which respond to the Arab conquests and Abd al Malik's religious propaganda at the end of the 7th century. Other studies deal with the beginnings of Syriac apologetic literature in response to early Islam, discussing texts of the first decades of the 8th century. The remaining articles focus on the religious controversies in the East Syrian community in connection with the increasing political influence of the Syrian Orthodox in Persia by the end of the 6th and the beginning of the seventh century and the after effects of Syriac anti-Islamic apologetics in a medieval encyclopedic text.

Perspectives on Early Islamic Art in Jerusalem Lawrence Nees, 2015-09-17 Through its material remains *Perspectives on Early Islamic Art in Jerusalem* analyzes several overlooked aspects of the earliest decades of Islamic presence in Jerusalem during the seventh century CE. Focusing on the Haram al Sharif also known as the Temple Mount, Lawrence Nees provides the first sustained study of the Dome of the Chain, a remarkable eleven-sided building standing beside the slightly later Dome of the Rock and the first study of the meaning of the columns and column capitals with figures of eagles in the Dome of the Rock. He also provides a new interpretation of the earliest mosque in Jerusalem, the Haram, as a whole with the sacred Rock at its center.

Dictionary of Islamic Architecture Andrew Petersen, 2002-03-11 The *Dictionary of Islamic Architecture* provides the fullest range of artistic, technical, archaeological, cultural, and biographical data for the entire geographical and chronological spread of Islamic architecture from West Africa through the Middle East to Indonesia and from the seventh to the eighteenth centuries of the Common Era. Over 500 entries are arranged alphabetically and fully cross-referenced and indexed to permit easy access to the text and to link items of related interest. Four main categories of subject matter are explored: dynastic and regional overviews, individual site descriptions, biographical entries, technical definitions. Over 100 relevant plans, sketch maps, photographs, and other illustrations complement and illuminate the entries, and the needs of the reader requiring further information are met by individual entry bibliographies.

Frontiers of Islamic Art and Architecture Gülru Necipoğlu, Julia Bailey, 2008 *Muqarnas* is sponsored by The Aga Khan Program for Islamic Architecture at Harvard University and the Massachusetts Institute of Technology, Cambridge, Massachusetts. Islam: Early architecture from Baghdad to Cordoba Henri Stierlin, 1996 This volume is an impressive survey of more than 600 years of Islamic architecture from the seventh to the thirteenth centuries in a region stretching from the Near and Middle East to Sicily, the Maghreb, and Andalusia. It presents masterpieces of Islamic architecture from the peerless Dome of the Rock in Jerusalem to the mysterious Umayyad palaces in the deserts of Syria and Palestine, from the sumptuous residences of the caliphs in Samarra and Saragossa to the Great Mosques of Damascus, Kairouan, and Cordoba.

"Architecture and Pilgrimage, 1000-1500" Deborah Howard, 2017-07-05 Although there is an obvious association between pilgrimage and place, relatively little research has centred directly on the role of architecture. *Architecture and Pilgrimage 1000-1500: Southern Europe and Beyond* synthesizes the work of a distinguished international group of scholars. It takes a

broad view of architecture to include cities routes ritual topographies and human interaction with the natural environment as well as specific buildings and shrines and considers how these were perceived represented and remembered The essays explore both the ways in which the physical embodiment of pilgrimage cultures is shared and what we can learn from the differences The chosen period reflects the flowering of medieval and early modern pilgrimage The perspective is that of the pilgrim journeying within or embarking from Southern Europe with a particular emphasis on Italy The book pursues the connections between pilgrimage and architecture through the investigation of such issues as theology liturgy patronage miracles and healing relics and individual and communal memory Moreover it explores how pilgrimage may be regarded on various levels from a physical journey towards a holy site to a more symbolic and internalized idea of pilgrimage of the soul

Islamic Architecture Robert Hillenbrand,1994 This is the definitive survey of Islamic architecture Working from a social rather than a technical perspective Hillenbrand shows how the buildings fulfilled their intended functions within the community Lavishly illustrated *Islam* Henri Stierlin,1996 The products of a highly developed architectural style even today bear witness to the greatness of Arabic culture To the western eye cities such as Jerusalem Mecca Baghdad or Cairo can seem utterly alien It is not only the way of life that is unfamiliar it is also the astoundingly varied architecture This volume surveys more than six centuries of Islamic architecture from the late 7th century to the mid 13th placing mosques Koran schools and palaces in their cultural religious and political contexts Distinctive features are its view of building as reflection of Moslem thinking and its focus on the Arab world With more than 200 colour photographs numerous plans chronological tables and an extensive glossary this is a reference work which appeals to the expert and the travel hungry reader alike **Bibliography of Art and Architecture in the Islamic World (2 vols.)** Susan Sinclair,2012-04-03

Following the tradition and style of the acclaimed Index Islamicus the editors have created this new Bibliography of Art and Architecture in the Islamic World The editors have surveyed and annotated a wide range of books and articles from collected volumes and journals published in all European languages except Turkish between 1906 and 2011 This comprehensive bibliography is an indispensable tool for everyone involved in the study of material culture in Muslim societies *Studies in Islamic History and Institutions* Šelomo D. Goyṭayn,1966
