**Connecting Childhood and Old Age in Popular Media** Vanessa Joosen, 2018-01-19 Contributions by Gökçe Elif Baykal Lincoln Geraghty Verónica Gottau Vanessa Joosen Sung Ae Lee Cecilia Lindgren Mayako Murai Emily Murphy Mariano Narodowski Johanna Sjoberg Anna Sparrman Ingrid Tomkowiak Helma van Lierop Debrauwer Ilgim Veryeri Alaca and Elisabeth Wesseling Media narratives in popular culture often assign interchangeable characteristics to childhood and old age presuming a resemblance between children and the elderly These designations in media can have far reaching repercussions in shaping not only language but also cognitive activity and behavior The meaning attached to biological numerical age even the mere fact that we calculate a numerical age at all is culturally determined as is the way people act their age With populations aging all around the world awareness of intergenerational relationships and associations surrounding old age is becoming urgent *Connecting Childhood and Old Age in Popular Media* caters to this urgency and contributes to age literacy by supplying insights into the connection between childhood and senescence to show that people are aged by culture Treating classic stories like the Brothers Grimm's fairy tales and Heidi pop culture hits like *The Simpsons* and *Mad Men* and international productions such as Turkish television cartoons and South Korean films contributors explore the recurrent idea that children are like old people as well as other relationships between children and elderly characters as constructed in literature and media from the mid nineteenth century to the present This volume deals with fiction and analyzes language as well as verbally sparse visual productions including children's literature film television animation and advertising      *Wittgenstein among the Sciences* Rupert Read, Edited by Simon Summers, 2016-02-17 Engaging with the

question of the extent to which the so called human economic or social sciences are actually sciences this book moves away from the search for a criterion or definition that will allow us to sharply distinguish the scientific from the non scientific Instead the book favours the pursuit of clarity with regard to the various enterprises undertaken by human beings with a view to dissolving the felt need for such a demarcation In other words Read pursues a therapeutic approach to the issue of the status and nature of these subjects Discussing the work of Kuhn Winch and Wittgenstein in relation to fundamental question of methodology Wittgenstein among the Sciences undertakes an examination of the nature of natural science itself in the light of which a series of successive cases of putatively scientific disciplines are analysed A novel and significant contribution to social science methodology and the philosophy of science and the human sciences this book will be of interest to social scientists and philosophers as well as to psychiatrists economists and cognitive scientists **The Power of**

**Instinct** Leslie Zane,2024-06-18 Award winning Fortune 500 brand consultant and behavioral expert Leslie Zane shatters conventional marketing wisdom showing readers how to tap into the hidden brain where instinct prevails creating a powerful network of connections that drive people to buy your product company or vision People don t make decisions with their conscious mind but on instinct In The Power of Instinct marketing consultant and behavioral science expert Leslie Zane shows that to grow a brand business or even a social movement traditional persuasion tactics fall short Instead you must connect to the instinctive mind And to do this you need to understand the science of consumer choice and employ techniques that work with a person s brain not against it Zane uncovers the hidden network of connections that dictates the snap decisions we make and cracks the code on how to influence it With a revolutionary set of rules for expanding the network Zane shows us how to make any brand business political candidate or idea the dominant instinctive choice With science as your guide as well as stories from the world s most successful brands from McDonald s and Lululemon to the Yankees and Taylor Swift you ll learn What kind of messages create the greatest amount of positive associations Why finding new customers accelerates growth and relying on existing ones is a trap Why emotional stories are not enough to drive trial and long term brand loyalty Whether you re an entrepreneur Fortune 500 executive marketing professional or job seeker mastering the power of instinct will help supercharge your growth and make whatever you re selling the first choice for any audience **Engineering** ,1895 **Royalty at home. **The Statutory Rules and Orders Revised** Great Britain,1951 Posthuman Worlds Adolfo Cacheiro,2022-03-03 Posthuman Worlds Roberto Bola o s Narrative and Virtual Reality presents interpretations of several novels and one short story by Roberto Bola o As befits the global setting of most of these narratives they are analyzed from the perspective of global culture and politics Particular attention is paid to transnational European politics as this topic is central to an understanding of the intertwined themes of politics and the law in Bola o s work In Distant Star and Labyrinth these themes exist within the context of a preoccupation with personal identity and ideology Adolfo Cacheiro utilizes psychoanalytic

interpretation and philosophical exegesis to clarify the subjective component of this preoccupation in the aforementioned texts The law is also a prominent theme of The Savage Detectives which Cacheiro interprets in relation to mythology One of the most innovative aspects of this book is the discussion of the role of virtual reality in Amulet and 2666 These novels are read as representations of a posthuman world that manifest an intertextual relationship with science fiction In 2666 virtual reality unifies the diverse components of a world system in time and space A phenomenological investigation of this reality supports the conclusion that the principle subject matter of 2666 is a naturalistic theology based on technology
