Art and Mourning Esther Dreifuss-Kattan, 2016-03-10. *Art and Mourning* explores the relationship between creativity and the work of self-mourning in the lives of 20th-century artists and thinkers. The role of artistic and creative endeavours is well known within psychoanalytic circles in helping to heal in the face of personal loss, trauma, and mourning. In this book, Esther Dreifuss-Kattan, a psychoanalyst, art therapist, and artist, analyses the work of major modernist and contemporary artists and thinkers through a psychoanalytic lens. In coming to terms with their own mortality, figures like Albert Einstein, Louise Bourgeois, Paul Klee, Eva Hesse, and others were able to access previously unknown reserves of creative energy in their late works, as well as a new healing experience of time outside of the continuous temporality of everyday life. Dreifuss-Kattan explores what we can learn about using the creative process to face and work through traumatic and painful experiences of loss. *Art and Mourning* will inspire psychoanalysts and psychotherapists to understand the power of artistic expression in transforming loss and traumas into perseverance, survival, and gain. *Art and Mourning* offers a new perspective on trauma and will appeal to psychoanalysts and psychotherapists, psychologists, clinical social workers, and mental health workers, as well as artists and art historians.

groundbreaking exploration of the ancient rules women unwittingly follow in order to be considered good revealing how the Seven Deadly Sins still control and distort our lives and illuminating a path toward a more balanced spiritually complete way to live Why do women equate self denial with being good We congratulate ourselves when we resist the donut in the office breakroom We celebrate our restraint when we hold back from sending an email in anger We feel virtuous when we wake up at dawn to get a jump on the day We put others needs ahead of our own and believe this makes us exemplary In On Our Best Behavior journalist Elise Loehnen explains that these impulses often lauded as unselfish distinctly feminine instincts are actually ingrained in us by a culture that reaps the benefits via an extraordinarily effective collection of mores known as the Seven Deadly Sins Since being codified by the Christian church in the fourth century the Seven Deadly Sins pride greed lust envy gluttony wrath and sloth have exerted insidious power Even today in our largely secular patriarchal society they continue to circumscribe women s behavior For example seeing sloth as sinful leads women to deny themselves rest a fear of gluttony drives them to ignore their appetites and an aversion to greed prevents them from negotiating for themselves and contributes to the 55 percent gender wealth gap In On Our Best Behavior Loehnen reveals how we ve been programmed to obey the rules represented by these sins and how doing so qualifies us as good This probing analysis of contemporary culture and thoroughly researched history explains how women have internalized the patriarchy and how they unwittingly reinforce it By sharing her own story and the spiritual wisdom of other traditions Loehnen shows how we can break free and discover the integrity and wholeness we seek
