Telephone Poles And Other Poems:

Telephone Poles and Other Poems John Updike, 2012-04-25 This second collection of John Updike's poetry is equally divided between poems that in their verbal jugglery and humorous bias seem to qualify as light and poems that one way or other cross the problematic border into the general realm of poetry. The distinction cannot be clear cut. The poet is consistently concerned with Man's cosmic embarrassment and the same vision illuminates the creatures of *The High Hearts* and *Seagulls*. Science and religion so frequently and variously invoked frame a single paradox, the paradox of the mundane and each poem, whether inspired by an antic headline or a suburban landscape, rejoices in the elusive surface of created things. When *The Carpentered Hen*, John Updike's first collection of verse, was published, Phyllis McGinley wrote, "I have been happily reading Mr. Updike in *The New Yorker* for some time and am happy now to own him collected." When he first appeared in that magazine, I was so elated to see a new name in light verse that I felt like crying with the Ancient Mariner: A Sail, A Sail. His is what poetry of this sort exactly ought to be: playful but elegant, sharp-eyed witty. In the *Saturday Review*, David McCord wrote, "Furthermore, he is a graceful border crosser, light verse to poem as Auden has been as Betjeman and McGinley frequently are." *Updike, John: Telephone Poles and Other Poems*, 1984. *Chicorel Index to Poetry in Anthologies and Collections in Print*, Marietta Chicorel, 1974.

Selected Poems of John Updike John Updike, Christopher Carduff, 2018-10-23 The best from Updike's lifework in poetry: 129 witty and intimate poems that when read together take on the quality of an autobiography in verse. By a master of American letters and the author of the acclaimed *Rabbit* series, Updike's gift for close observation in these poems as elsewhere is near to supernatural. *The New York Times*: Five decades of witty, intimate and moving poems written between 1953 and 2008 with the cumulative force of an unfolding verse diary. Though John Updike is widely known as one of America's greatest writers of prose, both his first book and his last were poetry collections, and in the fifty years between he published six other volumes of verse. Now, six years after his death, Christopher Carduff has selected the best from Updike's lifework in poetry: 129 witty and intimate poems that when read together, in the order of their composition, take on the quality of an unfolding verse diary. Among these poems are precocious undergraduate efforts including the previously unpublished *Coming into New York*, frequently anthologized midcareer classics *Seagulls*, *Seven Stanzas at Easter*, *Dog's Death*, and dozens of later works in a form that Updike made his own: the blank verse sonnet. The poems range from metaphysical epigrams and devotional poems to lyrical odes to rot, growth and healing from meditations on Roman portrait busts and the fleshy canvases of Lucian Freud to observations on sash cords, postage stamps and hand tools from several brief episodes in family history to a pair of long autobiographical poems, the antic and eclectic *Midpoint* written at age thirty-five and the elegiac masterpiece *Endpoint* completed just before his death at seventy-six. The variety of the work is astonishing; the craftsmanship, always of the highest caliber. Art, science, popular culture, foreign travel, erotic love, the beauty of the man-made and the God-given worlds: these recurring topics provided Updike ever-surprising

occasions for wonder and matchless verbal invention His Selected Poems is as Brad Leithauser writes in his introduction a celebration of American life in the second half of the twentieth century No other writer of his time captured so much of this passing pageant And that he did so with brio and delight and nimbleness is another reason to celebrate our noble celebrant

Collected Poems of John Updike, 1953-1993 John Updike, 2012-04-25 The idea of verse of poetry has always during forty years spent working primarily in prose stood at my elbow as a standing invitation to the highest kind of verbal exercise the most satisfying the most archaic the most elusive of critical control In hotel rooms and airplanes on beaches and Sundays at junctures of personal happiness or its opposite poetry has comforted me with its hope of permanence its packaging of flux Thus John Updike writes in introducing his Collected Poems The earliest poems here date from 1953 when Updike was twenty one and the last were written after he turned sixty Almost all of those published in his five previous collections are included with some revisions Arranged in chronological order the poems constitute as he says the thread backside of my life s fading tapestry An ample set of notes at the back of the book discusses some of the hidden threads and expatiates upon a number of fine points Nature tenderly intricate ruthlessly impervious is a constant and ambiguous presence in these poems along with the social observation one would expect in a novelist No occasion is too modest or too daily to excite metaphysical wonder or to provoke a lyrical ingenuity of language Yet even the wittiest of the poems are rooted to the ground of experience and fact Seven Odes to Seven Natural Processes attempt to explicate the physical world with a directness seldom attempted in poetry Several longer poems Leaving Church Early Midpoint use autobiography to proclaim the basic strangeness of existence
