Why Do So Many Incompetent Men Become Leaders? Tomas Chamorro-Premuzic, 2019-02-19 Look around your office Turn on the TV Incompetent leadership is everywhere and there's no denying that most of these leaders are men In this timely and provocative book Tomas Chamorro Premuzic asks two powerful questions Why is it so easy for incompetent men to become leaders And why is it so hard for competent people especially competent women to advance Marshaling decades of rigorous research Chamorro Premuzic points out that although men make up a majority of leaders they underperform when compared with female leaders In fact most organizations equate leadership potential with a handful of destructive personality traits like overconfidence and narcissism In other words these traits may help someone get selected for a leadership role but they backfire once the person has the job When competent women and men who don't fit the stereotype are unfairly overlooked we all suffer the consequences The result is a deeply flawed system that rewards arrogance rather than humility and loudness rather than wisdom There is a better way With clarity and verve Chamorro Premuzic shows us what it really takes to lead and how new systems and processes can help us put the right people in charge

Frankfort Moore Hopeful Pedagogies in Higher Education Mike Seal,2021-05-20 Many accounts of critical pedagogy
particularly accounts of trying to enact it within higher education HE express a deep cynicism about whether it is possible to
counter the ever creeping hegemony of neo liberalism neo conservatism and new managerialism within Universities Hopeful
Pedagogies in Higher Education acknowledges some of these criticisms but attempts to rescue critical pedagogy locating
some of its associated pessimism as misreading of Freire and offering hopeful avenues for new theory and practice These
misreadings are also located in the present in the assumption that unless change comes within the lifetime of the project it
has somehow failed Instead this book argues that a positive utopianism is possible Present actions need to be celebrated and
cultivated as symbols of hope possibility and generativity for the future which the concept of hope implies The contributors
make the case for celebrating the pedagogies of HE that operate in liminal spaces situated in the spaces between the present
and the future between the world as it is and the world as it could be and also in the cracks that are beginning to show in the
dominant discourses
