The Impaired Physician Stephen Scheiber, 2013-11-11 The Oath of Hippocrates administered to generations of physicians as they embark on their profession begins I will look upon him who shall have taught me this art even as one of my parents I will share my substance with him and I will supply his necessities if he be in need Despite that solemn promise we have too often ignored or neglected the physician in trouble Even if we could put aside the human concerns of one physician for an impaired colleague can our profession truly permit that we must concede that our society can ill afford it This book which has been assembled and edited by Stephen C Scheiber and Brian B Doyle may be a lifesaver for the doctor in trouble and will be a health saver for the population of our country A land which decried the lack of physicians a quarter century ago and spent the vast resources to double the number of graduates in medicine cannot permit a tenth of all doctors to be out of commission That would be a large and for the most part preventable addition to the cost of health care in America In this book Scheiber and Doyle have gathered the expertise of many psychiatrists who are knowledgeable about the impaired physician

which depending on the predominance of one or another may lead to different types of alcoholism This view which has been labeled the bio psycho social perspective encompasses a larger view of the dynamics of the development of alcoholism incorporating data from each of the phenomenologic levels involved An additional complication arises from the fact that the physiological and psychosocial stigmata of alcoholics which are probably most often the result of prolonged drinking frequently have come to be considered as causes of the disease **Problems of Drug Dependence** Committee on Problems of Drug Dependence (U.S.).
