The Brief Sun:

Christian Solar Symbolism and Jesus the Sun of Justice Kevin Duffy, 2022-02-24 This pioneering study of Christian sun symbolism describes how biblical light motifs were taken up with energy in the early Church Kevin Duffy argues that living in a world of 24/7 illumination we need to reconnect with the sun and its light to appreciate the meaning of light in the Bible and Christian tradition With such a retrieval we can appreciate Pope Francis's insistence that like the moon the Church does not shine with its own light and assess the claim that the Eucharist is to be celebrated *Ad Orientem* that is towards the rising sun in the East Liturgy architecture poetry and the writings of saints and theologians such as Augustine Hildegard of Bingen Francis of Assisi and Thomas Traherne offer abundant resources for a much needed ressourcement While Christ was preached as the True Sun among sun worshipping Aztecs and the consecrated host was placed in a solar monstrance on Baroque altars in the modern era solar themes have been neglected In this accessible work the author suggests that we rebalance a spiritual symbolism that has over emphasised darkness and cloud at the expense of light and sun He proposes a creative retrieval of the traditional title of Christ as the Sun of Justice This title blends the personal the social and the cosmic ecological and speaks powerfully to a secularising era that contemporaries Friedrich Nietzsche and Thérèse of Lisieux both described as one where the sun does not shine

A Dying Planet Short Stories, 2020-07-07 Resources running low the population exploding the planet is in danger are we masters of our own destruction or have we been invaded by aliens bent on mass extinction Is this a pattern across the entire universe or just our small sector of cosmic life This new title in our successful Gothic Fantasy Short Stories series explores the theme of a dying planet written by a fabulous mix of classic ancient and brand new writing with contemporary authors from all over the world For the first time we've made a conscious effort to reach beyond our usual submissions seeking broader voices This book offers a glorious mix of American British Canadian Italian Indian Spanish and Chinese writers with contributions from Barton Aikman V K Blackwell Steve Carr Brandon Crilly AnaMaria Curtis Kate Dollarhyde Megan Dorei Stephanie Ellis Anita Ensai E E King Michael Kortés Raymond Little Ken Liu Thana Niveau John B Rosenman Sydney Rossman Reich Elizabeth Rubio Zach Shephard Shikhandin Alex Shvartsman Kristal Stittle Rebecca E Treasure Francesco Verso and Marian Womack These sit alongside classic stories by authors such as Clark Ashton Smith Stanley G Weinbaum H G Wells and more as well as stretching back much further to the Norse Eddas and Sagas and an Ancient Egyptian Myth on the death of humankind

Post-Jungian Psychology and the Short Stories of Ray Bradbury and Kurt Vonnegut Steve Gronert Ellerhoff, 2016-02-22 In this book Steve Gronert Ellerhoff explores short stories by Ray Bradbury and Kurt Vonnegut written between 1943 and 1968 with a post Jungian approach Drawing upon archetypal theories of myth from Joseph Campbell James Hillman and their forbearer C G Jung Ellerhoff demonstrates how short fiction follows archetypal patterns that can illuminate our understanding of the authors their times and their culture In practice a post Jungian methodology is shown to yield great insights for the literary criticism of short fiction

Chapters in this volume carefully contextualise and historicize each story including Bradbury and Vonnegut's earliest and most imaginatively fantastic works. The archetypal constellations shaping Vonnegut's early works are shown to be war and fragmentation while those in Bradbury's are family and the wholeness of the sun. Analysis is complemented by the explored significance of illustrations that featured alongside the stories in their first publications. By uncovering the ways these popular writers redressed old myths in new tropes and coined new narrative elements for hopes and fears born of their era, the book reveals a fresh method which can be applied to all imaginative short stories, increasing understanding and critical engagement. *Post Jungian Psychology and the Short Stories of Ray Bradbury and Kurt Vonnegut* is an important text for a number of fields from Jungian and Post Jungian studies to short story theories and American studies to Bradbury and Vonnegut studies. Scholars and students of literature will come away with a renewed appreciation for an archetypal approach to criticism while the book will also be of great interest to practising depth psychologists seeking to incorporate short stories into therapy.

The Sun from Space Kenneth R. Lang, 2008-10-20. The First Edition of *The Sun from Space* completed in 1999 focused on the early accomplishments of three solar spacecraft: SOHO, Ulysses, and Yohkoh, primarily during a minimum in the Sun's 11 year cycle of magnetic activity. The comprehensive Second Edition includes the main findings of these three spacecraft over an entire activity cycle including two minima and a maximum and discusses the significant results of six more solar missions. Four of these, the Hinode, RHESSI, STEREO, and TRACE missions, were launched after the First Edition was either finished or nearly so, and the other two, the ACE and Wind spacecraft, extend our investigations from the Sun to its varying input to the Earth. The Second Edition does not contain simple updates or cosmetic patch-ups to the material in the First Edition. It instead contains the relevant discoveries of the past decade integrated into chapters completely rewritten for the purpose. This provides a fresh perspective to the major topics of solar enquiry, written in an enjoyable, easily understood text accessible to all readers, from the interested layperson to the student or professional.

The Sun's Eye Anne Walmsley, 2021-03-25. There have been many great and enduring works of literature by Caribbean authors over the last century. The Caribbean Contemporary Classics collection celebrates these deep and vibrant stories overflowing with life and acute observations about society. In the vast Atlantic, the sun's eye blazes over the edge of the ocean and watches the islands in a great bow curving from Florida down to the South American coast. The poems and stories included in *The Sun's Eye* present a selection of old favourites and new discoveries celebrating the rich, warm, vibrant, and vital life in the string of islands which curve down from Florida to the South American coast. A great celebration of Caribbean culture and testimonial to all who have felt the warmth of the Caribbean sun and the whisper of the Caribbean breeze. Suitable for readers aged 11 and above.
