with the cooperation of his widow Nancy Ghost Birds recounts in fascinating detail the scientist's dogged quest for the ivory bill as he chased down leads in eight southern states With Stephen Lyn Bales as our guide we experience the same awe and excitement that Tanner felt when he returned to the Louisiana wetland he had visited earlier and was able to observe and document several of the ghost birds including a nestling that he handled banded and photographed at close range Investigating the ivory bill was particularly urgent because it was a fast vanishing species the victim of indiscriminant specimen hunting and widespread logging that was destroying its habitat As sightings became rarer and rarer in the decades following Tanner's remarkable research the bird was feared to have become extinct Since 2005 reports of sightings in Arkansas and Florida made headlines and have given new hope to ornithologists and bird lovers although extensive subsequent investigations have yet to produce definitive confirmation Before he died in 1991 Jim Tanner himself had come to believe that the majestic woodpeckers were probably gone forever but he remained hopeful that someone would prove him wrong This book fully captures Tanner's determined spirit as he tracked down what was then as now one of ornithology's true Holy Grails STEPHEN LYN BALES is a naturalist at the Ijams Nature Center in Knoxville Tennessee He is the author of Natural Histories published by UT Press in 2007
