Fascism and Democracy in the Human Mind Israel W. Charny, 2006-01-01 What might you have done if you had been caught up in the Holocaust In *My Lai In Rwanda* Confronted with acts of violence and evil on scales grand and small we ask ourselves baffled how such horrors can happen how human beings seemingly like ourselves can commit such atrocities The answer I W Charny suggests in this important new work may be found in each one of us in the different and distinct ways in which we organize our minds An internationally recognized scholar of the psychology of violence Charny defines two paradigms of mental organization the democratic and the fascist and shows how these systems can determine behavior in intimate relationships social situations and events of global significance With its novel conception of mental health and illness this book develops new directions for diagnosis and treatment of emotional disorders that are played out in everyday acts of violence against ourselves and others *Fascism and Democracy in the Human Mind* also offers much needed insight into the sources and workings of terrorism and genocide A sane radical statement about the guiding principles underlying acts of violence and evil this book sounds a passionate call for the democratic way of thinking which recognizes complexity embraces responsibility and affirms life

The Genocide Contagion Israel W. Charny, 2016-07-15 In *The Genocide Contagion* Israel W Charny asks uncomfortable questions about what allows people to participate in genocide either directly through killing or other violent acts or indirectly by sitting passively while witnessing genocidal acts Charny draws on both historical and current examples such as the Holocaust and the Armenian Genocide and presses readers around the world to consider how they might contribute to genocide Given the number of people who die from genocide or suffer indirect consequences such as forced migration Charny argues that we must all work to resist and to learn about

ourselves before critical moments arise *Israel Yearbook on Human Rights, Volume 29 (1999)* Yoram Dinstein, Fania Domb, 2021-10-11 The Israel Yearbook on Human Rights an annual published under the auspices of the Faculty of Law of Tel Aviv University since 1971 is devoted to publishing studies by distinguished scholars in Israel and other countries on human rights in peace and war with particular emphasis on problems relevant to the State of Israel and the Jewish people The Yearbook also incorporates documentary materials relating to Israel and the Administered Areas which are not otherwise available in English including summaries of judicial decisions compilations of legislative enactments and military proclamations Volume 29 contains amongst others articles on Sanctity of Life Death with Dignity and Patient Autonomy Medical Ethos Ambivalence and Discretion *The Problem of Harm in World Politics* Andrew Linklater, 2011-02-10 The need to control violent and non violent harm has been central to human existence since societies first emerged This book analyses the problem of harm in world politics which stems from the fact that societies require the power to harm in order to defend themselves from internal and external threats but must also control the capacity to harm so that people cannot kill injure humiliate or exploit others as they please Andrew Linklater analyses writings in moral and legal philosophy that define and classify forms of harm and discusses the ways in which different theories of international relations suggest the power to harm can be controlled so that societies can co exist with the minimum of violent and non violent harm Linklater argues for new connections between the English School study of international society and Norbert Elias analysis of civilizing processes in order to advance the study of harm in world politics *The Compassionate Temperament* Natan Sznaider, 2001 This text argues that it is the nature of modernity to foster compassion It offers a historical view to disprove the idea that modernity erodes moral sentiment and breaks down older social bonds The book looks at the way in which modern society is building new and different social bonds *Political Theory and the Ecological Challenge* Andrew Dobson, Robyn Eckersley, 2006-08-10 In recent years the engagement between the environmental agenda and mainstream political theory has become increasingly widespread and profound Each has affected the other in palpable and important ways and it makes increasing sense for political theorists in each camp to engage with one another This book first published in 2006 draws together the threads of this interconnecting enquiry in order to assess its status and meaning Andrew Dobson and Robyn Eckersley have gathered together a team of renowned scholars to think through the challenge that political ecology presents to political theory Looking at fourteen familiar political ideologies and concepts such as liberalism conservatism justice and democracy the contributors question how they are reshaped distorted or transformed from an environmental perspective Lively accessible and authoritative this book will appeal to scholars and students alike *Israel Yearbook on Human Rights, Volume 10 (1980)* Yoram Dinstein, 2020-10-26 The Israel Yearbook on Human Rights an annual published under the auspices of the Faculty of Law of Tel Aviv University since 1971 is devoted to publishing studies by distinguished scholars in Israel and other countries on human rights in peace and war with particular emphasis on problems relevant to the State of Israel and

Imperial Reckoning Caroline Elkins, 2010-04-01 A major work of history that for the first time reveals the violence and terror at the heart of Britain's civilizing mission in Kenya As part of the Allied forces thousands of Kenyans fought alongside the British in World War II But just a few years after the defeat of Hitler the British colonial government detained nearly the entire population of Kenya's largest ethnic minority the Kikuyu some one and a half million people The compelling story of the system of prisons and work camps where thousands met their deaths has remained largely untold the victim of a determined effort by the British to destroy all official records of their attempts to stop the Mau Mau uprising the Kikuyu people's ultimately successful bid for Kenyan independence Caroline Elkins an assistant professor of history at Harvard University spent a decade in London Nairobi and the Kenyan countryside

interviewing hundreds of Kikuyu men and women who survived the British camps as well as the British and African loyalists who detained them The result is an unforgettable account of the unraveling of the British colonial empire in Kenya a pivotal moment in twentieth century history with chilling parallels to America s own imperial project Imperial Reckoning is the winner of the 2006 Pulitzer Prize for Nonfiction **Revival: Human Rights in Philosophy and Practice (2001)** Burton M. Leiser,Tom D. Campbell,2017-07-12 This title was first published in 2001 The essays in this highly cosmopolitan collection were selected from over 250 contributions presented at the 19th World Congress in Philosophy of Law and Social Philosophy IVR held in New York in 1999 They represent a cross section of contemporary work on human rights derived from eleven different countries
