the deep fault lines in the relationship, a clear eyed assessment of the risk of any confrontation and a bracingly honest appraisal of the strengths and weaknesses and superpower eccentricities of the US and China.

The Lost Chance in China and the Rise of Cold War Populism Stephen J. Hartnett, 2025-10-01. *The Lost Chance in China and the Rise of Cold War Populism* offers a rollicking retelling of the fate of America's diplomats stationed in China during World War II and the start of the Chinese Civil War, documenting how their efforts to find peace in China clashed with the anti Communist network of right wing advocates known as the China Lobby. Fueled by America's end of the war fury over the loss of China to Mao and the Communists, the on the ground experts

in Asia lost the public relations battle to Cold War populists who pushed a toxic version of public anger that built the rhetorical foundation of McCarthyism Hartnett diagnoses the moment s political battles by mapping a series of interlocking dispositions emotion based reactions that short circuited critical thinking and empathy instead feeding strident anti Communism xenophobia and class based resentments Hartnett s masterwork offers a haunting prehistory to our contemporary moment when populism again stokes outrage and fear at the cost of nuanced international understanding

The Picture Book Dragon Hope Shastri,1993 *The Ming World* Kenneth M Swope,2019-08-08 The Ming World draws together scholars from all over the world to bring China s Ming Dynasty 1368 1662 to life exploring recent scholarly trends and academic debates that highlight the dynamism of the Ming and its key place in the early modern world The book is designed to replicate the structure of popular Ming era unofficial histories that gathered information and gossip from a wide variety of fields and disciplines Engaging with a broad array of primary and secondary sources the authors build upon earlier scholarship while extending the field to embrace new theories methodologies and interpretive frameworks It is divided into five thematically linked sections Institutions Ideas Identities Individuals and Interactions Unique in its breadth and scope The Ming World is essential reading for scholars and postgraduates of early modern China the history of East Asia and anyone interested in gaining a broader picture of the colorful Ming world and its inhabitants China's Stealth Fighter Abraham Abrams,2025-01-02 A detailed exploration of China s J 20 stealth fighter its development impact and role in reshaping global power dynamics The United States and Soviet Union began a race to develop the first and most capable fifth generation stealth fighters in the late 1970s The Cold War s end however was followed by both a near total collapse of Russian efforts and major cuts and delays to American programs This provided an opening for a rising and fast modernising Chinese defense industry to kick off its own ambitious program to produce a world leading fighter jet with next generation capabilities Once unveiled the program came to be seen as a herald of China s rising status as a leading player in high tech and major world power Development of the Chengdu J 20 began in the 1990s and has since consistently far exceeded expectations in both its performance and its development timeline The fighter made its first flight in 2011 and began deliveries to the People s Liberation Army Air Force in 2016 a small fraction of the time its American and Russian rivals would take Today it is the world s second most numerous stealth fighter outnumbered only by America s much smaller Lockheed Martin F 35 Lightning II with the two rivals seeing their first of many likely encounters confirmed in March 2022 As the J 20 s capabilities have rapidly improved and the rate of production has significantly grown it has very conspicuously played a growing role in patrolling major hotspots in East Asia from Korea and the East China Sea to the Taiwan Strait and disputed South China Sea The J 20 program s success has been the most potent symbol of China s ascent from a minor player in combat aviation during the Cold War to the United States only peer level competitor today It has also set China on a course of pursuing multiple other fighter development efforts including a close competition with America to field the first and most capable sixth

generation fighter in the 2030s The J 20 thus marks a major landmark not only in Chinese aviation history but also more broadly in the evolving balance of power between East and West as the country's technological and economic ascents allow it to successfully pursue highly ambitious weapons programs This book takes the J 20's story far back to the formation of the People's Liberation Army Air Force and its trial by fire in the Korean War tracing the rationale for developing a top end air superiority fighter It also compares its performance with rival fifth generation fighter programs in other countries and looks ahead to what the future may hold in this new arms race
