Knickerbocker, **The Poetry of Robert Browning** Britta Martens, 2016-01-01 Robert Browning's pre eminent status amongst Victorian poets has endured despite the recent broadening of the literary canon He is the main practitioner of the period's most important poetic genre the dramatic monologue while his engagement with many aspects of nineteenth century culture makes him a key figure in the wider field of Victorian studies This stimulating introduction to Browning criticism provides an overview of the major responses to the poet's work over the last two hundred years It offers an insightful guide to criticism from various theoretical perspectives elucidating Browning's participation in Victorian debates about aesthetics history politics religion gender and psychology *Robert Browning's Poetry* Robert Browning, 1979 The Second Edition of this substantial collection of Browning's poetry again reprints the texts of the seventeen volume Fourth and complete edition Smith Elder of which all but the final volume were approved by Browning before his death The poems are ordered chronologically according to their first appearance in book form Thirteen new poems are included in this edition with Pauline now printed in its entirety Annotations have been revised throughout to clarify Browning's references and vocabulary Criticism retains the important contextual perspective of the First Edition The twenty three essays nine of which are new are divided into three sections Victorian Views Modern Essays in Criticism and Interpretations of Poems A Chronology Selected Bibliography and Index of Titles and First Lines are also included Browning's criticism of life William F. Revell, 1892 G. K. Chesterton - A Criticism Cecil Chesterton, 2017 Cecil Edward Chesterton was the brother of G K Chesterton a journalist and political commentator throughout his short life of only 39 years His biography of his better known brother was first published anonymously but it did not take long to discover the real author *Robert Browning* Gilbert Keith Chesterton, 2025-07-09 Robert Browning by G K Chesterton is a seminal biographical study that redefines the

Victorian poet through a lens of paradox and intellectual vigor Chesterton renowned for his wit and theological insight dismantles the myth of Browning as an obscure moralist presenting him instead as a champion of spiritual optimism and psychological depth The work dissects Brownings mastery of the dramatic monologue his exploration of human motives and his defiance of Victorian literary conventions Chesterton traces Brownings evolution from early works like Pauline to mature triumphs such as The Ring and the Book emphasizing the poets belief in the redemptive power of imperfection The analysis highlights Brownings marriage to Elizabeth Barrett framing it as a creative partnership that fueled his exploration of love and faith Chestertons criticism transcends mere biography offering readers a map to navigate Brownings dense symbolism and philosophical contradictions This volume stands as a cornerstone for enthusiasts of Victorian poetry literary criticism and biographical studies blending Chestertons signature rhetorical flair with rigorous scholarly analysis

Poet Lore ,1889 Representing Realists in Victorian Literature and Criticism Daniel Brown,2016-12-15 This book is about the historical moment when writers and critics first used the term realism to describe representation in literature and painting While scholarship on realism tends to proceed from an assumption that the term has a long established meaning and history this book reveals that mid nineteenth century critics and writers first used the term reluctantly with much confusion over what it might actually mean It did not acquire the ready meaning we now take for granted until the end of the nineteenth century In fact its first definitions came primarily by way of example and analogy through descriptions of current practitioners or through fictionalized representations of artists By investigating original debates over the term realism this book shows how writers simultaneously engaged with broader concerns about the changing meanings of what was real and who had the authority to decide this

Uncanny Bodies Robert Spadoni, 2007-09-04 In 1931 Universal Pictures released *Dracula* and *Frankenstein* two films that inaugurated the horror genre in Hollywood cinema These films appeared directly on the heels of Hollywood's transition to sound film *Uncanny Bodies* argues that the coming of sound inspired more in these massively influential horror movies than screams creaking doors and howling wolves A close examination of the historical reception of films of the transition period reveals that sound films could seem to their earliest viewers unreal and ghostly By comparing this audience impression to the first sound horror films Robert Spadoni makes a case for understanding film viewing as a force that can powerfully shape both the minutest aspects of individual films and the broadest sweep of film production trends and for seeing aftereffects of the temporary weirdness of sound film deeply etched in the basic character of one of our most enduring film genres

Browning's Beginnings Herbert F. Tucker Jr., 1980-12-31 *Browning's Beginnings* was first published in 1980 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions *Browning's Beginnings* offers a fresh approach to the poet who among major Victorians has proved at once the most congenial and most inscrutable to modern readers Drawing on recent developments in literary theory and in the criticism of romantic poetry Herbert F. Tucker Jr. argues that Browning's stylistic obscurity is the result of a principled poetics of evasion This art of disclosure in deferring formal and semantic finalities constitutes an aesthetic counterpart to his open ended moral philosophy of incompleteness Browning's poems like his enormously productive career find their motivation and sustenance in his optimistic love of the future a love that is indistinguishable from his lifelong fear that there will be nothing left to say The opening chapters trace the workings of Browning's art of disclosure with extensive and original interpretations of the unduly neglected early poems *Pauline Paracelsus* and *Sordello* and place special emphasis on Browning's attitudes toward poetic tradition and language A chapter on Browning's attitudes toward poetic tradition and language A chapter on Browning's plays identifies dynamics of representation in *Pippa Passes* *Strafford* and *King Victor and King Charles* Tucker discusses the pervasive analogy between Browning's ideas about poetic representation and about representation in its erotic and religious aspects and shows how the early poems and plays illustrate correlative developments in poetics and in the exploration and dramatic rendering of human psychology The remaining chapters follow the poetic psychology of Browning to its culmination in the great poems of his middle years exemplary readings of selected dramatic lyrics and monologues suggest that the ways of meaning in Browning's mature work variously bear out the sense of endlessness or perpetual initiation that is central to his poetic beginnings Tucker thus contends that the romantic and the Victorian Browning have more in common than is generally supposed and his book should appeal to students of both periods Its discussion of general literary issues poetic influence closure representation and meaning in application to particular texts should further recommend *Browning's Beginnings* to the nonspecialist reader interested in poetry and poetic theory
