*Canadian Families* Emily M. Nett, 1988      'New' Migration of Families from Greece to Europe and Canada Julie A. Panagiotopoulou, Lisa Rosen, Claudine Kirsch, Aspasia Chatzidaki, 2019-07-24 The volume aims at analysing the migration processes of families from Greece following the financial crisis from 2009 onwards It investigates whether and to what extent this new and international migration represents a new phenomenon when compared to the so called migration of guest workers during the sixties      **Telling Tales** Catherine A. Cavanaugh, Randi R. Warne, 2011-11-01 Women played a vital role in the shaping of the West in Canada between the 1880s and 1940s Yet surprisingly little is known about their contributions or the differences sex and gender made to the opportunities and obstacles women encountered Telling Tales contributes to the rewriting of western Canada's past by integrating women into the shifting power matrix of class race and gender that undergirded its colonization and settlement This book covers a range of topics African American settlement on Vancouver Island prairie childbirth narratives and Mennonites as domestic servants are but three examples They focus on women of both minority and dominant cultures and reflect the West's characteristically mixed population Telling Tales challenges founding myths of the region and invites a retelling of the story of western Canadian colonization and settlement      **Father Involvement in Canada** Jessica Ball, Kerry Daly, 2012-12-01 The landscape of Canadian fatherhood has changed dramatically over the past several decades Shifting family structures policy issues and cultural expectations affect men's interactions with their children and influence the way they perceive their own roles as fathers The traditional notion of fatherhood may have changed but fathers are as important today as ever before Father Involvement in Canada brings together more than a dozen leading scholars of fatherhood issues to examine the roles of Canadian fathers from many angles Looking at the experiences of fathers from different ethnicities age groups marital statuses gender partnering and economic brackets the authors examine issues such as the impact of poverty access to paternity leave and the availability of support from social institutions National in scope this is the first book of its kind to summarize and challenge current scholarship on Canadian fatherhood and offer new concepts theoretical frameworks and research directions      *Canada's Changing Families* Kevin McQuillan, Zenaida R. Ravanera, 2006-01-01 In recent years two significant trends have had a substantial impact on Canadian families First Canadian families have been dramatically altered by high rates of separation and divorce declining fertility greater popularity of alternative family arrangements such as cohabitation and increasing involvement of women in paid labour Second changes occurring in the economy and the larger society have brought new pressures to bear on families In Canada's Changing Families editors Kevin McQuillan and Zenaida R. Ravanera explore how these developments have altered family life Using data collected in recent surveys by Statistics Canada contributors to this volume illustrate how transformed

conditions in the labour market have forced families to alter their routines and the division of responsibilities within the household At the same time the government striving to maintain or increase the competitive position of the economy has moved to control spending restrain taxes and reduce deficits The result has been new demands on the family to provide or supplement services that might otherwise be provided by the state Canada s Changing Families is an eye opening study and one of great contemporary relevance

### **Contractualisation of Family Law - Global Perspectives**

Frederik Swennen,2015-07-06 This volume presents global and comparative perspectives on the perpetual pendular movement of family law between status and contract It contributes to the topical academic debate on family law exceptionalism by exploring the blurred lines between public law private law and family law and sheds light on the many shades of grey that exist The contributions focus on both substantive and procedural family law on parents and children and on life partners with particular attention for contractual arrangements of family formations and of conflict resolution The hypothesis underlying all contributions was the trend towards contractualisation of family law A convergent research outcome resulting from the comparison of national reports was the ambivalent position of family law in legal systems worldwide That comparison shows that whereas family law is clearly moving towards contract with regard to old family formations the contrary is true for new family formations The movement towards contract is rarely considered to be contractualisation pur sang with civil effect The movement towards status finally does not necessarily witness family law exceptionalism vis vis private law in view of the increasing State interventionism in private law relations in general In sum as the volume shows the high permeability of the demarcations between the State the family and the market impedes a categorial approach This volume is based on the general and selected national reports on the topic Contractualisation of Family Law that were presented at the XIXth International Congress of Comparative Law in Vienna in July 2014

### ***The Death and Life of the Single-Family House***

Nathanael Lauster,2016-11-02 Vancouver today is recognized as one of the most livable cities in the world as well as an international model for sustainability and urbanism Single family homes in this city are a dying breed Most people live in the various low rise and high rise urban alternatives throughout the metropolitan area The Death and Life of the Single Family House explains how residents in Vancouver attempt to make themselves at home without a house Local sociologist Nathanael Lauster has painstakingly studied the city s dramatic transformation to curb sprawl He tracks the history of housing and interviews residents about the cultural importance of the house as well as the urban problems it once appeared to solve Although Vancouver s built environment is unique Lauster argues that it was never predestined by geography or demography Instead regulatory transformations enabled the city to renovate build over and build around the house Moreover he insists there are lessons here for the rest of North America We can start building our cities differently and without sacrificing their livability

### **Family Change and Family Policies in Great Britain, Canada, New Zealand, and the United States**

Sheila B. Kamerman,Alfred J. Kahn,1997 This is the first volume in a series reporting on the evolution of family policies in

twenty Western welfare states and comparing current provisions The developments are presented in the context of a report on family change for each of the countries and with a view of the economic political and institutional contexts in which they occurred Each of the country reports in the present volume has been prepared as a team collaboration by internationally recognized experts The co editors have prepared an analytic introduction which discussed the methodology for the series as well as the hypotheses that emerge from these first case studies The topics include family formation and current structural patterns families and the division of labour the income of families earnings taxation transfer programmes as well as the political and institutional context for family policy An extensive bibliography is provided About the series A series of country studies and comparative analyses examining major changes in the family and the broad spectrum of family policies in Western industrial society in the second half of the twentieth century Vol 2 The Consociational Democracies Belgium Switzerland and the Netherlands Vol 3 France and Southern Europe Vol 4 Capitalist and Socialist Central Europe Austria the Germanies Hungary and Poland Vol 5 The Scandinavian Welfare States Vol 6 Family Industrial Society and the Welfare State in the West Early Variations and Long Term Developments in Comparative Perspective Vol 7 Family Policies in the West Since World War II A Cross National Analysis *Nationalism and Social Policy* Daniel Béland, André Lecours, 2008-08-07

This text explores the little studied relationship between nationalism and social policy Focusing on Canada the United Kingdom and Belgium it sheds new light on the relationships between identity formation territorial politics and social policy

**Family Law, Gender and the State** Alison Diduck, Felicity Kaganas, 2012-02-07 The third edition of this work on family law comprising text cases and materials provides not only an explication of legal principle but also explores primarily from a feminist perspective some of the assumptions about and constructions of gender sexual orientation class and culture that underlie the law It examines the ideology of the family and in particular the role of the law in contributing to and reproducing that ideology Structured around the themes of equality welfare and family privacy the book aims to offer the benefits of a textbook while also giving students a wide ranging set of materials for classroom discussion As well as providing a firm grounding in family law the text sets the law in its social and historical context and encourages a critical approach by students to the subject It provides an ideal introduction to family law for undergraduates but will be equally helpful for postgraduate students of family law for whom it provides a challenging selection of materials set within a theoretical framework rich in ideas and arguments Review of the second edition Diduck and Kaganas examine legal developments to shed light on society principally by investigating the ways in which family law constructs and regulates family life and responsibilities Theirs is an important and ambitious book that aims ultimately at a feminist restatement of family law The book is written and referenced in such depth that it is a useful resource for legal as well as social science researchers at all levels whether looking for theoretical inspiration or drawing up a literature review The range of diverse sources that Diduck and Kaganas draw on is impressive they seem to have included every bit of material that helps feminists make sense of family

law There is a well pitched selection of further reading of such material at the end of each chapter What s more they undersell themselves by describing their book as Text Cases and Materials because they have woven by far the largest proportion of the cases and materials into the text Helen Reece Times Higher Education May 2007 Reviews of first edition A stimulating work which attempts to situate family law in its social historical and political context Its appeal should not be confined to family law students as its commitment to a critical and analytical approach offers insights and ideas with broader significance Mary Childs Child and Family Law Quarterly September 2002 The arguments are provocative the analysis is stimulating and the materials amassed strongly support the authors aim to question the axiomatic status of what is traditionally designated as the family Fiona E Raitt Infant and Child Development September 2002 It is not often that one can say of a textbook in Law that it makes interesting reading with quite the enthusiasm that can be expressed for this text This new publication offers something that few textbooks seem to offer a book you CAN open up virtually anywhere and find an interesting piece on almost any aspect of the broad family law spectrum Penny Booth The Law Teacher September 2002 All the major themes in feminist and constructionist perspectives in family law are presented together with a wealth of readings and extensive references As a teaching manual it is excellent a coherent feminist perspective across the entire range of family law Marty Slaughter Feminist Legal Studies July 2003

*Containing Diversity* Yasmeen Abu-Laban, Ethel Tungohan, Christina Gabriel, 2022-10-03 Although Canada is known internationally as a leader among industrialized countries for inclusive practices towards immigrants and refugees the twenty first century has witnessed a rise in the number of refugees and temporary migrant workers who are often denied citizenship and may also experience detention and deportation *Containing Diversity* examines to what extent Canada s long standing support for immigration multiculturalism and citizenship has shifted in favour of discourses policies and practices that contain diversity This book reflects on how diversity is being contained through practices designed to insulate the Canadian settler colonial state In assessing the Canadian government s policies towards refugees and asylum seekers economic migrants family class migrants temporary foreign workers and multiculturalism the authors show the various contradictory practices in effect *Containing Diversity* reflects on policy changes analysed alongside the resurgence of right wing political ideology and the realities of the COVID 19 pandemic Ultimately *Containing Diversity* highlights the need for a re imagining of new forms of solidarity that centre migrant and Indigenous justice

*Children, Gender and Families in Mediterranean Welfare States* Mimi Ajzenstadt, John Gal, 2010-07-01 countries in this region have been particularly limited for an exception to this see Petmesidou Papatheodorou 2006 The underlying assumption in this volume is that despite the diversity of welfare states bordering the Mediterranean Sea some interesting commonalities are shared by these nations Indeed in his contribution to this volume Gal has described these nations as belonging to an extended family of welfare states that share some common characteristics and outcomes one of which is the role of the family By bringing together case analyses of the welfare states in the Mediterranean which focus

on children gender and families we maintain that it is possible to shed light on aspects of social policy that do not necessarily emerge in most discussions of these issues in the literature The rationale inherent in a volume that focuses on a group of welfare states is of course embedded in the welfare regime typology notion that has dominated much of the comparative social policy literature over the last two decades The publication of Esping Andersen s seminal work *The Three Worlds of Welfare Capitalism* in 1990 and his related 1999 book which distinguished between three welfare regimes became a landmark for comparative work of social policies in various countries Esping Andersen regarded his typology as a useful tool for comparison between welfare states because it allowed for greater analytical parsimony and help s us to see the forest rather than myriad trees 1999 p 73      **Annual Review of Gerontology and Geriatrics, Volume 13, 1993** ,1993-10-22

During the past few decades the dramatic social changes with regard to our aging population and changes in the family unit have made both demographic and socioeconomic consequences as well as an effect on matters of social policy The prestigious editors George L Maddox and M Powell Lawton have assembled an impressive group of expert contributors whose chapters address topics from the latest theory and research findings to the changing balance of work and families as well as patterns of kinship      **Comparing Canada** Martin Papillon,Luc Turgeon,Jennifer Wallner,Stephen White,2014-09-15

Debating how Canada compares both regionally and in relation to other countries is a national pastime This book examines how political scientists apply diverse comparative strategies to better understand Canadian political life Using a variety of methods the contributors use comparison to examine topics as diverse as Indigenous rights Canadian voting behaviour activist movements climate policy and immigrant retention While the theoretical perspectives and kinds of questions asked vary greatly as a whole they demonstrate how the art of comparing is an important strategy for understanding Canadian identity politics political mobilization political institutions and public policy Ultimately this book establishes how adopting a more systematic comparative outlook is essential not only to revitalize the study of Canadian politics but also to achieve a more nuanced understanding of Canada as a whole
