CS1080 A Companion to Byzantine Illustrated Manuscripts, 2017-06-06 This volume offers an overview of Byzantine manuscript illustration a central branch of Byzantine art and culture Just like written texts illustrations bear witness to Byzantine material culture imperial ideology and religious beliefs as well as to the development and spread of Byzantine art In this sense illustrated books reflect the society that produced and used them Being portable they could serve as diplomatic gifts or could be acquired by foreigners In such cases they became emissaries of Byzantine art and culture in Western Europe and the Arabic world The volume provides for the first time a comprehensive overview of the material divided by text categories including both secular and religious manuscripts and analyses which texts were illustrated in Byzantium and how Contributors are Justine M Andrews Leslie Brubaker Annemarie W Carr Elina Dobrynina Maria Evangelatou Maria Laura Tomea Gavazzoli Markos Giannoulis Cecily Hennessy Ioli Kalavrezou Maja Kominko Sofia Kotzabassi Stavros Lazaris Kallirroe Linardou Vasileios Marinis Kathleen Maxwell Georgi R Parpulov Nancy Pevenko Jean Michel Spieser Mika Takiguchi Courtney Tomaselli Marina Toupouri Nicolette S Trahoulia Vasiliki Tsamakda and Elisabeth Yota

Images of the Byzantine World Angeliki Lymberopoulou, 2016-12-05 The main themes of this volume are the identification of visions messages and meanings in various facets of Byzantine culture and the possible differences in the perception of these visions messages and meanings as seen by their original audience and by modern scholars The volume addresses the methodological question of how far interpretations should go whether there is a tendency to read too much into too little or whether not enough attention is paid to apparent minutiae that may have been important in their historical context As the essays span a wide chronological era they also present a means of assessing the relative degrees of continuity and change in Byzantine visions messages and meanings over time Thus as highlighted in the concluding section the book discusses the validity of existing notions regarding the fluidity of Byzantine culture when continuity was a matter of a rigid adherence to traditional

values and when a manifestation of the ability to adapt old conventions to new circumstances and it shows that in some respects Byzantine cultural history may have been less fragmented than is usually assumed Similarly by reflecting not just on new interpretations but also on the process of interpreting itself the contributors demonstrate how research within Byzantine studies has evolved over the past thirty years from a set of narrowly defined individual disciplines into a broader exploration of interconnected cultural phenomena

Religious Franks Rob Meens,Dorine van Espelo,Bram van den Hoven van Genderen,Janneke Raaijmakers,Irene van Renswoude,Carine van Rhijn,2016-04-29 This volume in honour of Mayke De Jong offers twenty five essays focused upon the importance of religion to Frankish politics a discourse to which De Jong herself has contributed greatly in her academic career The prominent and internationally renowned contributors offer fresh perspectives on various themes such as the nature of royal authority the definition of polity unity and dissent ideas of correction and discipline the power of rhetoric and the rhetoric of power and the diverse ways in which power was institutionalised and employed by lay and ecclesiastical authorities As such this volume offers a uniquely comprehensive and valuable contribution to the field of medieval history in particular the study of the Frankish world in the eighth and ninth centuries

The Oxford Handbook of Byzantine Studies Elizabeth Jeffreys,John F. The Crescent on the Temple Pamela Berger,2012-06-07 The Crescent on the Temple by Pamela Berger elucidates an obscured tradition how the Dome of the Rock came to stand for the Temple of Solomon in Christian Muslim and Jewish art The crusaders called the Dome of the Rock the Temple of the Lord while Muslim imagery depicted Solomon enthroned within the domed structure Jews knew that the ancient Temple had been destroyed Nevertheless in their imagery they commonly labeled the Muslim shrine The Temple That domed Temple was often

represented with a crescent on top This iconography long hidden in plain sight reflects one aspect of an historical affinity between Jews and Muslims Performing the Gospels in Byzantium Roland Betancourt, 2021-05-13 Tracing the Gospel text from script to illustration to recitation this study looks at how illuminated manuscripts operated within ritual and architecture Focusing on a group of richly illuminated lectionaries from the late eleventh century the book articulates how the process of textual recitation produced marginalia and miniatures that reflected and subverted the manner in which the Gospel was read and simultaneously imagined by readers and listeners alike This unique approach to manuscript illumination points to images that slowly unfolded in the mind of its listeners as they imagined the text being recited as meaning carefully changed and built as the text proceeded By examining this process within specific acoustic architectural spaces and the sonic conditions of medieval chant the volume brings together the concerns of sound studies liturgical studies and art history to demonstrate how images texts and recitations played with the environment of the Middle Byzantine church **The**

Coptic Studies on the Threshold of a New Millennium Mat Immerzeel, Jacques van der Vliet, 2004 *Artibus Et Historiae* , 2005 **An Obscure Portrait** Mati Meyer, 2007-12-31 Recent discussions on Byzantine art have been dominated by the question of representing realia Among these however the way works of art reflect the daily life of women have not received much space or attention The present book studies various images representing women s status and her performative tasks and their significance from the fourth century to the fall of the Empire through analysis of archaeological evidence and works of art It addresses a wide range of questions some pertaining both to pictorial traditions and to their late antique antecedents others peculiar to changing and evolving Byzantine culture and mentality The first chapter deals with the imagery of childbearing starting with conception and concluding with the care given to the new born and the mother The second chapter investigates motherhood imagery breastfeeding child care and child mother intimacy and the portrayal of women as caretakers and managers of the household preparing food bringing water carding and weaving or working side by side with their husbands The third chapter is dedicated to representations of women holding positions outside the house midwives maidservants wet nurses and mourners Images of women engaged in disreputable occupations dancers musicians prostitutes and courtesans complete this chapter The fourth chapter discusses images of women portrayed in the metaphorical margins looking out from the gynaikeion the women s apartments or at their private toilette it also deals with representations of women who stray from the societal mainstream concubines adulteresses women consenting to sexual acts

or being coerced into them considered symbolically as belonging to the margins of society The book concludes with a discussion of the degree to which the visual material reliably reflects reality and changing attitudes toward women between Late Antiquity and late Byzantium and further to what extent it reveals embedded perceptions and conceptions of women constructed by canonic regulations and imperial law popular beliefs and accepted customs The book aims to lift a veil from known and less known works of art and to present the rarely described picture of the daily life of women in Byzantine art over a very wide chronological span of time in an effort to expand our knowledge of women in Byzantium and their realia

The Octateuchs John Lowden, 1992 Scholars have until now lacked a detailed study of the Octateuchs a group of five illustrated Byzantine manuscripts that accompany the text of the first eight books of the Bible Since the first historical studies of Early Christian and Byzantine art in the late nineteenth century the Octateuchs have been considered important to hypotheses about the development of biblical illustration as well as to more detailed iconographic studies John Lowden's study makes available much new information about the Octateuchs that includes a number of previously unpublished manuscript images and pages Lowden examines the Octateuchs both individually and as a group determining the relationships among them and offering many suggestions concerning the process of their creation The author also covers topics ranging from antiquity to the Renaissance and takes up issues as diverse as the invention of illustration the transmission of iconography the role of archetypes and lost models and the artist as copyist or inventor His broader discussion includes individual works ranging from Dura Europos to the Sistine Chapel and art historical constructs such as the Macedonian Renaissance In addition Lowden critically examines approaches to studies of such illustrations specifically those of Kurt Weitzmann

The Cult of the Mother of God in Byzantium Leslie Brubaker, Mary B. Cunningham, 2016-12-05 This volume on the cult of the Theotokos Virgin Mary in Byzantium focuses on textual and historical aspects of the subject thus complementing previous work which has centred more on the cult of images of the Mother of God The papers presented here by an international team of scholars consider the development and transformation of the cult from

approximately the fourth through the twelfth centuries The volume opens with discussion of the origins of the cult and its Near Eastern manifestations including the archaeological site of the Kathisma church in Palestine which represents the earliest Marian shrine in the Holy Land and Syriac poetic treatment of the Virgin The principal focus however is on the 8th and 9th centuries in Byzantium as a critical period when Christian attitudes toward the Virgin and her veneration were transformed The book re examines the relationship between icons relics and the Virgin asking whether increasing devotion to these holy objects or figures was related in any way Some contributions consider the location of relics and later icons in Constantinople and other centres of Marian devotion others explore gender issues such as the significance of the Virgin s feminine qualities and whether women and men identified with her equally as a holy figure The aim of this volume is to build on recent work on the cult of the Virgin Mary in Byzantium and to explore areas that have not yet been studied The rationale is critical and historical using literary artistic and archaeological sources to evaluate her role in the development of the Byzantine understanding of the ways in which God interacts with creation by means of icons relics and the Theotokos The Cambridge History of the Bible: Volume 2, The West from the Fathers to the Reformation G. W. H. Lampe, 1975-10-31 The study of the Bible in the West from Jerome and the Fathers to the time of Erasmus Images of Cosmology in Jewish and Byzantine Art Shulamit Laderman, 2013-05-30 Does the design of the Tabernacle in the wilderness correspond to God s blueprint of Creation The Christian Topography a sixth century Byzantine Christian work presents such a cosmology Its theory is based on the pattern revealed to Moses on Mount Sinai when he was told to build the Tabernacle and its implements after their pattern which is being shown thee on the Mount Exod 25 40 The book demonstrates through texts and images the motifs that link the Tabernacle and Creation It traces the long chain of transmission that connects the Jewish and Christian traditions from Syria and ancient Israel to France and Spain from the first through the fourteenth century revealing new models of interaction between Judaism and Christianity
