The Boys From The Barracks The Philippine Military After Edsa:

The Boys from the Barracks Criselda Yabes, 1991 Philippine Security in the Age of Terror Rommel Banlaoi, 2009-10-13

As the twelfth most populous nation the Philippines diverse religious and ethnic population makes it an ideal example of the changing tenet of what is deemed national security post 9 11 Issues previously considered social or public are now viewed as security issues Food production is now analyzed in the context of food security and environmental The Evolution of Military Power in the West and Asia Pauline Eadie, Wyn Rees, 2015-09-16 This book investigates how states in both the West and Asia have responded to multi dimensional security challenges since the end of the Cold War focusing on military transformation Looking at a cross section of different countries this volume assesses how their armed forces have responded to a changing international security context The book investigates two main themes First how the process of military transformation in terms of technological advances and new ways of conducting warfare has impacted on the militaries of various countries These technologies are hugely expensive and the extent to which different states can afford them and the ability of these states to utilise these technologies differs greatly Second the volume investigates the social dimensions of military transformation It reveals the expanding breadth of tasks that contemporary armed forces have been required to address This includes the need for military forces to work with other actors such as non governmental agencies and humanitarian organisations and the ability of armed forces to fight asymmetric opponents and conduct post conflict reconstruction tasks The conflicts in Iraq and Afghanistan exemplified how important the relationship between technological and social transformation has become This book will be of much interest to students of strategic studies military innovation Asian politics security studies and International Relations **Torture and Impunity** Alfred W. McCoy, 2012-08-24 Many Americans have condemned the enhanced interrogation techniques used in the War on Terror as a transgression of human rights But the United States has done almost nothing to prosecute past abuses or prevent future violations Tracing this knotty contradiction from the 1950s to the present historian Alfred W McCoy probes the political and cultural dynamics that have made impunity for torture a bipartisan policy of the U S government During the Cold War McCoy argues the U S Central Intelligence Agency covertly funded psychological experiments designed to weaken a subject s resistance to interrogation After the 9 11 terrorist attacks the CIA revived these harsh methods while U S media was flooded with seductive images that normalized torture for many Americans Ten years later the U S had failed to punish the perpetrators or the powerful who commanded them and continued to exploit intelligence extracted under torture by surrogates from Somalia to Afghanistan Although Washington has publicly distanced itself from torture disturbing images from the prisons at Abu Ghraib and Guantanamo are seared into human memory doing lasting damage to America s moral authority as a world leader Maoist Insurgency Since Vietnam Thomas A. Marks, 2012-12-06 This is an analysis of revolutions based on the Maoist Mode These insurgencies failed having been successfully contained by their governments How did the world s strongest

Defect Or Defend Terence Lee, 2015 Why do certain militaries brutally suppress popular demonstrations while others support the path to political liberalization by backing mass social movements Although social movements and media can help destabilize authoritarian governments not all social protest is effective or culminates in the toppling of dictatorships Frequently the military's response determines the outcome In *Defect or Defend* Terence Lee uses four case studies from Asia to provide insight into the military's role during the transitional phase of regime change Lee compares popular uprisings in the Philippines and Indonesia both of which successfully engaged military support to bring down authoritarian rule with protest movements in China and Burma which were violently suppressed by military forces Lee's theory of high personalism and power sharing among the armed forces leadership provides a framework for understanding the critical transitory phases of democratization He uses this theory to review and assess Eastern Europe's democratization events in 1989 the Colored Revolutions of the early 2000s and the protests and revolutions unfolding in the Middle East This book will appeal to students and scholars of comparative politics
