McGuigan, Jr.,Frank H. Goodyear III,2022-08-09 This comprehensive study of Rome's contribution to the early history of photography traces the medium's rise from a fledgling science to a dynamic form of artistic expression that forever changed the way we perceive the Eternal City The authors examine the diverse transnational group of photographers who thrived in the cosmopolitan art center of Rome and the pivotal role they played in the refinement and technical development of the nascent medium in the nineteenth century The book ranges from the earliest pioneers the French daguerreotypist Joseph Philibert Girault de Prangey and the Welsh calotypist Calvert Richard Jones to the work of the Roman School of Photography and its successors among them James Anderson and Robert Macpherson of Britain Frédéric Flachon Firmin Eugène Le Dien and Gustave Le Gray of France and Giacomo Canova Adriano de Bonis and Pietro Dovizielli of Italy Lavishly illustrated with 112 plates many never before published by nearly fifty practitioners this volume expands our understanding of the place of Rome in early photography An exhibition of the same title is to open at the Bowdoin College Museum of Art in December 2022 accompanies this study Dazzled and Deceived Peter Forbes,2011-11-15 Nature has perfected the art of deception Thousands of creatures all over the world including butterflies moths fish birds insects and snakes have honed and practised camouflage

over hundreds of millions of years Imitating other animals or their surroundings nature s fakers use mimicry to protect themselves to attract and repel to bluff and warn to forage and to hide The advantages of mimicry are obvious but how does blind nature do it And how has humanity learnt to profit from nature s ploys Dazzled and Deceived tells the unique and fascinating story of mimicry and camouflage in science art warfare and the natural world Discovered in the 1850s by the young English naturalists Henry Walter Bates and Alfred Russel Wallace in the Amazonian rainforest the phenomenon of mimicry was seized upon as the first independent validation of Darwin s theory of natural selection But mimicry and camouflage also created a huge impact outside the laboratory walls Peter Forbes cultural history links mimicry and camouflage to art literature military tactics and medical cures across the twentieth century and charts its intricate involvement with the dispute between evolution and creationism The Bookseller ,1859 The Literary Gazette and Journal of Belles Lettres, Arts, Sciences ,1829 *Literary Gazette and Journal of Belles Lettres, Arts, Sciences, &c* ,1829
