Inter-professional Approaches to Young Fathers Jane Reeves, 2008 With one of the highest teenage pregnancy rates in Europe young fatherhood as a site of economic and personal adversity has become a focus of concern in Britain during the

late 1990s. However despite this policy interest there is surprisingly little British empirical evidence to review. One of the aims of the book is to draw together contemporary research evidence, social theory and policy which may effect how practitioners, students and academics conceptualise and work with young fathers. Consequently each chapter illustrates the points it makes using discrete evidence from that particular field. Moreover in order to make this process more user friendly each chapter provides a summary of this literature and evidence. Finally in order to make the book come alive it draws on case studies which are drawn variously from two studies conducted by the editor.

Not Our Kind of Girl Elaine Bell Kaplan, 2023-04-28. One of the most worrisome images in America today is that of the teenage mother. For the African American community that image is especially troubling. All the problems of the welfare system seem to spotlight the black teenage mom. Elaine Bell Kaplan's affecting and insightful book dispels common perceptions of these young women. Her interviews with the women themselves and with their mothers and grandmothers provide a vivid picture of lives caught in the intersection of race, class and gender. Kaplan challenges the assumption conveyed in the popular media that the African American community condones teen pregnancy, single parenting and reliance on welfare. Especially telling are the feelings of frustration, anger and disappointment expressed by the mothers and grandmothers Kaplan interviewed. And in listening to teenage mothers discuss their problems, Kaplan hears first hand of their misunderstandings regarding sex, their fraught relationships with men and their difficulties with the educational system, all factors that bear heavily on their status as young parents. Kaplan's own experience as an African American teenage mother adds a personal dimension to this book and she offers substantial proposals for rethinking and reassessing the class factors, gender relations and racism that influence black teenagers to become mothers.

One of the most worrisome images in America today is that of the teenage mother. For the African American community that image is especially troubling. All the problems of the welfare system seem to spotlight the black teenage mom. Elaine Bell Kaplan's **Teenage Pregnancy** Dionne J. Jones, Stanley F. Battle, 1990-01-01. Pregnancy, childbearing among teenagers in the United States is an increasing concern. For minority communities the consequences are particularly adverse for although minority teenagers do not account for the majority of births to teenagers they are disproportionately likely to give birth. Developed as a special issue of *The Urban League Review*, this collection of essays presents current thinking of an interdisciplinary group of professionals.
