Tell Child Death:

What Do We Tell the Children? Joseph M. Primo, 2013-09-17 One out of seven children will lose a parent before they are 20 The statistics are sobering but they are also a call for preparedness However pastors and counselors of all types are often at a loss when dealing with a grieving child Talking to adults about death and grief is difficult it s all the more challenging to talk to children and teens The stakes are high grieving children are high risk for substance abuse promiscuity depression isolation and suicide Yet despite this most of these kids grow up to be normal or exceptional adults But their chance to become healthy adults increases with the support of a loving community Supporting grieving children requires intentionality open communication and patience Rather than avoid all conversations on death or pretend like it never happened normalizing grief and offering support requires us to be in tune with kids through dialogue as they grapple with questions of how and why When listening to children in grief we often have to embrace the mystery offer love and compassion and stick with the basics The author says We don t have to answer the why and how for them but we can assure our children that God is with us as we suffer We can do so by doing good for others and pointing out all of those moments when someone has done something good for us I believe that most of the time that s as far as we will get and that is okay How Do We Tell the Children? Children, Adolescents, and Death Robert G. Stevenson, Gerry R. Cox, 2017-02-02 The topic of death and related issues such as grief often begin with questions When the questions come from or are about children or adolescents they bring an additional component the fear some adults have of giving a wrong answer In this context a wrong answer is one that can cause more harm than good for the child or adolescent who asked the question This book provides information that can be used to address the death related questions from children and adolescents It also looks at questions from caring adults about the way children or adolescents view death and the grief that follows a death or any major loss Children Adolescents and Death covers topics that start with early studies of childhood grief and progress to expression of grief in cyberspace There is no one answer to most of the questions in this book There are contributors from a number of continents countries cultures and academic disciplines each of whom brings a unique view of the topic issues they discuss There are presentations of practical interventions that others may copy upon which they can build There are a number of chapters that look at death education in both family and school settings This work contains ideas and techniques that can be of value to parents educators counselors therapists spiritual advisors caring adults and of course will be of the most benefit to those who ask the most questions the children and adolescents themselves

Death, American Style Lawrence R. Samuel, 2013-07-05 The notion of one day disappearing from the earth forever is contrary to many of America's defining cultural values with death and dying viewed as un-American experiences Arguing that death and dying may be our last major taboo this book shows how death and dying became almost unmentionable words over the course of the last century Although we have recently made some progress in reconciling the fact that life is a finite resource we remain very unprepared for the approaching tsunami of death as the largest generation in history begins to age and die in great numbers DEATH AMERICAN STYLE is thus highly timely and relevant suggesting that Americans need to individually and collectively come to terms with mortality if we are to learn to treat death as an inevitable part of life and to prepare accordingly As more and more Americans face end of life decisions it will be vital for us to radically change the current view of death and dying The alternative the author argues is that the emerging death centric society may bring with it a period of turmoil equivalent to that of the countercultural 1960s and 1970s
