Tertullian A Historical And Literary Study:

Tertullian Timothy David Barnes,1971 The first part and the appendices provide the objective chronological and historical framework without which Tertullian's writings cannot be understood In the second part this framework is used as the basis of a sympathetic but not wholly subjective interpretation of his intellectual development of his reaction to the society in which he lived and of his place in Latin literature *The New Prophecy and "New Visions"* Rex D. Butler,2011-02 In this book Rex D Butler examines the Passion for evidence of Montanism and proposes that its three authors Perpetua Saturus and the unnamed editor were Montanists *Tertullian's Aduersus Iudaeos* Geoffrey D. Dunn,2008 Geoffrey D Dunn is the first scholar to use classical rhetoric as the interpretative tool for analyzing the question of the authorship of *Aduersus Iudaeos* He argues that Tertullian structured this work according to the rules of classical rhetoric and employed arguments familiar to anyone with training in oratory *Studia patristica* ,1976 Papers presented to the International Conference on Patristic Studies 2d 1955 **Between Universalism and Particularism: the Reception of Noah, Abraham and Jacob Stories** ,2025-05-29 The study deals with Jewish and Christian reception of the Book of Genesis and how the concepts universalism and particularism are used in Noah Abraham and Jacob stories before the rise of Islam As a synthesis of its discussed topics the volume is a useful resource to understand early development of universalistic and particularistic ideas which became central theological topics in the three Abrahamic religions **Early Christianity: Oxford Bibliographies Online Research Guide** Eric Rebillard,2010-05 This ebook is a selective guide designed to help scholars and students of the ancient world find reliable sources of information by directing them to the best available scholarly materials in whatever form or format they appear from books chapters and journal articles to online archives electronic data sets and blogs Written by a leading international authority on the subject the ebook provides bibliographic information supported by direct recommendations about which sources to consult and editorial commentary to make it clear how the cited sources are interrelated A reader will discover for instance the most reliable introductions and overviews to the topic and the most important publications on various areas of scholarly interest within this topic In classics as in other disciplines researchers at all levels are drowning in potentially useful scholarly information and this guide has been created as a tool for cutting through that material to find the exact source you need This ebook is just one of many articles from Oxford Bibliographies Online Classics a continuously updated and growing online resource designed to provide authoritative guidance through the scholarship and other materials relevant to the study of classics Oxford Bibliographies Online covers most subject disciplines within the social science and humanities for more information visit [www aboutobo com](http://www.aboutobo.com) **Beyond Fideism** Olli-Pekka Vainio,2016-04-15 After the postmodern turn every tradition seeks the right to have their own rules of rational discourse The crucial question is are there ways to communicate between the traditions so that the traditions do not need to give up their identities in order to take part in conversation Vainio examines the basic assumptions behind well known types of Christian

theology and seeks ways in which they might interact with one other and with other non Christian traditions without capitulation of their identities Vainio claims that there are religious identities that can be negotiated and communicated and that there are ecclesiastical doctrines which can be meaningfully discussed among churches This book explores three key areas analysis of the uses of fideism within classical Christian theology clarification of different types of theological method that seek to express the task of theology in contemporary setting an explanation of the contours of religious identity and rationality which takes seriously both classical Christian identity and pluralistic contexts where most of the Christian communities dwell nowadays The proposal for negotiability of Christian identity draws together ideas from among others virtue epistemology reformed epistemology communitarianism and feminist sensibilities The Early Church Morwenna Ludlow,2008-12-17 How did the early Christians manage to establish a religion and institution which despite persecution flourished and grew How did their initial experience of being a despised minority in the Roman Empire shape their sense of privileged identity and uniqueness And how was it that at least at the outset the first believers were able to exist alongside the same shared traditions rituals and beliefs of the Jews despite the Jewish rejection of Jesus as Messiah The Christian community was born out of paradox its faith in a man who was also the anointed one or Christ of God and its growth and development often echoed those complex and contradictory origins Morwenna Ludlow discusses the fragile context as well as the emerging core beliefs of the early Church including divine creation salvation eschatology the humanity and divinity of Christ and the inter relationships of the Trinity between 50 600 CE She also examines the process of Christian self definition in response to groups on the edge of the Church such as Gnostics Marcionites Montanists and Manichaeans as well as in relation to Judaism Bringing to vivid life the remarkable history of the early Church in all its conflict and struggle the author shows why such a successful faith was able to rise out of such improbable and unpromising beginnings Early Christianity in North Africa Francois Decret,2009-06-01 Along with the churches located in large Greek cities of the East the church of Carthage was particularly significant in the early centuries of Christian history Initially the Carthaginian church became known for its martyrs Later the North African church became further established and unified through the regular councils of its bishops Finally the church gained a reputation for its outstanding leaders Tertullian of Carthage c 140 220 Cyprian of Carthage 195 258 and Augustine of Hippo 354 430 African leaders who continued to be celebrated and remembered today

Church, Book, And Bishop Peter Iver Kaufman,2018-10-08 This book narrates a number of stories from the early clerical history of the church to illustrate how authority came to be shared among the institutions of church book and bishop It is intended for a wide range of readers including scholars students
