The Trash Phenomenon looks at how writers of the late twentieth century not only have integrated the events artifacts and theories of popular culture into their works but also have used those works as windows into popular culture s role in the process of nation building Taking her cue from Donald Barthelme s 1967 portrayal of popular culture as trash and Don DeLillo s 1997 description of it as a subversive people s history Stacey Olster explores how literature recycles American popular culture so as to change the nationalistic imperative behind its inception The Trash Phenomenon begins with a look at the mass media s role in the United States emergence as the twentieth century s dominant power Olster discusses the works of three authors who collectively span the century bounded by the Spanish American War 1898 and the Persian Gulf War 1991 Gore Vidal s American Chronicle series John Updike s Rabbit tetralogy and Larry Beinhart s American Hero Olster then turns her attention to three non American writers whose works explore the imperial sway of American popular culture on

their nation's value systems hierarchical class structure in Dennis Potter's England Peronism in Manuel Puig's Argentina and Nihonjinron consensus in Haruki Murakami's Japan Finally Olster returns to American literature to look at the contemporary media spectacle and the representative figure as potential sources of national consolidation after November 1963 Olster first focuses on autobiographical historical and fictional accounts of three spectacles in which the formulae of popular culture are shown to bypass differences of class gender and race the John F Kennedy assassination the Scarsdale Diet Doctor murder and the O J Simpson trial She concludes with some thoughts about the nature of American consolidation after 9 11

Thompson, 2016-05-16 This book appraises the critical contribution of the Studies in Imperialism series to the writing of imperial histories as the series passes its 100th publication The volume brings together some of the most distinguished scholars writing today to explore the major intellectual trends in Imperial history with a particular focus on the cultural readings of empire that have flourished over the last generation When the Studies in Imperialism series was founded the discipline of Imperial history was at what was probably its lowest ebb A quarter of a century on there has been a tremendous broadening of the scope of what the study of empire encompasses Essays in the volume consider ways in which the series and the wider historiography have sought to reconnect British and imperial histories to lay bare the cultural expressions and registers of colonial power and to explore the variety of experiences the home population derived from the empire **The Making of Les Bleus** Lindsay Sarah Krasnoff, 2012-12-16 The Making of Les Bleus traces the Fifth Republic's quest to create elite athletes in two global team sports football and basketball primarily at the youth level While the objective of this mission was to improve performances at international competitions such programs were quickly seized upon to help ease domestic issues and tensions The onset of the Cold War forced countries of all sizes to rethink their relevancy A country's ability to exert soft power or influence others through the cultural sphere became more important Sport was but one way through which to do so The extent to which France harnessed the athletic domain was unprecedented among other West European nations In France sport particularly at the youth level was used to cultivate soft power internationally to transmit republican ideals of democracy and fair play to

the youth and to examine and create a modern post colonial French identity in a globalizing world The French sought to find a third way in sports much in the way that it sought to create an alternative between the diplomatic policies of Washington and Moscow Fifth Republic sports systems placed the training of elite athletes under the state At the same time private clubs also played an important role in developing players to serve the republic in elite competition Examination of the republic's quest to create elite athletes provides perspective on how France coped with and adapted to the post 1945 world In what ways did the country reconfigure its global role How did domestic changes impact society In a globalizing post colonial world how has France come to terms with the past In what ways has France sought to create a new French identity This story helps answer such questions The history of the state's cooption of youth sports forms a compelling tale and serves as a prism through which to investigate the larger history of France the evolution of society the impacts of the media revolution and the government's mission of public health It underscores just how much things have changed yet still remained the same You can find a podcast interview with the author about this book at <http://newbooksinsports.com> 2013 11 14 lindsay krasnoff the making of les bleus sport in france 1958 2010 lexington books 2012
