Lawrence D. Bobo, Melvin L. Oliver, Jr. James H. Johnson, Abel, Jr. Valenzuela, 2000-11-02 This book cuts through the powerful mythology surrounding Los Angeles to reveal the causes of inequality in a city that has weathered rapid population change economic restructuring and fractious ethnic relations The sources of disadvantage and the means of getting ahead differ greatly among the city's myriad ethnic groups The demand for unskilled labor is stronger here than in other cities allowing Los Angeles's large population of immigrant workers with little education to find work in light manufacturing and low paid service jobs A less beneficial result of this trend is the increased marginalization of the city's low skilled black workers who do not enjoy the extended ethnic networks of many of the new immigrant groups and who must contend with persistent negative racial stereotypes Patterns of residential segregation are also more diffuse in Los Angeles with many once black neighborhoods now split evenly between blacks Hispanics Asians and other minorities Inequality in Los Angeles cannot be reduced to a simple black white divide Nonetheless in this thoroughly multicultural city race remains a crucial factor shaping economic fortunes A Volume in the Multi City Study of Urban Inequality     Social Problems Anna Leon-Guerrero, 2021-12-28 Empower your students to become part of the solution The new Seventh Edition of Social Problems Community Policy and Social Action by Anna Leon Guerrero goes beyond the typical presentation of contemporary social problems and their consequences by emphasizing the importance and effectiveness of community involvement to achieve real solutions With a clear and upbeat tone this thought provoking text challenges readers to see the social and structural forces that determine our social problems to consider various policies and programs that attempt to address these problems and to recognize and learn how they can be part of the solution to social problems in their own community This title is accompanied by a complete teaching and learning package     *Asian American Politics* Don T. Nakanishi, James S. Lai, James Siu-Fong Lai, 2003 Asian Americans are emerging as a political force and yet their politics have not been systematically studied by either social scientists or politicians Asian American politics transcend simple questions of voting behavior and elective office going all the way back to early immigration laws and all the way forward to ethnic targeting For the first time this book brings together original sources on key topics influencing Asian American politics knit together by expert scholars who introduce each subject and place it in context with political events and the greater emerging literature Court cases legislation demographics and key pieces on topics ranging from gender to Japanese American redress to the Los Angeles riots to Wen Ho Lee round out this innovative reader on a politically active group likely to grow in number and electoral impact     *Urban Politics*

Stephen J. McGovern, 2016-02-16 Steve McGovern's *Urban Politics A Reader* examines the changing structure of political power in cities through the lens of historical development accompanied with brief explorations of pertinent public policy issues. Having studied and taught urban politics for over 20 years McGovern Haverford College foregrounds his approach with a discussion of cities in a global era and then divides the material into five parts or themes: the formation of city politics, city politics under stress, the politics of urban revitalization, the changing dynamics of urban politics, and visions of contemporary urban politics. He expands the scope of his exploration by integrating literature that is not commonly observed in urban politics texts, i.e. works by journalists as well as scholars, and by including debates about political power in both big and smaller cities.

**Resources in Education**, 1997 **Black-Brown Relations and Stereotypes** Tatcho Mindiola, Yolanda Flores Niemann, Nestor Rodriguez, 2003-01-01 Provides analysis of the relationship between African Americans and Hispanic Americans in Houston Texas

*Urban Culture* Chris Jenks, 2004 This set includes key pieces from Peter Ackroyd, Charles Baudelaire, Walter Benjamin, Homi Bhaba, Charles Dickens, Fredrick Engels, Paul Gilroy, Thomas Hobbes, Max Weber, George Simmel, Ian Sinclair, Edward W Soja, Gayatri Spivak, Nigel Thrift, Virginia Woolf, Sharon Zukin, and many others. The material is arranged thematically, highlighting the variety of interests that coexist and conflict within the city. Issues such as gender, class, race, age, and disability are covered along with urban experiences such as walking, politics, anthropology, cultural history, cultural geography, art, critical theory, visual culture, literary studies, social policy, and cultural studies.

**Cities, Politics, and Policy** John P. Pelissero, 2002-10-01 Just because Milwaukee isn't Manhattan doesn't mean that those urban centers face completely unique challenges. Through effective comparative analysis of key issues in urban studies, how city managers share power with mayors, how spending policies affect economic development, and how school politics impact education policy, students can clearly see how scholars discern patterns and formulate conclusions to offer theoretical and practical insights from which all cities can benefit. Pelissero brings together an impressive team of contributors to explore variation among cities through case studies and cross-sectional analyses. Each author synthesizes the field's seminal literature while explaining how urban leaders and their constituents grapple with everything from city council politics to conflict and cooperation among minority groups. Authors identify both key trends and gaps in the scholarship and help set the research agenda for the years to come. Lively case material will hook your students while the accessible presentation of empirical evidence makes this reader the comprehensive and sophisticated text you demand.

**Latinos Facing Racism** Joe R. Feagin, José A. Cobas, 2015-11-17 Feagin and Cobas provide the first in-depth examination of the everyday racism faced by middle-class Latinos. Based on a national survey, we learn how a diverse group of talented Latinos, Mexican Americans, Puerto Rican Americans, Cuban Americans, and others respond to and cope with the commonplace white racial framing and discriminatory practices. Drawing on extensive interviewing, the authors address the recurring discrimination of ordinary whites directed against Spanish speakers and individuals with presumed Latino phenotypes. These

incidents occur in everyday encounters such as when male and female Latinos travel or shop The book also chronicles the mistreatment that Latinos face from immigration officials when they cross US borders and from the police when they are racially profiled outside Latino areas Critical and conforming Latino responses to recurring white discrimination are also extensively examined as well as the diverse Latino reactions to remedial programs like affirmative action and to the ideal of assimilation into the proverbial US melting pot

**Perspectives on Las Américas** Mathew C. Gutmann, Félix V. Rodríguez, Lynn Stephen, Patricia Zavella, 2008-04-15 Perspectives on Las Américas A Reader in Culture History and Representation charts new territory by demonstrating the limits of neatly demarcating the regions of Latin America and the United States This landmark volume presents key readings that collectively examine the historical cultural economic and political integration of Latin Americans across the Americas thereby challenging the barriers between Latino Studies and Latin American Caribbean Studies Brings together key readings that collectively examine the historical cultural economic and political integration of Latin Americans across the Americas Charts new territory by demonstrating the limits of neatly demarcating the regions of Latin America and the United States Challenges the barriers between Latino Studies and Latin American Caribbean Studies as approached by anthropologists historians and other scholars Offers instructors students and interested readers both the theoretical tools and case studies necessary to rethink transnational realities and identities

Immigration Susanne Jonas, Suzanne Dod Thomas, 1999 Intended to fill a gap in the literature on immigration this work provides a variety of perspectives among those who agree that immigrants have rights but may differ in how to assert those rights The contributions challenge the historic and ongoing struggle of migrants rights

*Place Matters* Peter Dreier, John Mollenkopf, Todd Swanstrom, 2014-08-15 How can the United States create the political will to address our major urban problems poverty unemployment crime traffic congestion toxic pollution education energy consumption and housing among others That is the basic question addressed by the new edition of this award winning book Thoroughly revised and updated for its third edition Place Matters examines the major trends and problems shaping our cities and suburbs explores a range of policy solutions to address them and looks closely at the potential political coalitions needed to put the country's urban crisis back on the public agenda The problem of rising inequality is at the center of Place Matters During the past several decades the standard of living for the American middle class has stagnated the number of poor people has reached its highest level since the 1960s and the super rich have dramatically increased their share of the nation's wealth and income At the same time Americans have grown further apart in terms of where they live work and play This trend economic segregation no longer simply reflects the racial segregation between white suburbs and minority cities In cities and suburbs alike poor middle class and wealthy Americans now live in separate geographic spaces The authors have updated the case studies and examples used to illustrate the book's key themes incorporated the latest Census data and drawn on exit polls and other data to examine the voting patterns and outcomes of the 2012 elections They have expanded their discussion of

how American cities are influenced by and influence global economic and social forces and how American cities compare with their counterparts in other parts of the world And they draw upon the latest research and case studies not only to examine the negative impacts of income inequality and economic segregation but also assess the efforts that civic and community groups unions business and government are making to tackle them Fully up to date and far richer and more provocative this new version surpasses its previous editions and will continue to be an essential volume for all who study urban politics and care about our cities      **The Politics of Democratic Inclusion** Christina Wolbrecht,Rodney E.

Hero,2005 How institutions foster and hinder political participation of the underrepresented      *The Changing Face of Home* Peggy Levitt,Mary C. Waters,2002-12-12 The children of immigrants account for the fastest growing segment of the U S population under eighteen years old one out of every five children in the United States Will this generation of immigrant children follow the path of earlier waves of immigrants and gradually assimilate into mainstream American life or does the global nature of the contemporary world mean that the trajectory of today s immigrants will be fundamentally different Rather than severing their ties to their home countries many immigrants today sustain economic political and religious ties to their homelands even as they work vote and pray in the countries that receive them The Changing Face of Home is the first book to examine the extent to which the children of immigrants engage in such transnational practices Because most second generation immigrants are still young there is much debate among immigration scholars about the extent to which these children will engage in transnational practices in the future While the contributors to this volume find some evidence of transnationalism among the children of immigrants they disagree over whether these activities will have any long term effects Part I of the volume explores how the practice and consequences of transnationalism vary among different groups Contributors Philip Kasinitz Mary Waters and John Mollenkopf use findings from their large study of immigrant communities in New York City to show how both distance and politics play important roles in determining levels of transnational activity For example many Latin American and Caribbean immigrants are circular migrants spending much time in both their home countries and the United States while Russian Jews and Chinese immigrants have far less contact of any kind with their homelands In Part II the contributors comment on these findings offering suggestions for reconceptualizing the issue and bridging analytical differences In her chapter Nancy Foner makes valuable comparisons with past waves of immigrants as a way of understanding the conditions that may foster or mitigate transnationalism among today s immigrants The final set of chapters examines how home and host country value systems shape how second generation immigrants construct their identities and the economic social and political communities to which they ultimately express allegiance The Changing Face of Home presents an important first round of research and dialogue on the activities and identities of the second generation vis a vis their ancestral homelands and raises important questions for future research      **Inequality by Design** Claude S. Fischer,Michael Hout,Martín Sánchez Jankowski,Samuel R. Lucas,Ann Swidler,Kim Voss,2020-11-10 As debate rages over

the widening and destructive gap between the rich and the rest of Americans Claude Fischer and his colleagues present a comprehensive new treatment of inequality in America They challenge arguments that expanding inequality is the natural perhaps necessary accompaniment of economic growth They refute the claims of the incendiary bestseller *The Bell Curve* 1994 through a clear rigorous re analysis of the very data its authors Richard Herrnstein and Charles Murray used to contend that inherited differences in intelligence explain inequality *Inequality by Design* offers a powerful alternative explanation stressing that economic fortune depends more on social circumstances than on IQ which is itself a product of society More critical yet patterns of inequality must be explained by looking beyond the attributes of individuals to the structure of society Social policies set the rules of the game within which individual abilities and efforts matter And recent policies have on the whole widened the gap between the rich and the rest of Americans since the 1970s Not only does the wealth of individuals parents shape their chances for a good life so do national policies ranging from labor laws to investments in education to tax deductions The authors explore the ways that America the most economically unequal society in the industrialized world unevenly distributes rewards through regulation of the market taxes and government spending It attacks the myth that inequality fosters economic growth that reducing economic inequality requires enormous welfare expenditures and that there is little we can do to alter the extent of inequality It also attacks the injurious myth of innate racial inequality presenting powerful evidence that racial differences in achievement are the consequences not the causes of social inequality By refusing to blame inequality on an unchangeable human nature and an inexorable market an excuse that leads to resignation and passivity *Inequality by Design* shows how we can advance policies that widen opportunity for all
