**The Equinox** Aleister Crowley, Hymenaeus Beta, 1990-01-01 Along with his written works Aleister Crowley s legacy includes the organization he is credited with founding the OTO or Ordo Templi Orientis The Order of Oriental Templars This book contains key introductory material to this contemporary occult society along with a history of the Order after Crowley s death The format of this edition matches that of the first Equinox series published with Crowley as editor and includes magical instruction communications to OTO members all the dirt on court cases the OTO has been involved in and original works of fiction and poetry As part of this latter category this book features an illustrated study of the works of underground filmmaker Kenneth Anger with a complete filmography It could be argued that Aleister Crowley 1875 1947 anticipated the entire New Age phenomenon with his methods of teaching codified in the tenets of the OTO A rich melange of ritual magic traditional spiritual practice drug use and sex borrowing from many different cultures and traditions informed the development of this lasting magical system Although he s been popularized and demonized as The Beast 666 his teachings have shown lasting value

**The Magick of Aleister Crowley** Lon Milo DuQuette, 2003-11-15 Aleister Crowley s ascension into the pantheon of alternative gurus was cemented by his appearance on The Beatles Sgt Pepper s Lonely Hearts Club Band album cover Unfortunately he was known more for his reputation as The Beast 666 and The Wickedest Man in the World All well and good for publicity but this infamy eclipsed his teachings as did his technical and opaque writing style meant more for adepts contemporary to him than the average modern reader Enter Lon Milo DuQuette to decipher and explain Crowley s texts and more important rituals The Magick of Aleister Crowley is a clear introduction to the works of Crowley by a modern master of the occult and one of the wittiest writers in the field DuQuette takes the mystery out of both

the rituals themselves and Crowley's writing in this modern grimoire. Step by step he presents a course of study in plain English with examples of rituals and explanations of their significance. DuQuette also includes a course of study for Crowley's original works with an extensive bibliography and fastidious footnotes. Formerly titled *The Magick of Thelema*, this revised edition features extensive corrections, a new introduction, and a new ritual, *The Rites of Eleusis*. This is the perfect introductory text for readers who wonder what the works rather than the myth of Aleister Crowley are all about.
