Strom,Robert D. Strom,2014-07-01 Teaching adolescents and learning from them is the paradigm elaborated throughout this second edition of *Adolescents in the Internet Age* The premise is based upon four assumptions 1 Adolescents have unique experiences that qualify them as the most credible source on what growing up is like in the current environment 2 Adolescents are more competent than many adults with tools of technology that will be needed for learning in the future 3 Adolescents and adults can support mutual development by adopting the concept of reciprocal learning and 4 The common quest of adolescents to gain adult identity could be attained before employment Expectations are the theme for every chapter The reason expectations are so important is because they influence goals determine priorities and are used to evaluate progress and achievements of individuals and institutions When teacher expectations correspond with the abilities and interests of students achievement and satisfaction are common outcomes In contrast if teachers expect too little student potential can be undermined There is also concern if expectations that students have for themselves surpass their abilities This occurs if teachers do not inform students about their deficits Multitasking doing too many things at the same time detracts from productivity Sharing accountability depends upon complimentary and attainable expectations that can be met by students teachers and parents To support appropriate expectations this book for secondary teachers and high school students seeking a broader understanding of their own generation is organized in four parts about aspects of learning and development 1 Identity expectations introduce traditional perspectives on adolescence changes related to sources of learning evolving emphasis of schools and ways to support motivation goal setting and formation of identity 2 Cognitive expectations examine mental abilities academic standards emergence of the Internet as a learning tool development of media literacy creative problem solving and encouragement of higher order thinking skills 3 Social expectations explore the need for giving

greater attention to social development importance of teamwork skills involvement with social networking adoption of civil behavior school safety and values as a basis for ethical behavior and character 4 Health expectations center on decisions that influence physical health well being and lifestyle choice Consideration is given to stress management emotional intelligence and risk assessment strategies for individual teenagers and the schools that they attend Teenage Boys Bill Beausay,2011-04-13 It s time to show up for your son in a big way A teenage boy s world is a dynamic unpredictable place That s why stringent parenting techniques don t always bring about the results we expect Though we know there s a lot riding on our ability to wisely parent teenage sons it s hard to know the best way to proceed and parents are often overwhelmed by the challenge But now in this fun and down to earth guide Bill Beausay offers six fresh principles that can help you overcome your fears and powerfully shape the man inside your teenage boy Bring out the best in your teenage son You know that you need to be involved in your son s life But just being there physically isn t enough Parents who enjoy the most success in raising teen boys are present in dramatic colorful in your face ways Teenage Boys Will help you discover how you can develop a clear do able plan that will significantly impact your teen s life and your own Now with answers to the most frequently asked questions about parenting teen boys Expanded to address the issues that matter most to teenage boys and their parents Includes advice for two parent families single parents grandparents and stepparents *Language Disorders in Children and Adolescents* Joseph H. Beitchman,Elizabeth B. Brownlie,2013-11-08 Language impairment in childhood and adolescence presentation diagnosis assessment and empirically validated treatment As many as half of children and adolescents presenting for mental health services have language impairments often undiagnosed This book offers a clear and comprehensive description of language impairment emerging in childhood and its implications for clinical practice with children and adolescents The book is filled with many clinical pearls and examples of the way language impairment impacts on the child s symptom picture and influences treatment After discussing ICD 10 and the new DSM 5 criteria it provides the reader with an easy to follow plan on how to conduct the assessment with the child and parents and the steps to take in initiating treatment Unique modifications to empirically validated treatments are recommended for language impaired children with comorbid anxiety or disruptive behavior disorders Anyone who works with children and adolescents will benefit from this book The First Session with Children and Adolescents Alvin E. House,2002-02-28 The initial evaluation of a client whether in a formal diagnostic process or as a first therapy contact is the beginning of the process of providing that client with help This book provides a thorough practical primer on carrying out initial mental health evaluations with children and adolescents The focus is on efficiently eliciting the information needed for formulating the young person s difficulties clarifying the diagnostic situation and planning for treatment or referral Drawing on the available research literature as well as the author s 25 years of professional experience this user friendly book will facilitate the work of practitioners in any discipline or clinical setting **Moving on from Munro** Blyth, Maggie,2014-04-02 Four years after

the publication of the influential Munro Report 2011 this important publication draws together a range of experts working in the field of child protection to critically examine what impact the reforms have had on multi agency child protection systems in this country at both local and national level With a particular emphasis on early intervention vulnerable adolescents and effective multi agency responses to young people at risk specialists from policy and practice alongside academics in different areas of children s services consider progress in improving child protection arrangements in transforming services and the challenges that remain Local Safeguarding Children Boards LSCBs the statutory bodies responsible for local scrutiny of child protection arrangements are now subject to Ofsted inspection and this publication considers the role of LSCBs how services should respond to the most vulnerable children and what good services look like
