An Our Schools Our Selves book      The British Empire Series ,1899      **Publishers' Circular and Booksellers' Record of British and Foreign Literature** ,1914      Ineffability Peter S. Hawkins, Anne Howland Schotter, 2016-03-03

The essays in this volume explore the persistent struggle of language to overcome its own limitations. Given their scope from Dante's confrontation with the divine All to Samuel Beckett's obsessive need to speak in the face of Nothing they expand our notion of the extent to which all speech is an assault on silence an attempt to articulate what lies beyond the grasp of words. The collection offers the reader in roughly chronological order diverse conceptions of the ineffable as either superfluity or absence of reality. It also exposes language in the act of extending its own boundaries drawing attention to those literary tactics by which speech attempts to suggest what cannot be said. While largely a study of poetry from medieval to modern the volume also touches upon drama and a variety of prose combining close textual readings with broader thematic discussions      *New Playwriting at Shakespeare's Globe* Vera Cantoni, 2017-12-14

Shakespeare's Globe Theatre is recognised worldwide as both a monument to and significant producer of the dramatic art of Shakespeare and his contemporaries. But it has established a reputation too for commissioning innovative and distinctive new plays that respond to the unique characteristics and identity of the theatre. This is the first book to focus on the new drama commissioned and produced at the Globe to analyse how the specific qualities of the venue have shaped those works and to assess the influences of both past and present in the work staged. The author argues that far from being simply a monument to the past the reconstructed theatre fosters creativity in the present creativity that must respond to the theatre's characteristic architecture the complex set of cultural references it carries and the heterogeneous audience it attracts. Just like the reconstructed wooden O the Globe's new plays highlight the relevance of the past for the present and give the spectators a prominent position. In examining the score of new plays it has produced since 1995 the author considers how they illuminate issues of staging space spectators identity and history issues that are key to an understanding of much contemporary theatre.

Howard Brenton's *In Extremis* and Anne Boleyn receive detailed consideration as examples of richly productive connection between the playwright's creativity and the theatre's potential. For readers interested in new writing for the stage and in the work of one of London's totemic theatre spaces *New Playwriting at Shakespeare's Globe* offers a fascinating study of the fruitful influences of both past and present in today's theatre      *Staging the UK* Jen Harvie, 2005-11-29

This text examines some of the most important performance in Britain from the mid 1980s into the new millennium. It considers contemporary British theatre in relation to national and supranational identities critical concepts like globalisation and diaspora and contemporary contexts such as the election of New Labour      *British Literature of the Blitz* K. Miller, 2008-12-18

British Literature of the Blitz interrogates the patriotic utopian ideal of the People's War by analyzing conflicted representations of class and gender in literature and film. Its subtitle *Fighting the People's War* describes how British citizens both united to

fight Nazi Germany and questioned the nationalist ideology binding them together Placing Elysium in Renaissance Britain Patrick Cheney, 2025-10-02 Placing Elysium in Renaissance Britain Poetry Politics Theology Eros is the first study of Elysium as a place in English Renaissance culture The absence of such a study in the fields of literature and geography is surprising from its captivating origin in the oceanic margins of Homer's Odyssey to its presence in the Eden of Milton's Paradise Lost Elysium is a destination to be desired it is the land of the blessed As such Elysium becomes a geographical site for an author's most valued space In Britannia Camden provides leadership for this project by citing Plutarch as locating the blessed place in Britain Following Camden Spenser centralizes the idea of Britain as Elysium Subsequently English authors make the Elysian place the site of a liberating sublimity as the height of artistic renown This authorial template becomes the site for literary inflections in the realms of politics theology and eros However Kyd and Marlowe darken the Spenserian project recalling Virgil's geographical positioning of Elysium next to Hell In turn Drayton Chapman and Marston champion the Spenserian idea of Britain as Elysium As this conversation suggests English authors make Elysium the central place of the Renaissance period concept and they do so in the nation building genre of epic In The Muses Elizium Drayton crowns the Spenserian tradition by making the blessed place the monomyth of national poetry At the centre of the monomyth is the cherished ideal of Renaissance culture the Elysian capacity of the human to become divine
