*Ethnicity, Religion, and Muslim Education in a Changing World* Karamat Iqbal, Tahir Abbas, 2024-06-14. This novel and contemporary anthology brings important topics about race, religion and identity to the foreground to address the challenges facing Muslim schoolchildren today. Through interviews and case studies, the chapters explore topics such as multiethnic education, teacher diversity and culturally responsive pedagogy, providing insights into necessary changes and ways to enhance schools. Taking into account cultural touchstones such as the Black Lives Matter movement and the Trojan Horse affair, the book argues for an urgent transformative accommodation of Muslims to take place within schooling in order to improve the educational standards of Muslim children within the United Kingdom, including several chapters that focus on Muslim education in locations such as Yorkshire, Peterborough, High Wycombe and Tower Hamlets and further afield. This book will be of importance to scholars, researchers and postgraduate students studying religious education, secondary education and multicultural education more broadly. Policymakers interested in education policy and politics as well as race and ethnicity in educational contexts may potentially benefit from the volume.

Race, Religion & Muslim Identity in Britain Muhammad Abdul Bari, 2004. This timely book offers incisive and comprehensive analysis of faith as a cornerstone of identity. With the rapid transformation within the Muslim community over the last few decades, many young people are now finding it difficult to navigate between the demands of their religion on one side and social pressure on the other. Working with them and addressing the issues pertinent to their daily life is challenging to say the least. This book is the outcome of Dr Bari's long-term involvement with the young Muslims of London through his voluntary and professional work. This has put him on a continuous learning curve in assessing his personal situation as well. The foremost issue facing a young Muslim is of course one of identity, which the author has tried to address through the lens of Islamic principles.

**Believing in Britain** Ian Bradley, 2006-11-24 Why is there such intense interest today in the idea of Britishness Does it really matter and what is Britishness anyway Why does the notion of being British seem to have most resonance amongst recent immigrant especially Asian and Afro Caribbean communities And why is that traditional British values now seem to be most widely practised and cherished by newcomers not by the dominant majority This book answers these vital questions by making a unique contribution to the current debate about British identity It investigates why Liverpool is the most British of UK cities with a regional accent representing a medley of Welsh Scots Irish and English how a small village off the M6 motorway is arguably Britain's spiritual heart and what theme parks airport shops and eating habits have to tell us about the contemporary national character It is often claimed that Great Britain is one of the most secular nations on earth But controversially Ian Bradley argues that Britishness is best envisaged as a series of overlapping identities which are at root religious He views the 400 year old Union Jack with its overlaid crosses of three of the nation's four patron saints as symbolising the United Kingdom's unparalleled combination of unity in diversity the diversity of a society which now embodies Muslim Jewish Hindu Buddhist and many other including secular traditions He goes on to argue that Britishness has special value as a broad church measure of spiritual and cultural inclusiveness and as a positive alternative to fundamentalism narrow nationalism and jingoism The author explores in separate chapters the distinctive contributions to Britishness made over the centuries by the Celtic traditions of the Welsh and Irish the Anglo Saxon strain of tolerance and freedom associated with the English the moral seriousness of the Scots and the characteristics of exuberance modesty and privacy introduced by new black and Asian Britons Published to coincide with the three hundredth anniversary of the 1707 Act of Union his book offers a number of radical proposals These include re-designing the Union flag to incorporate a black cross on a gold background to better reflect the hybridity of contemporary Britain and replacing George Andrew and Patrick with a new trinity of patron saints Columba Bridget and Edward the Confessor Ian Bradley contends that a rejuvenated BBC monarchy and Commonwealth all have a part to play in forging a new sense of British identity which combines myth imagination and tradition with a broad open minded inclusivity and respect for difference *Believing in Britain* makes a consistently thoughtful and challenging contribution to one of the most important discussions of our time

*Jewish Soldiers in Nazi Captivity* Yorai Linenberg, 2024-01-25 This book explores the extraordinary story of Jewish POWs in German captivity during the Second World War extraordinary because of the contrast between Germany's genocidal policy towards Jews on one hand and its relatively non-discriminatory treatment of Jewish POWs from western countries on the other The radicalisation of Germany's anti-Semitic policies entered its last phase in June 1941 with the invasion of the Soviet Union during the following four years nearly six million Jews were murdered In parallel Germany's POW policies had gone through a radicalisation process of their own resulting in the murder of millions of Soviet

POWs of Allied commando soldiers and of POW escapees with Adolf Hitler eventually transferring in July 1944 the responsibility for POWs from the Wehrmacht to Heinrich Himmler in his role as head of the Replacement Army And yet despite all this Jewish POWs from western countries were usually not discriminated against and were treated in most cases according to the 1929 Geneva Convention Jewish Soldiers in Nazi Captivity combines memoirs letters and oral histories with Red Cross camp visit reports and other archival material to challenge the accepted view of the Holocaust as an indiscriminate murder of all Jews in Europe and will help to reshape our understanding of the Holocaust and of Nazi Germany
