Siegel, 2008-10-17 In recent years a dizzying array of programs has emerged to meet the needs of struggling teens and their families wilderness therapy programs therapeutic boarding schools alternative schools mentoring and court diversion programs independent living programs and myriad day treatment and partial hospitalization services Yet not all of these offerings employ mental health professionals or follow evidence based treatment protocols Some programs are licensed and accredited but many are not and some use techniques that are highly controversial even abusive resulting in injury and accidental death Frederic G Reamer and Deborah H Siegel have written the first scholarly book on this influential and controversial industry They begin with a time line of Americans changing attitudes toward challenging teens and the programs and schools established to handle this population Then they summarize reputable organizations including a selection of community based and residential programs and schools and provide brief descriptions of typical services The authors candidly discuss a number of troubling scandals and tragedies exposing the tragic consequences of emotionally and physically abusive practices and recommend a range of empirically sound interventions for the clinical challenges of adolescent depression bipolar disorder anxiety oppositional behavior eating disorders and attention deficit hyperactivity disorder The authors conclude with a blueprint for reform and twenty best practice principles relating to harm prevention program based discipline industry regulation quality assurance parental involvement staff education and after care services

Soul Searching : The Religious and Spiritual Lives of American Teenagers Christian Smith Dr William R Kenan Jr Professor of Sociology University of Notre Dame, Candidate University of North Carolina Melina Lundquist Denton Ph.D, Chapel Hill USA, 2005-01-25 In innumerable discussions and activities dedicated to better understanding and helping teenagers one aspect of teenage life is curiously overlooked Very few such efforts pay serious attention to the role of religion and spirituality in the lives of American adolescents But many teenagers are very involved in religion Surveys reveal that 35% attend religious services weekly and another 15% attend at least monthly 60% say that religious faith is important in their lives 40% report that they pray daily 25% say that they have been born again Teenagers feel good about the congregations they belong to Some say that faith provides them with guidance and resources for knowing how to live well What is going on in the religious and spiritual lives of American teenagers What do they actually believe What religious practices do they engage in Do they expect to remain loyal to the faith of their parents Or are they abandoning traditional religious institutions in search of a new more authentic spirituality This book attempts to answer these and related questions as definitively as possible It reports the findings of The National Study of Youth and Religion the largest and most detailed such study ever undertaken The NYSR conducted a nationwide telephone survey of teens and significant caregivers as well as nearly 300 in depth face to face interviews with a sample of the population that was surveyed The results show that religion and spirituality are indeed very significant in the lives of many American teenagers Among many other discoveries they find that teenagers are far more influenced by the religious beliefs and practices of their parents and caregivers than commonly thought They refute the conventional wisdom that teens are spiritual but not religious

And they confirm that greater religiosity is significantly associated with more positive adolescent life outcomes This eagerly awaited volume not only provides an unprecedented understanding of adolescent religion and spirituality but because teenagers serve as bellwethers for possible future trends it affords an important and distinctive window through which to observe and assess the current state and future direction of American religion as a whole *Teens in Australia* Brenda Haugen,2007 Examines the challenges pastimes and customs of teens in Australia Features informative text full color photographs a timeline a glossary and a list of resources for further study **Teens in the Philippines** Jason Skog,2008-09 A look at world geography and contemporary culture from the perspective of young people **Teens in Vietnam** Gregory Nicolai,2007 A look at the circumstances and life styles of typical Vietnam teenagers *Teenagers in Crisis* United States.
