## **The British Of Railways:**

*Railways and the British Economy, 1830-1914* Terence Richard Gourvish, 1980      *Railway Empire* Anthony Burton, 2018-01-30 The British were at the forefront of railway development for the first fifty years of the nineteenth century *Railway Empire* tells the story of how the British gave railways to the world not only in the empire but also in other countries outside areas of direct influence It is often forgotten today that the British were responsible for the construction and management of a large proportion of the railways constructed in Africa South America and Australasia not to mention many thousands of miles of mileage in Asia India Malaya Burma China and Japan This book looks at the political economic and technical aspects of this development which made Britain a country at the forefront of this form of transport      *The Reshaping of British Railways* British Railway Board, 2013-01-01 The Reshaping of British Railways is a piece of railway history every dedicated enthusiast will want in their collection Bradshaw's Guide has given birth to a wave of nostalgia for our Victorian and Edwardian railway systems The Reshaping of British Railways another facsimile which will fascinate train buffs is the document that decimated these systems forever With the British Rail company's failure by the early 1960s to stem the network's huge annual losses the government turned to Dr Richard Beeching He was to save money by recommending the cutting of redundant routes and services His two reports *The Reshaping of British Railways* 1963 and *The Development of the Major Railway Trunk Routes* 1965 were published by the British Railways Board in 1965 and offer a fascinating snapshot of our nation's railways In the first part of this historic facsimile Dr Beeching identifies the 2 363 stations and 5 000 miles 8 000 km of railway line for closure over 50% of all stations and 30% of route miles The second part recommends a small number of major remaining routes for significant investment Well documented nationwide protests resulted in the saving of some stations and lines but the majority were closed as planned and Beeching's name is to this day associated with the mass closure of railways and the loss of many local services in the period that followed Now for the first time this iconic piece of railway history is available in its entirety complete with the original tables and maps of routes deemed fit for closure      *Facts and Figures about British Railways* British Railways, 1952      *British Rail 1974-1997* Terence Richard Gourvish, Terry Gourvish, 2004-01-29 Based on privileged access to the British Railway Board's rich archives this book provides an authoritative account of the progress made by the British Railway System prior to its privatization It offers a unique account of the last fifteen years of nationalized railways in Britain and it sheds light on the current problems of privatized railway systems This volume is divided into four complete and concise sections for complete study *Railways Under Labour 1974-1979* *The Thatcher Revolution* *British Rail in the 1980's* *On The Threshold of Privatization* *Running the Railways 1990-1994* and *Responding to Privatization 1981-1997* Author Terry Gourvish is considered Britain's leading railway historian      *The British Rail Problem* Richard Pryke, John Dodgson, 2019-09-05 This book formulates a new strategy for the railways trying to discover how much traffic British Rail can hope to obtain It looks at two fundamental assumptions on which the

Board's case for a large and virtually open ended subsidy rests      **Presentation by Sir Peter Parker, Chairman of the British Railways Board, on British Railroad Experience** Sir Peter Parker, United States. Congress. House. Committee on Interstate and Foreign Commerce, 1978      **British Railways in Transition** Derek H. Aldcroft, 1968-06-18      British Railways 1948-73 T. R. Gourvish, 2011-04-28 Originally published in 1986 this is a business history of the first twenty five years of nationalised railways in Britain Commissioned by the British Railways Board and based on the Board's extensive archives it fully analyses the dynamics of nationalised industry management and the complexities of the vital relationship with government After exploring the origins of nationalisation the book deals with the organisation financial performance investment and commercial policies of the British Transport Commission 1948 2 Railway Executive 1948 53 and British Railways Board 1963 73 Calculations of profit and loss investment and productivity are provided on a consistent basis for 1948 73 This business history thus represents a major contribution not only to the debate about the role of the railways in a modern economy but also to that concerning the nationalised industries which have proved to be one of the most enduring problems of the British economy since the war      **On the Wrong Line** Christian Wolmar, 2005 Christian Wolmar's acclaimed *Broken Rails* charted the disastrous privatisation of the British railway system in the mid 1990s Now in an updated and expanded version of the book Wolmar highlights the failure of New Labour to get to grips with the legacy it inherited The railways now absorb more taxpayers money than ever before while performance has reached an all time low Wolmar suggests that the railways may soon be under threat from a massive round of cuts and closures or that debts already at USD10bn will mount up with catastrophic effect But he argues that there is a third option a return to a rational railway in which the disparate pieces are reassembled into a functioning network      **The British Railway Position** George Paish, 1902      British railways and the great war ; organisation, efforts, difficulties and achievements Edwin A. Pratt, 1921-01-01      British Railways 1948-73 T. R. Gourvish, N.
