Gerard Goggin, Mark McLelland

Telecommunications Revolution In Korea:

The Telecommunications Revolution in Korea James F. Larson, 1995 The first English language work on Korea's unique experiences with telecommunications this book focuses on Korea's distinct political economic legal socio cultural and personal dimensions It includes chapters on the relationship between political liberalization and telecommunications education and public promotion of the information society together with the role of new technologies in the reunification of Korea

Korea's Amazing Century: From Kings to Satellites , Digital Development in Korea Myung Oh, James F. Larson, 2011-03-14 This book explores the role of digital information and communications technology in South Korea's development starting with and building upon the crucial developments of the 1980s Its perspective draws on the information society concept and on a conceptual model of strategic restructuring of telecommunications It also draws on firsthand experience in formulating and implementing policies The analysis identifies aspects of the Korean experience from which developing countries around the world might benefit Oh and Larson describe the revolutionary developments of the 1980s including the TDX electronic switching system a major surge forward in semiconductors the start of privatization and color television and the thoroughgoing restructuring of Korea's telecommunications sector They further explore government leadership the growing private sector and international trade pressures in the diffusion of broadband mobile communication and convergence toward a ubiquitous network society The role of education in these developments is explored in detail along with both the positive and negative aspects of Korea's vibrant new digital media The book also looks at Korea's growing international involvement its role in efforts to build a world information society and finally its future place in cyberspace This book will be of interest to students scholars and policy makers interested in communications technologies Asian Korean Studies and development studies

Building Telecom Markets Whasun Jho, 2013-08-27 The mobile telecommunication industry has been one of the fastest growing industries in the global economy since the late 1990s As the first country to offer commercial Code Division Multiple Access CDMA cellular service in the world Korea was able to jump right into the digital mobile markets enhancing its status as a leading manufacturer of mobile equipment While the growth of the telecom industry occurred with the emergence of worldwide market oriented regulatory reform and liberalization in telecommunications the state market relationship in Korea evolved from state monopoly toward centralized governance and later toward flexible governance which is substantially different from liberal governance of the US This book examines the uniqueness of Korean regulatory reforms of the mobile telecommunication sector and argues that the market oriented regulatory reform and liberalization should be explained by focusing on the interactions among the state the private sector and international political economic environment It will appeal to scholars and policy makers alike concerned with market regulation Asian development and political economy

The Routledge Companion to Global Internet

Histories Gerard Goggin, Mark McLelland, 2017-02-17 The Routledge Companion to Global Internet Histories brings together research on the diverse Internet histories that have evolved in different regions language cultures and social contexts across the globe While the Internet is now in its fifth decade the understanding and formulation of its histories outside of an anglophone framework is still very much in its infancy From Tunisia to Taiwan this volume emphasizes the importance of understanding and formulating Internet histories outside of the anglophone case studies and theoretical paradigms that have thus far dominated academic scholarship on Internet history Interdisciplinary in scope the collection offers a variety of historical lenses on the development of the Internet as a new communication technology seen in the context of older technologies as a new form of sociality read alongside previous technologically mediated means of relating and as a new media vehicle for the communication of content *The Internet and Foreign Policy* James F. Larson, 2004 This headline series explores the competing views and complexities of a changing relationship between the media and foreign policy

Media Technologies for Work and Play in East Asia Lee, Micky, Chung, Peichi, 2021-05-28 Media technologies for play have become major industries in Japan and South Korea Even in North Korea citizens bypass the state to enjoy popular culture At the same time corporations and governments encourage people to produce economic values through play The first comparative study of media technologies in Japan and the two Koreas this book illuminates the peculiar geopolitical relations between the three countries through their development and use of digital technologies Drawing from political economy cultural studies and technology studies this book will be essential reading for researchers and students of media technologies and popular culture in Northeast Asia

Innovation and Technology in Korea Jörg Mahlich, Werner Pascha, 2007-07-24 Only inadequately perceived by the Western public Korea has transformed into an economic heavy weight during recent decades The Korean government believes it can turn it into one of the top 10 competitive economies until 2010 This goal does not sound overambitious as Korea has undergone tremendous efforts in order to forge ahead in the field of research and development In some high tech industries Korean firms have advanced into leading players in the global market place and are increasingly challenging their international competitors Against this background the volume offers an in depth analysis of the Korean innovation system and shows how its science and technology policies actually work As Korea's economy is now reaching the status of a newly advanced economy the book also takes a close look on ongoing structural changes in the course of economic globalization

Media and Communications Policy Making Robert G. Picard, 2020-03-25 This textbook focuses on how media and communications policy is made and what influences its design It explores the structures and processes in which policymaking takes place worldwide the factors that determine its forms influence its elements and affect its outcomes It explores how to analyze policy proposals evaluate policy and use policy studies approaches to examine policy and policymaking Truly international in scope it lays out the variety of political social economic and institutional influences on policy the roles of industries and policy advocates in the processes and issues and factors that complicate effective

policymaking and skew policy outcomes This textbook is a valuable resource for advanced undergraduate and postgraduate students **The East Asian Olympiads, 1934-2008** William Tsutsui, Michael Baskett, 2011-08-15 The East Asian Olympiads 1934 2008 Building Bodies and Nations in Japan Korea and China is the first scholarly volume to focus on the collective East Asian experience of the Olympic Games These twelve essays from the diverse disciplinary perspectives of anthropology geography history political science and sports studies explore how the Asian Olympics were used as patriotic exercises and yardsticks of social progress shaped ideals of individual health and national strength and were manipulated by states interest groups commercial concerns and the media This innovative collection suggests that the Olympics have played an important role in the creation of a modern East Asian identity in a world and a global sporting culture still dominated by the West

The Black Box Victor D. Cha, 2024-09-03 North Korea is commonly thought of as the most mysterious place in the world The country is marked by its opacity and inaccessibility its inner workings seen as impossible for outsiders to grasp In this groundbreaking book the leading scholar and practitioner Victor D Cha shines a light into the black box of North Korea and draws critical lessons for the possible reunification of Korea after many decades of division The Black Box demonstrates convincingly that North Korea while far from transparent is less inscrutable than is typically assumed Using innovative research methods from data scraping to ethnography including microsurveys of ordinary North Koreans Cha unearths a trove of new information Through these pioneering findings and incorporating his experiences as a White House official negotiating with North Korean interlocutors and traveling to North Korea he paints a vivid picture of this enigmatic country and develops a grounded account of its behavior Cha explores the regime's core tendencies its policies toward the U S South Korea alliance cybersecurity threats the potential for economic development the growth of a nascent civil society and pathways toward Korean unification among other topics The Black Box provides both an essential understanding of contemporary North Korea and an insightful guide to studying the country from one of the world's most esteemed experts

International Aid and Sustainable Development in North Korea Sojin Lim, 2023-06-22 This book examines international aid in North Korea in particular the ongoing policy of withholding aid through the lens of the impact on the general population to present an argument for sustainable development Focusing on the human rights of North Koreans and presenting a case for the use of aid as a provision for social change it explores an alternative narrative to the existing long drawn out rhetoric of denuclearisation first The book's scope includes evaluations of the causes of international sanctions and their impact the Kim regime's mitigation of sanctions through marketisation and a digital economy as well as barriers to aid monitoring and the reason for the absence of any mass anti regime movement It also posits that North Korea is a fragile state but cloaked by the image of a strong regime The book succinctly demonstrates that the key to unlocking the potential of North Korea's cloaked society does not lie in sanctions but is to be found in engagement with development aid As such it will appeal to students of Korean Studies Development Studies Asian Politics and International Relations The Open Access

Millennial North Korea Suk-Young Kim, 2024-10-15 North Korea may be known as the world's most secluded society but it too has witnessed the rapid rise of new media technologies in the new millennium including the introduction of a 3G cell phone network in 2008. In 2009 there were only 70,000 cell phones in North Korea. That number has grown tremendously in just over a decade with over 7 million registered as of 2022. This expansion took place amid extreme economic hardship and the ensuing possibilities of destabilization. Against this social and political backdrop *Millennial North Korea* traces how the rapidly expanding media networks in North Korea impact their millennial generation especially their perspective on the outside world. Suk-Young Kim argues that millennials in North Korea play a crucial role in exposing the increasing tension between the state and its people between risktakers who dare to transgress strict social rules and compliant citizens accustomed to the state's centralized governance and between thriving entrepreneurs and those left out of the growing market economy. Combining a close reading of North Korean state media with original interviews with defectors, Kim explores how the tensions between millennial North Korea and North Korean millennials leads to a more nuanced understanding of a fractured and fragmented society that has been frequently perceived as an unchanging monolithic entity.

Historical Dictionary of the Republic of Korea James E. Hoare, 2020-10-13 South Korea Republic of Korea is the more successful of the two Koreas in both economic and political terms. Even the Asian economic crisis of 1997-1998 which hit badly was weathered successfully and when the next crisis came along in 2007 South Korea coped better than many other countries. This economic strength taken with the steady progress of democratization since 1987 indicates that when the peninsula is eventually reunified as one day it probably will be a new unified Korea will follow the South Korea model rather than that of North Korea. This fourth edition of *Historical Dictionary of the Republic of Korea* contains a chronology, an introduction, appendixes and an extensive bibliography. The dictionary section has over 700 cross-referenced entries on important personalities as well as aspects of the country's politics, economy, foreign relations, religion and culture. This book is an excellent resource for students, researchers and anyone wanting to know more about the Republic of Korea.

Cyberpath to Development in Asia Sandhya Rao, Bruce C. Klopfenstein, 2001-12-30 Many Asian countries are achieving remarkable success in closing what researchers call the digital divide between developing and developed nations while others continue to struggle. This collection of essays sheds light on the various ways in which the Internet has been seen in Asia. As we continue to debate new paradigms of research and development in the digital era where innovations and convergences are the norm, this book fills an urgent need revealing how the technological revolution has spread and is spreading throughout diverse nations. Chapters on the United States and

Japan offer a sort of yardstick by which to measure and compare the diffusion and the impact of the Internet in other Asian countries including China Korea Taiwan and Singapore Appealing to readers interested in the development of the Asian region technological innovation and international communication Cyberpath to Development in Asia offers an acute study of how a global phenomenon continues to manifest itself in a crucial part of the globe **Technology and Productivity**

Youngil Lim,1999 Explores the process by which the poverty stricken agrarian economy of South Korea was transformed during the 1970s to the 1990s into a semi industrial urban economy The text discusses neoclassical views of South Korean experience and speculates on South Korea s technological future North Korean Human Rights Andrew Yeo,Danielle Chubb,2018-08-09 This volume explores the emergence evolution and politics of North Korean human rights activism and its relevance for international policy
