The Burial Places Of Memory Epic Underworlds In Vergil Dante And Milton:

The Burial-places of Memory Ronald R. Macdonald,1987 *The Burial Places of Memory* Roderick Ross Macdonald,1987

Underworlds of Memory Alan Itkin,2017-05-15 Underworlds of Memory argues persuasively that the literary works of the expatriate German author W G Sebald can best be understood through the lens of the classical genre of epic Scholars often read Sebald s work as a project of cultural memory that aims to reevaluate Europe s past in the wake of the traumatic and complex events of the twentieth century Sebald s characters seek out the traces of Europe s destructive history in strange places They linger in disused train stations pause before works of art and return to childhood homes that turn out to be more foreign than any place they have visited Underworlds of Memory demonstrates that these strange encounters with the past are based on central tropes of classical epic the journey to the underworld the encounter with a work of art and the return to the homeland Sebald thus follows in the footsteps of German Jewish authors including Peter Weiss Siegfried Kracauer and Jean Am ry who use these same epic tropes to reconsider the cultural memory of the Holocaust Underworlds of Memory reads Sebald s works together with the works of these German Jewish authors and the classical epics of Homer and Virgil in order to describe and trace the origins of the unique intervention into cultural memory they embody *Memory in Vergil's Aeneid* Aaron M. Seider,2013-09-12 Tracing the path from Troy s destruction to Rome s foundation the Aeneid explores the transition between past and future As the Trojans struggle to found a new city and the narrator sings of his audience s often painful history memory becomes intertwined with a crucial leitmotif the challenge of being part of a group that survives violence and destruction only to face the daunting task of remembering what was lost This book offers a new reading of the Aeneid that engages with critical work on memory and questions the prevailing view that Aeneas must forget his disastrous history in order to escape from a cycle of loss Considering crucial scenes such as Aeneas reconstruction of Celaeno s prophecy and his slaying of Turnus this book demonstrates that memory in the Aeneid is a reconstructive and dynamic process one that offers a social and narrative mechanism for integrating a traumatic past with an uncertain future

The Burial-places of Memory Ronald R. Macdonald,1983 *Passage through Hell* David L. Pike,2018-09-05 Taking the culturally resonant motif of the descent to the underworld as his guiding thread David L Pike traces the interplay between myth and history in medieval and modernist literature Passage through Hell suggests new approaches to the practice of comparative literature and a possible escape from the current morass of competing critical schools and ideologies Pike s readings of Louis Ferdinand Celine and Walter Benjamin reveal the tensions at work in the modern appropriation of structures derived from ancient and medieval descents His book shows how these structures were redefined in modernism and persist in contemporary critical practice In order to recover the historical corpus of modernism he asserts it is necessary to acknowledge the attraction that medieval forms and motifs held for modernist literature and theory By pairing the writings of the postwar German dramatist and novelist Peter Weiss with Dante s Commedia and Christine de Pizan with Virginia Woolf

Pike argues for a new level of complexity in the relation between medieval and modern poetics Pike's supple and persuasive reading of the *Commedia* resituates that text within the contradictions of medieval tradition He contends that the Dantean allegory of conversion altered to suit the exigencies of modernism maintains its hold over current literature and theory The postwar writers Pike treats Weiss Seamus Heaney and Derek Walcott exemplify alternate strategies for negotiating the legacy of modernism The passage through hell emerges as a way of disentangling images of the past from their interpretation in the present

Giotto's Arena Chapel and the Triumph of Humility Henrike Christiane Lange, 2023-02-09 In this book Henrike Lange takes the reader on a tour through one of the most beloved and celebrated monuments in the world Giotto's Arena Chapel Paying close attention to previously overlooked details Lange offers an entirely new reading of the stunning frescoes in their spatial configuration The author also asks fundamental questions that define the chapel's place in Western art history Why did Giotto choose an ancient Roman architectural frame for his vision of Salvation What is the role of painted reliefs in the representation of personal integrity passion and the human struggle between pride and humility familiar from Dante's *Divine Comedy* How can a new interpretation regarding the influence of ancient reliefs and architecture inform the famous Assisi controversy and cast new light on the debate around Giotto's authorship of the Saint Francis cycle Illustrated with almost 200 color plates this volume invites scholars and students to rediscover a key monument of art and architecture history and to see it with new eyes

C.S. Lewis, Writer, Dreamer, and Mentor Lionel Adey, 1998 This new study by Lionel Adey is unique in its attempt to trace the development of C S Lewis as a maker and reader of books Adey shows how the two sides of Lewis's personality Dreamer and Mentor affected his writing in its various modes

The Dominion of the Dead Robert Pogue Harrison, 2010-04-15 How do the living maintain relations to the dead Why do we bury people when they die And what is at stake when we do In *The Dominion of the Dead* Robert Pogue Harrison considers the supreme importance of these questions to Western civilization exploring the many places where the dead cohabit the world of the living the graves images literature architecture and monuments that house the dead in their afterlife among us This elegantly conceived work devotes particular attention to the practice of burial Harrison contends that we bury our dead to humanize the lands where we build our present and imagine our future As long as the dead are interred in graves and tombs they never truly depart from this world but remain if only symbolically among the living Spanning a broad range of examples from the graves of our first human ancestors to the empty tomb of the Gospels to the Vietnam Veterans Memorial Harrison also considers the authority of predecessors in both modern and premodern societies Through inspired readings of major writers and thinkers such as Vico Virgil Dante Pater Nietzsche Heidegger and Rilke he argues that the buried dead form an essential foundation where future generations can retrieve their past while burial grounds provide an important bedrock where past generations can preserve their legacy for the unborn *The Dominion of the Dead* is a profound meditation on how the thought of death shapes the communion of the living A work of enormous scope intellect and imagination this book will

speak to all who have suffered grief and loss *Tracing the Trails in the Medieval World* Albrecht Classen, 2020-10-11 Every human being knows that we are walking through life following trails whether we are aware of them or not Medieval poets from the anonymous composer of Beowulf to Marie de France Hartmann von Aue Gottfried von Strassburg and Guillaume de Lorris to Petrarch and Heinrich Kaufringer predicated their works on the notion of the trail and elaborated on its epistemological function We can grasp here an essential concept that determines much of medieval and early modern European literature and philosophy addressing the direction which all protagonists pursue as powerfully illustrated also by the anonymous poets of Herzog Ernst and Sir Gawain and the Green Knight Dante's Divina Commedia in fact proves to be one of the most explicit poetic manifestations of the fundamental idea of the trail but we find strong parallels also in powerful contemporary works such as Guillaume de Deguileville's *Plerinage de la vie humaine* and in many mystical tracts

American Magic and Dread Mark Osteen, 2000-06-19 A strongly argued analysis and close reading of DeLillo's works There is much here in the methodology and discussion of postmodern themes and techniques that will have relevance to American studies and cultural studies more widely Forum for Modern Language Studies **The Hero Journey in Literature** Evans Lansing Smith, 1997 This book provides an overview of the hero journey theme in literature from antiquity to the present with a focus on the imagery of the rites of passage in human life initiation at adolescence mid life and death This is the only book to focus on the major works of the literary tradition detailing discussions of the hero journey in major literary texts Included are chapters on the literature of Antiquity Sumerian Egyptian Biblical Greek and Roman the Middle Ages with emphasis on the Arthurian Romance the Renaissance to the Enlightenment Shakespeare Milton Marvell Pope Fielding the Arabian Nights and Alchemical Illustration Romanticism and Naturalism Coleridge Selected Grimm's Tales Brontë Bierce Whitman Twain Hawthorne E T A Hoffman Rabindranath Tagore and Modernism to Contemporary Joyce Gilman Alifa Rifaat Bellow Lessing Pynchon Eudora Welty The Mind Is a Collection Sean Silver, 2015-12-17 The Mind Is a Collection approaches seventeenth and eighteenth century theory of the mind from a material point of view examining the metaphors for mental activity that invoked the material activity of collection *An Empire of Air and Water* Siobhan Carroll, 2015-01-19 Planetary spaces such as the poles the oceans the atmosphere and subterranean regions captured the British imperial imagination Intangible inhospitable or inaccessible these blank spaces what Siobhan Carroll calls atopias existed beyond the boundaries of known and inhabited places The eighteenth century conceived of these geographic outliers as the natural limits of imperial expansion but scientific and naval advances in the nineteenth century created new possibilities to know and control them This development preoccupied British authors who were accustomed to seeing atopic regions as otherworldly marvels in fantastical tales Spaces that an empire could not colonize were spaces that literature might claim as literary representations of atopias came to reflect their authors attitudes toward the growth of the British Empire as well as the part they saw literature playing in that expansion Siobhan Carroll interrogates the role these blank

spaces played in the construction of British identity during an era of unsettling global circulations Examining the poetry of Samuel T Coleridge and George Gordon Byron and the prose of Sophia Lee Mary Shelley and Charles Dickens as well as newspaper accounts and voyage narratives she traces the ways Romantic and Victorian writers reconceptualized atopias as threatening or at times vulnerable These textual explorations of the earth s highest reaches and secret depths shed light on persistent facets of the British global and environmental imagination that linger in the twenty first century *Political Returns* John Evan Seery,2019-07-11 This book presents a theory of the politics of irony and tests this theory through readings of political theory texts and through an analysis of the politics of the contemporary anti nuclear movement and argues that political writing must be ironic

Ricorso and Revelation Evans Lansing Smith,1995 *Ricorso and Revelation* traces the impact on Modernism of the archaeological discoveries of the Palace of Knossos the Royal Cemetery of Ur and the Tomb of Tutankhamen and the artifacts recovered from these sites showing how they entered the narrative strategies of the Modernist movement The author also develops a new argument about the four myth configurations the maze alchemy the Great Goddess and the Apocalypse which were of central importance to the literature of European Modernism between 1895 and 1946 studying their appearances in a wide range of European modernist writers and in the paintings of Picasso and the films of Jean Cocteau Drawing from a variety of theories on myth Smith suggests that each of these four myths represents a creative return to the origins ricorso a reduction of the raw materials of daily life to the fundamental elements of creation revelation followed by a recreation of the world cosmogenesis of the poet ontogenesis and of the text poesis I Memory Patricia Fara,Karalyn Patterson,1998-09-03 This engaging volume for the general reader explores how individuals and societies remember forget and commemorate events of the past The collection of eight essays takes an interdisciplinary approach to address the relationships between individual experience and collective memory with leading experts from the arts and sciences We might expect scientists to be concerned with studying just the mental and physical processes involved in remembering and humanities scholars to be interested in the products of memory such as books statues and music This collection exposes the falseness of such a dichotomy illustrating the insights into memory which can be gained by juxtaposing the complementary perspectives of specialists venturing beyond the normal boundaries of their disciplines The authors come from backgrounds as diverse as psychoanalysis creative writing neuroscience social history and medicine

Cinema, Memory, Modernity Russell J.A. Kilbourn,2013-10-18 Since its inception cinema has evolved into not merely a reflection but an indispensable index of human experience especially our experience of time s passage of the present moment and most importantly perhaps of the past in both collective and individual terms In this volume Kilbourn provides a comparative theorization of the representation of memory in both mainstream Hollywood and international art cinema within an increasingly transnational context of production and reception Focusing on European North and South American and Asian films Kilbourn reads cinema as providing the viewer with not only the content and form of memory but also with its own

directions for use the required codes and conventions for understanding and implementing this crucial prosthetic technology an art of memory for the twentieth century and beyond *Shakespearean Power and Punishment* Gillian Murray Kendall,1998 The essays in this volume demonstrate how effectively different indeed seemingly contradictory theoretical paradigms can work with Shakespeare s plays to excavate issues of power and punishment **Reverberating Song in Shakespeare and Milton** Erin Minear,2016-04-08 In this study Erin Minear explores the fascination of Shakespeare and Milton with the ability of music heard imagined or remembered to infiltrate language Such infected language reproduces not so much the formal or sonic properties of music as its effects Shakespeare s and Milton s understanding of these effects was determined she argues by history and culture as well as individual sensibility They portray music as uncanny and divine expressive and opaque promoting associative rather than logical thought processes and unearthing unexpected memories The title reflects the multiple and overlapping meanings of reverberation in the study the lingering and infectious nature of musical sound the questionable status of audible earthly music as an echo of celestial harmonies and one writer s allusions to another Minear argues that many of the qualities that seem to us characteristically Shakespearean stem from Shakespeare s engagement with how music works and that Milton was deeply influenced by this aspect of Shakespearean poetics Analyzing Milton s account of Shakespeare s warbled notes she demonstrates that he saw Shakespeare as a peculiarly musical poet deeply and obscurely moving his audience with language that has ceased to mean but nonetheless lingers hauntingly in the mind Obsessed with the relationship between words and music for reasons of his own including his father s profession as a composer Milton would adopt adapt and finally reject Shakespeare s form of musical poetics in his own quest to join the angel choir Offering a new way of looking at the work of two major authors this study engages and challenges scholars of Shakespeare Milton and early modern culture
